1978

as sydney prepares to host the 2000 olympic games this study assesses the cultural impact of sport on the australasian countries here as in other parts of the world sport is taken as an assertion of both individual and group identity a demonstration of modernity and a source of personal local and regional esteem this collection explores the political social and aesthetic influence of modern sport attitudes to the body and the evolution of specific australasian visions of sport

## ***Achieving Access and Equity***

1994

australia s english raises many questions among experts and the general public what is it like how has english changed by being transplanted to other parts of the world does the rise of ause and other varieties endanger the role of english as a world language past studies have often been selective focusing on the esoteric and non typical and ignoring the contact situation in which australian english has developed this book and its companion australia s many voices ethnic englishes indigenous and migrant languages policy and education develop and apply a comprehensive and integrative approach that anchors english in the entire habitat of australia s languages that it both upset and transformed based on a wide range of data and on the assumption that all manifestations of australian english must cohere as a system this book retraces the social psycholinguistic and linguistic history of the language it locates the contact with indigenous and migrant languages and with american english in the appropriate sociohistorical context and shows how several layers of migration have shaped it as it stratified it was gradually accepted and developed into a fully fledged national variety or epicentre of english that could be raised to the status of national language implications on educational policy and attempts to reach out into the asia pacific region have followed logically from national status the study is of interest for specialists of english and australian studies as well as a range of other disciplines its discursive non technical style and presentation makes it accessible to non specialists with no background in linguistics

## **Australian Good Birding Guide**
