to see beauty as the face of love rather than the arbitrary gift of fortune is to enlarge our sense of life s possibilities a woman becomes beautiful when she believes that her appearance reflects her essential self ellen zetzell lambert explores the connection of physical appearance to self esteem through photography literature and life experience

The Face of Love 1996-07-01

2014-11-30

drew a hybrid one of continental philosophy's keenest interpreters of Plato takes up the question of beauty in three Platonic dialogues: the *Hippias Major*, *Symposium*, and *Phaedrus*. What Plato meant by beauty is not easily characterized, and Hyland's close readings show that Plato ultimately gives up on the possibility of a definition. Plato's failure, however, tells us something important about beauty: that it cannot be reduced to logos. Exploring questions surrounding love, memory, and ideal form, Hyland draws out the connections between beauty, the possibility of philosophy, and philosophical living. This new reading of Plato provides a serious investigation into the meaning of beauty and places it at the very heart of philosophy.

bertolt brecht once worried that how we feel about the victims of a social problem can get in the way of the beauty and attraction of the problem itself in this book walter benn michaels explores the same dilemma through a study of several contemporary artist photographers whose work speaks to questions of political economy michaels focuses on the work of several artists mostly born in the 1970s and thus raised in a world where artistic ambition has been identified with a critique of autonomous form and of meaning as a function of intention michaels shows that these artists engage but also push beyond this critique of autonomy and intentionality producing works that embody a new commitment to form and meaning the explanation for this commitment he argues is these artists consciousness of making art in an economy riven by structural conflict especially an unprecedented rise in inequality for them he argues the relationship of the art work to the worldto its

subject and to its beholderfunctions as an emblem of the relation between classes rather than identities or subject positions this book will join the short shelf of essential writings about the medium of photography

The Philosophy of the Beautiful 1893

many observers greeted the second vatican council 1962 65
as the most important religious event in the twentieth century
its implementation and impact are still being felt in the
catholic church the wider christian world and beyond one sea
change that vatican ii brought concerned roman catholic
attitudes towards judaism islam and other religions gerald o
collins breaks fresh ground by examining in detail five
documents from the council which embodied a new mindset
about other religious faiths and mandated changes that

quickly led to international and national dialogues between the catholic church and the followers of non christian religions the book also includes chapters on the insights that prepared the way for the rethinking expressed by vatican ii and on the follow up to the council s teaching found in the work of pope john paul ii and jacques dupuis o collins ably illustrates how the council made a startling advance in official catholic teaching about followers of other living faiths carefully researched the book is written in the clear accessible style that readers of previous works by o collins will recognize

2012-05

this book establishes an argument for deeper attention to the aesthetic qualities of literature to the question of the relation between the aesthetic and more immediate practical and urgent social and political matters it attempts to establish the intrinsic value of the aesthetic at the same time as it
