

Free read Discovery channel the big of sharks .pdf

millions of years ago the deadly megalodon shark three times larger than our modern great white shark roamed our seas killing everything and anything in its path convinced it was extinct scientists agreed the seas were safe from such a massive predator until one surfaced off the coast of california and our safety in or on the water was no longer such a sure thing describes the ten largest species of sharks this is a wonderful collection of 30 high quality amazing images produced by a series of today s top professional photographers enjoy and be inspired no one wants to play with me says shark he sets off with a big bag and a cunning plan and collects lots of terrified fish along the way what could shark s big surprise be use your reading superpowers to learn all about sharks from the whale shark to one that glows in the dark a high quality fun non fiction reader carefully levelled to help children progress little sharks big sharks is a beautifully designed reader all about fourteen different sharks and what makes each one unique think you know sharks read on the engaging text has been carefully levelled using lexiles so that children are set up to succeed a motivating introduction to using essential non fiction reading skills children will love to find out about the different sharks in our oceans and what makes each unique when sharky shark goes in search of food he almost becomes a meal himself based on the all new nickelodeon series this fin tastic storybook is perfect for sharing with the baby shark fan in your life baby william and vola are excited to enter their band in the sea jam slam the battle of the bands taking place at the party puddle but when shadow enters too their rivalry heats up and baby must remember why they started making music in the first place for the fun of doing it together baby shark s big show is a nickelodeon animated series starring everyone s favorite shark along with his shark family and ocean friends the show is based on the pinkfong characters from the youtube global phenomenon with over 8 billion views big meg is big fun it s packed to the gills with gobsmacking facts insightful conjecture and personal obs from two world class scientists and explorers a megaladon of delight for any shark lover sy montgomery author of the soul of an octopus tim flannery scores again diving into the murky myth filled waters surrounding the world s biggest predator and surfacing with a breathless true story stuffed with astounding facts and personal experience lucy cooke author of bitch and the unexpected truth about animals if you are not already addicted to tim flannery s writing discover him now jared diamond author of collapse and guns germs and steel imagine a ferocious marine hunter up to twenty metres long weighing twice as much as a humpback whale and ten times more than tyrannosaurus rex with jaws that can open two metres wide crammed with 276 serrated fangs it can bite down with the greatest force of any animal that has ever lived this is the megalodon also known as the bigtooth and it swam in our waters three million years ago compared with the dinosaurs wiped out 66 million years ago this is but a stone s throw into our planet s shadowy past when monsters reigned yet the megalodon has been largely absent from the fossil record leaving behind only a smattering of teeth and vertebrae prized by collectors its existence steeped in mystery until now marking a milestone in palaeontology tim flannery celebrated environmentalist zoologist and explorer and his scientist daughter emma tell the story of the giant shark for the first time big meg follows the quest to demystify the colossus that left earth with barely a trace reveals where and how it lived and discusses the theories and haunting stories surrounding this ancient legendary creature including that it may still stalk the deep this is the biography of the ultimate apex predator a vital piece of the great natural history of our planet and a compelling exploration of its awesome grip on the human imagination today tim flannery is the real thing a man with a gift for lucid exposition who can really make his subject come alive literary review this man is a national treasure and we should heed his every word sunday telegraph for a week every summer for the last 25 years millions have been glued to their tv screens mesmerized by discovery channel s shark week programming the big book of sharks captures the excitement of shark week between 2 covers with spectacular photos intense stories and endlessly fascinating information about these mysterious and deadly creatures from terrifying great whites to bizarre goblin sharks to rare pre historic species every page features jawdropping photography and amazing revelations about shark extremes behavior attacks and more five pull out posters complete the package for shark fans of all ages big shark has big teeth little shark has little teeth big shark sees little shark oh no it s valentine s day and chomp the lemon shark is new to the neighborhood he hasn t made any friends yet so who will be his valentine provides information on great white sharks and shares a shark diver s experiences searching for and photographing them tales about divers sharks shark catching game fishing for sharks sharks that attack shark behavior shark lore whale

sharks live in an ocean full of amazing creatures but these massive aquatic beasts stand apart because of their size and with that comes fascinating features such as having 3 000 tiny teeth through full color photographs and easy to read text young readers explore the seas through their eyes seeing for themselves how these astonishingly large animals survive in the wild these fascinating animals truly are the largest fish in the sea and readers will explore the habitats and habits of these strange sharks with ease thanks to this innovative book i remember thinking two things at the time firstly if it had wanted to eat us we wouldn't have stood a chance and second it didn't want to eat us when james woodford was confronted by half a dozen sharks swimming at full speed he froze in shock but he was even more surprised when they swam right past completely ignoring him he couldn't reconcile this experience with the mindless eating machines that dominate the discussion of sharks in australia interviewing world renowned experts and joining research teams at neptune islands one of the most famous shark aggregation locations in the world and consequently one of the most dangerous dive sites james investigates these intriguing creatures at close range and discovers their fascinating world use your reading superpowers to learn all about sharks from the whale shark to one that glows in the dark a high quality fun non fiction reader carefully levelled to help children progress little sharks big sharks is a beautifully designed reader all about fourteen different sharks and what makes each one unique think you know sharks read on the engaging text has been carefully levelled using lexiles so that children are set up to succeed a motivating introduction to using essential non fiction reading skills children will love to find out about the different sharks in our oceans and what makes each unique meet different sharks from around the world in this rhyming board book did you know that some sharks have friends or that there are some sharks bigger than trucks while others are smaller than ducks there are sharks who can walk on land and others who play hide and seek in the sand shark expert and enthusiast mark leiren young's rhyming couplets are paired with striking photographs of many different kinds of sharks introducing little ones to the wonder and variety of
