## **Law Books in Action 2012-04-02**

law books in action essays on the anglo american legal treatise explores the history of the legal treatise in the common law world rather than looking at treatises as shortcuts from law in books to law in action the essays in this collection ask what treatises can tell us about what troubled legal professionals at a given time what motivated them to write what they did and what they hoped to achieve this book then is the first study of the legal treatise as a law book in action an active text produced by individuals with ideas about what they wanted the law to be not a mere stepping stone to codes and other forms of legal writing but a multifaceted genre of legal literature in its own right practical and fanciful dogmatic and ornamental in turn this book will be of interest to legal scholars lawyers and judges as well as to anyone else with a scholarly interest in law in general and legal history in particular

## **The Spirit of the Common Law 1921**

the spirit of the common law is one of roscoe pound s most notable works it contains the brilliant lectures he delivered at dartmouth college in the summer of 1921 it is a seminal book embodying the spiritual essence of sociological jurisprudence by its leading prophet this work is both a celebration of the common law and a warning for common law judges and lawyers to return to and embrace the pragmatism and judicial empiricism that define and energize the common law the two fundamental doctrines of the common law pound writes are the doctrine of precedents and the doctrine of supremacy of law in an earlier preface justice arthur j goldberg writes that the spirit of the common law will always be treasured by judges and lawyers for its philosophy and history but more importantly for roscoe pound s optimism and faith in the capacity of law to keep up with the times without sacrificing fundamental values it is a faith built upon the conviction that the present is not to be divorced from the past but rather that the past and the present are to be built upon to make a better future neil hamilton and mathias alfred jaren provide a biographical introduction to the book they discuss the various influences upon pound s scholarly pursuits and they analyze many of his writings that led up to the spirit of the common law this volume is a necessary addition to the libraries of legal scholars and professionals sociologists and philosophers

## **Implementation of Law in the People's Republic of China 2021-08-04**

china after some twenty years of reform is no longer a country without law indeed one may legitimately complain that there are too many laws that are changing too rapidly however law acquires no life nor performs its intended social functions without proper implementation and enforcement here few people chinese or foreign are content with the general situation of implementation of law in china the problems and difficulties in implementing and enforcing laws and regulations are reported and discussed in the various forums of the chinese media almost on a daily basis and often reported in western media also academics in china are filling the pages of various legal journals with their

diagnoses and analyses of the causes of and solutions to the lack of proper implementation of law and legal regulations and policy measures are being issued to deal with these problems and to overcome the difficulties the future of the rule of law in china as we are so often reminded by scholars of chinese politics and law largely depends on the proper implementation and enforcement of law this is a book about law in action in china that is it focuses on the administration of the law as a process through which law in the books is put into action and hence is made to perform its intended social functions it deals with the process the institutional settings the players and the political economic social and cultural settings the factors involved in the administration of law in china throughout the book we will see a variety of problems and difficulties involved in implementing and enforcing laws and regulations that are identified and analyzed by the contributors we will also see analyses on legal regulations and policy measures that have been issued to rectify the many identified problems to raise the standard of actual implementation of law and to improve the functioning of the various law implementing enforcing authorities additionally the book provides various case studies on implementation of law in china the present book we believe is among the first collective efforts at a systematic and comprehensive study of the implementation of law in china and we hope that it will stimulate many more such studies studies on the actual operation and impact of law on society and on individuals

## **Law in Literature 2017-12**

law in literature an annotated bibliography of law related works is a collection of two hundred and fifty annotations of law related novellas novels and plays written by scholars with an interest in the field this annotated bibliography is intended as a companion piece to law in literature legal themes in american stories 1842 1917 law in literature legal themes in drama and law in literature legal themes in novellas unlike the other three books in this series law in literature an annotated bibliography of law related works is not useful as a textbook for a law in literature course in an academic setting it is useful to professors seeking to assign works for reading by the students students who are interested in the topic might want to obtain the book as a reference tool to discover works for further reading also the book is intended to reach an audience of those engaged in the legal system and to anyone interested in exploring the rich stories annotated in this volume

## **Family Law in the Twentieth Century 2003**

the law governing family relationships has changed dramatically in the course of the 20th century and this book drawing extensively on both published and archival material and on legal as well as other sources gives an account of the processes and problems of reform

## **The Force of Law 2015-02-10**

many legal theorists maintain that laws are effective because we internalize them obeying even when not compelled to do so in a comprehensive reassessment of the role of force in law frederick schauer disagrees demonstrating that coercion more than internalized thinking and behaving distinguishes law from society's other rules reinvigorating ideas from jeremy bentham and john austin and drawing on empirical research as well as philosophical analysis schauer presents an account of legal compliance based on sanction and compulsion showing that law's effectiveness depends fundamentally on its coercive potential law in short is about telling people what to do and threatening them with bad consequences if they fail to comply although people may sometimes obey the law out of deference to legal authority rather than fear of sanctions schauer challenges the assumption that legal coercion is marginal in society force is more pervasive than the state's efforts to control a minority of disobedient citizens when people believe that what they should do differs from what the law commands compliance is less common than assumed and the necessity of coercion becomes apparent challenging prevailing modes of jurisprudential inquiry schauer makes clear that the question of legal force has sociological psychological political and economic dimensions that transcend purely conceptual concerns grappling with the legal system's dependence on force helps us understand what law is how it operates and how it helps organize society

## **Law in the United States 2006**

this text was designed to be a realistic introduction to american law for students from civil law backgrounds it shows that american law is neither a pliable common law that allows judges to make law at will nor a static system rather it presents american law as a complicated mix of statutory and common law that often interact

## **Law in Literature: A Reading 1933**

law without force is a landmark in political and social philosophy it proposes nothing less than a completely new basis for international law as relevant today as when it was first published nearly sixty years ago it commands the attention of all concerned with what the future may bring to the law of nations the great scope of niemeyer's undertaking draws respect even from those who disagree with his challenging analysis of the historical past and his suggestions for the future of international law in his new introduction michael henry observes that law without force provides us with a foundation of niemeyer's thinking published in 1941 when hitler was swallowing up europe this volume shows how a first rate mind grappled with a legal historical social and ultimately metaphysical problem it provides in detail the reasoning behind niemeyer's rejection of a foreign policy based on morality and his distinction between authoritarian and totalitarian governments and it provides us with the first stage of his lengthy and prodigious effort to understand this terrible century it is a book that no serious student of niemeyer can afford to ignore at the very heart of the author's vigorous discussion may be found his rejection of a moral basis for international law and his suggestion that a functional basis should be substituted for it the book incisively reviews the relation between traditional international law and the changing structure of international politics concluding that the traditional system of law has operated as an agency of disharmony and conflict after an investigation of the traditional legal system the author then asks what type of law fits the social structure of this modern world the answers are presented in the last part of the book as neimeyer offers his case for a functional system of law divorced from moral exhortations or appeals to shattered authority philosophy sociology and legal theory are brilliantly interwoven in this volume which will engage serious readers interested in political and social theory

the making of modern law foreign comparative and international law 1600 1926 brings together foreign comparative and international titles in a single resource its international law component features works of some of the great legal theorists including gentili grotius selden zouche pufendorf bijnkershoek wolff vattel martens mackintosh wheaton among others the materials in this archive are drawn from three world class american law libraries the yale law library the george washington university law library and the columbia law library now for the first time these high quality digital scans of original works are available via print on demand making them readily accessible to libraries students independent scholars and readers of all ages the below data was compiled from various identification fields in the bibliographic record of this title this data is provided as an additional tool in helping to insure edition identification yale law librarylp3y100520019040101the making of modern law foreign comparative and international law 1600 1926 first appeared as an appendix to the second edition of civilrechtsfalle ohne entscheidungen published in the year 1870 cf author s pref oxford at the clarendon press 1904xi 169 p 20 cmunited kingdom

## **Law in Daily Life a Collection of Legal Questions Connected with the Ordinary Events of Everyday Life 2013-09**

much of our law is based on authoritative texts such as constitutions and statutes the common law in contrast is that part of the law that is established by the courts common law rules predominate in some areas of

law such as torts and contracts and are extremely important in other areas such as corporations nevertheless it has been far from clear what principles courts use or should use in establishing common law rules in this lucid yet subtly argued book melvin eisenberg develops the principles that govern this process the rules established in every common law case he shows are a product of the interplay between the rules announced in past precedents on the one hand and moral norms policies and experience on the other however a court establishing a common law rule is not free as a legislator would be to employ those norms and policies it thinks best rather it can properly employ only those that have a requisite degree of social support more specifically the common law should seek to satisfy three standards first it should correspond to the body of rules that would be arrived at by giving appropriate weight to all moral norms policies and experiential propositions that have the requisite support and by making the best choices where norms policies and experience conflict second all the rules that make up the body of the law should be consistent with one another third the rules adopted in past precedents should be applied consistently over time often these three standards point in the same direction the central problems of legal reasoning arise when they do not these problems are resolved by the principles of common law adjudication with the general principles of common law adjudication as a background the author then examines and explains the specific modes of common law reasoning such as reasoning from precedent reasoning by analogy drawing distinctions and overruling throughout the book the analysis is fully illustrated by leading cases this innovative and carefully worked out account of the common law will be of great interest to lawyers law students students in undergraduate legal studies programs scholars interested in legal theory and all those who want to understand the basic legal institutions of our society

## **The Nature of the Common Law 1991-10-01**

american law in a global context is an elegant and erudite introduction to the american legal system from a global perspective it covers the law and lawyering tools taught in the first year of law school explaining the underlying concepts and techniques of the common law used in u s legal practice the ideas central to the development and practice of american law as well as constitutional law contracts property criminal law and courtroom procedure are all presented in their historical and intellectual contexts accessible to the novice but with insight that will inform the expert actual cases illuminate each major subject engaging readers in the legal process and the arguments between real people that make american law an ever evolving system

## **American Law in a Global Context 2005-02-03**

presenting fresh perspectives on a range of contemporary issues in international law this book draws on the work of major contributors to legal and political theory arguing that international law lacks the vocabulary to deal with the collective dimension and therefore perpetuates an individualistic vocabulary the book develops and articulates a more appropriate collective approach for public international law in doing so it reframes longstanding problems such as the conflict between self determination and the integrity of states and the effects and the limits of state sovereignty in an increasingly globalized world

## **International Law as the Law of Collectives 2013**

the first english translation of a comprehensive legal history of europe from the early middle ages to the twentieth century encompassing both the common aspects and the original developments of different countries as well as legal scholars and professionals it will appeal to those interested in the general history of european civilisation

## **A History of Law in Europe 2017-08-03**

this book provides a challenging interpretation of the emergence of the common law in anglo norman england against the background of the general development of legal institutions in europe in a detailed discussion of the emergence of the central courts and the common law they administered the author traces the rise of the writ system and the growth of the jury system in twelfth century england professor van caenegem attempts to explain why english law is so different from that on the continent and why this divergence began in the twelfth century arguing that chance and chronological accident played the major part and led to the paradox of a feudal law of continental origin becoming one of the most typical manifestations of english life and thought first published in 1973 the birth of the english common law has come to enjoy classical status and in a preface professor van caenegem discusses some recent developments in the study of english law under the norman and earliest angevin kings

## **The Birth of the English Common Law 1988-11-24**

the anthology law in society explores how law shapes and is shaped by societies the selections stem from a view of law as an integral part of the wider socio political economy and one of its central institutions the introduction familiarizes students with definitions and explanations of criminal law explores the functions of law and provides an overview of the theories of law covered in the rest of the book the first section of the text examines sources of law natural law theory and the concept of positive or formal law the second section considers the origins of law in social structures and provides an overview of sociology of law the third section is devoted to sources of law and social control such as custom social norms and group processes the final section introduces critical theories of law and considers recent developments in alternative dispute resolution and restorative justice through reading law in society students come to recognize that as a society changes so too do its laws and legal system the book is well suited to courses in criminal justice and sociology as well as those in social or cultural anthropology

## **Law in Context 19??**

this book presents an original deliberately controversial and at times disturbing appraisal of the state of comparative law at the beginning of the 21st century its weaknesses its strengths and its protagonists most of whom were personally known to the author during the preceding thirty five years it is also a reminder of the unique opportunities the subject has in our shrinking world the author brings to bear his experience of thirty five years as a teacher of the subject to criticise the impact the long association with roman law has had on the orientation and well being of his subject with equal force he also warns against some modern trends linking it with variations of the critical legal studies movement and urges the study of foreign law in a way that can make it more attractive to practitioners and more usable by judges at the end of the day this monograph represents a passionate call for greater intellectual co operation and offers one way of achieving it a co operation between practitioners and academics on the one hand and between common and modern civilian lawyers on the other in an attempt to save the subject from the marginalisation it suffered in the 1980s and from which the globalisation movement of the 21st century may be about to deliver it

## **A Systematic and Historical Exposition of Roman Law in the Order of a Code 1803**

the law of the united states offers an introduction and overview of the american legal system with an emphasis throughout on up to date case law and current literature it is an ideal first point of entry for students and practitioners alike and a starting point for further independent

research professor hay provides a concise and straightforward explanation of the law and legal vocabulary as well as an introduction to the different types of law and legal techniques he explains the role of congress the executive and the courts and clarifies the mechanisms behind the branches of public and private law in the united states he introduces the reader to the complexities of federal and state law emphasizing that the many areas of public law and virtually all areas of private law are the separate law of the 50 states the district of columbia and the u s dependent territories in which common language legal tradition and culture have served to bring about a basic legal unity several private law areas contract law torts family law succession receive detailed treatment as do criminal law and procedure the book provides detailed references to legislation case law and the literature up to date through early 2016 four appendices present a detailed case study with commentary to aid the civil law reader in understanding of the case law system the text of the u s constitution referred to in several contexts throughout the book a geographic map of the u s federal court system and information on the legal profession in the united states

## ***Law and Society 2016-01-10***

this book was originally published as a monograph in the international encyclopaedia of laws medical law

## ***???????????? 2014***

academic legal production when it focuses on the study of law generally grasps this concept on the basis of a reference to positive law and its practice this book differs clearly from these analyses and integrates the legal approach into the philosophy of normative language philosophical realism and pragmatism the aim is not only to place the examination of law in the immanence of its practice but also to take note of the fact that legal enunciation must be taken seriously in order to arrive at this analysis it is necessary to go beyond traditional perspectives and to base reflection on an investigation of the conditions for enunciating law in our democracies this analysis thus offers a renewal of the ethics inherent in the action of jurists and an original reflection on the role of certain legal tools such as concepts categories or provisions in this sense the work nourishes its originality not only by the transversality of its approach but also by the will to situate legal thought in concrete forms of its implementation the book will be essential reading for academics working in the areas of legal theory legal philosophy and constitutional theory

agreement in llc governance and 2019 case and associated exercises highlighting lcc dissolution standards newly added cases and exercises in chapter 9 highlighting the continued evolution of delaware s caremark corporate monitoring and oversight doctrine including references to the delaware supreme court s recent decision in marchand v barhill 212 a 3d 805 809 del 2019 reversing the dismissal of caremark claims against an ice cream manufacturer over allegedly persistent food safety issues and the chancery court s decision in clovis oncology inc derivative litig c a no 2017 0222 jrs 2019 wl 4850188 oct 1 2019 denying a motion to dismiss caremark claims involving allegedly serial non compliance with fda protocols and regulations having to do with drug approval an additional case in chapter 10 that asks whether the disrespectful and unfairly disproportionate treatment of a female shareholder by the male majority in a closely held corporation constitutes corporate oppression pursuant to new york business corporation law 1104 a a 1 a new case in chapter 10 in which shareholders of amerisourcebergen one of the world s leading wholesale distributors of opioid painkillers sought to exercise their inspection rights under dgcl 200 to investigate whether the firm had engaged in wrongdoing in connection with the distribution of opioids additional and expanded references to model business corporation act mbca standards across chapters 8 9 and 10 including expanded references to mbca standards concerning director conflicting interest transactions the corporate opportunity doctrine and the mbca s universal demand rule for derivative actions a new case in chapter 3 addressing duties of loyalty and candor in the partnership context that invokes the meinhard v salmon standard in a manner that is more accessible to students updated coverage of the proxy system and proxy regulation securities offering rules and regs and developments in insider trading law new cases and spotlight sections that address a variety of timely issues including unicorns start up businesses with a valuation of at least 1 billion claims involving opioid manufacturers and corporate governance matters involving metoo claims professors and students will benefit from features that engage students in applying theory to practice such as real life applications application exercises and applying the concepts experiential exercises on drafting documents and preparing appropriate filings an overview in chapter one of the various forms of business organization and their key attributes advantages and disadvantages an emphasis on contemporary principal cases and issues that resonate with today s students and fuel class discussion clear exposition of legal principles means students can absorb assigned reading on their own and professors don t have to explain it from the lectern in class attention to attorney ethical issue and rules that commonly arise in the representation of business entities the online ascii art generator can convert text to multiline text boxes try it now

## **Medical Law in Austria 2014**

this book offers an advanced introduction to central questions in legal philosophy what factors determine the content of the law in force what makes a normative system a legal system how does law beyond the state differ from domestic law what kind of moral force does law have these are all questions about the nature of law the most important existing views are introduced but the aim is not to survey the existing literature rather this book introduces the subject by stepping back from the fray to sketch the big picture to show just what is at stake in these old debates legal philosophy has become somewhat arid and inward looking in part this is because the disagreement between the main camps on the important questions is apparently intractable the main aim of the book is to suggest both a diagnosis and a proper practical response to this situation of intractable disagreement about questions that do matter

## **Law and the Philosophy of Language 2021**

this is a new release of the original 1919 edition

## **LAW IN CONTEXT [??] 2010-12**

it is an enduring axiom before there is democracy there is rule of law thomas geoghegan argues here in his lively pamphlet that as the pillars of the american legal system are crumbling so too is the american democracy geoghegan convincingly explains how the 2000 presidential election was only the first sign that justice is now driven by party politics he notes how even lawyers are becoming disillusioned with the law as federal cases are increasingly determined by whether they are heard by a bush appointed judge or a clinton appointed judge geoghegan ultimately contends that the sense of disorder in our legal system has never been greater and we may no longer have the basic civic trust necessary to preserve the rule of law

## ***Business Organizations Law in Focus 2022-10-27***

private law governs our most pervasive relationships with other people the wrongs we do to one another the property we own and exclude from others use the contracts we make and break and the benefits realized at another's expense that we cannot justly retain the major rules of private law are well known but how they are organized explained and justified is a matter of fierce debate by lawyers economists and philosophers ernest weinrib made a seminal contribution to the understanding of private law with his first book the idea of private law in it he argued that there is a special morality intrinsic to private law the morality of corrective justice by understanding the nature of corrective justice we understand the purpose of private law which is simply to be private law in this book weinrib takes up and develops his account of corrective justice its nature and its role in understanding the law he begins by setting out the conceptual components of corrective justice drawing a model of a moral relationship between two equals and the rights and duties that exist between them he then explains the significance of corrective justice for various legal contexts for the grounds of liability in negligence contract and unjust enrichment for the relationship between right and remedy for legal education for the comparative understanding of private law and for the compatibility of corrective justice with state support for the poor combining legal and philosophical analysis corrective justice integrates a concrete and wide ranging treatment of legal doctrine with a unitary and comprehensive set of theoretical ideas alongside the revised edition of the idea of private law it is essential reading for all academics lawyers and students engaged in understanding the foundations of private law
