The Development of Tropical Lands 2013-11-26

monograph studying the geographical aspects of patterns of economic development in african countries in the tropical zone incl east africa west africa and central africa covers agricultural development agricultural mechanization land tenure agricultural production fishing forestry mining the power supply industrial development sea transport inland water transport railway transport road transport air transport urbanization international relations etc illustrations maps references and statistical tables

Tropical Development, 1880-1913 2005-11-03

africa in the world economy the pre colonial economy impact of colonialism the neo colonial economy the economic distance focus on development strategy characteristics and development performance natural resources human resources financial resources economic organization beyond mechanistic growth influence of development theorizing theory in disarray evolution of development theorizing problem of relevance problem of realism ingredients for economic design lessons from comparative experience resource

base and market size growth without development economic institutions and social control rural transformation manpower development regional balance balance of payments inflation and structural change stunted growth and distorted development formulating policies and programmes contradictions in the development process characteristics of capital distortion external relations and development strategy objectives and goals institution building policy instruments programmes and projects perspectives for social debate central themes approaches to economic decolonization limits of revolutionary rhetoric issues and non issues information and knowledge

The Geography of Tropical African Development 1971

this best selling textbook focuses on the changes in geographical patterns that have taken place in recent years i e on the geographical pattern of recent and current economic change the area covered includes the countries lying between the limits of the tropic of cancer and the tropic of capricorn in this second edition substantial changes have been made in every chapter in order to keep up to date in respect of both the geographical pattern of development and prevailing attitudes towards it the discussion is still largely confined to the twenty year period between 1956 and 1976 and to the economic component of development

Seaports and Development in Tropical Africa 2016-01-06

until recently the phenomenal economic development of the asian tigers chile and malaysia as well as the sustained economic growth of the united states painted a very desirable and optimistic picture of free markets fiscal responsibility and more generally the entire dogma of neoclassical economics as of the fall of 1998 however the economies of many tropical countries have contracted severely and the enthusiasm of the developing tropics for the free market and all of its ancillary policies is decidedly cooler have our traditional approaches to economics been failing the developing world this interdisciplinary book covers the conditions of the developing tropics the resistance of some of their problems to earlier attempts at solutions and the use of new tools to develop a much more comprehensive and empirical framework for analysis and decision making it also presents the development of cutting edge technology that links gis and modeling approaches with extensive databases on meteorology soils agricultural production and land use the book discusses whether development is sustainable through a synthesis of demographic economic and resource specific considerations costa rica is uniquely suited to this study because of its size stage of development democratic institutions and national databases a cd rom containing all data and programs color images animated models large data tables and references accompanies the book links economic and biophysical analyses of sustainability presents new tools and approaches for analysis and decision making includes a cd rom containing data and programs color images animated models and references

Rural Development in Tropical Africa 1981-06-18

this book is the outcome of a workshop on the conversion of tropical forest to pasture in latin america convened in Oaxaca Mexico in 1988 it examines the dynamics underlying this complex and destructive process and enlisted multiple perspectives in order to identify alternatives

Issues in the Development of Tropical Africa 1976

in 1971 the international society of tropical ecology and the international association for ecology held a meeting on tropical ecology with an emphasis on organic production in New Delhi India at this meeting a working group on tropical ecology was organized consisting of K C Misra India F Malaisse Zaire E Medina Venezuela and F Golley U S A the object of this working group was to stimulate interaction between tropical ecologists through future scientific meetings and other exchanges and communications a second meeting of iste and Intecol was held in Caracas Venezuela in 1973 under the direction of Medina and Golley and sponsored by the Department of Ecology Institute Venezolano Investigaciones Cientificas LVC the basic structure of the meeting was provided by series of invited papers which considered topics of special interest from both an applied and theoretical view these included physiological ecology Pannier populations Rabinovich tropical savannas Lamotte rivers Sioli estuaries Rodriguez and island ecosystems Mueller Dombois contributed papers considered details of these and other ecological topics including the application of ecology to human problems the present volume includes the invited papers listed above and a sampling of contributed papers which together illustrate the trends of research in tropical ecology the papers show that tropical ecology is a vigorous subject of research while the papers in this volume do not provide reviews of all the topics of study in tropical ecology they do present authoritative statements on progress in the major subject in the field

The Geography of Tropical African Development 2014-06-28

this is the history of the international tropical timber organization into its aims policies and achievements through drawing on contemporary records and the author's own wide experience the book uses examination of past successes and failures to formulate a 21st century agenda for the most practical ways of improving the management of forests and deciding forest policies

Tropical Development, 1880-1913 1970

tropical africa is a complex and dynamic region occupying a marginal position in the world economic system the region has

seemingly insurmountable problems this book breaks through the complexities with a straightforward and systematic text supported by concise case studies covering topics such as population environment and rural and urban africa it builds from an historical base to an understanding of present day patterns and processes and an assessment of future priorities and development strategies tropical africa will prove an invaluable resource for those embarking on any study of this fascinating region

Quantifying Sustainable Development 2000-07-12

status of tropical agriculture and preview of subsequent chapters the fundamental cause of economic stagnation importance of agriculture in economic development processes and priorities in agricultural development product markets and economic development factor markets and economic development trade preferences and developing countries a dynamic linear programming model for development planning strategy for increasing rice production in southeast asia problems of policy in planning the indus basin investment in west pakistan problems of policy in planning agricultural development in africa south of the sahara planning characteristics of low income agriculture organization for local development in low income countries advising on development organization the role of united states universities abroad

Economic Development in the Tropics 1980

a few years ago roger stone undertook a formidable challenge to travel to representative villages in the tropical corners of the developing world to see how and whether economic development plans had improved the quality of the people s lives while also preserving each region s rich plant and animal life in the nature of development stone reports on his findings and offers a lively prescription for sustainable economic growth that is environmentally sane and economically sound by commercial and missionary airplane bus off road vehicle and dugout canoe and of course by means of wearying foot journeys roger stone reached his far flung destinations all over latin america asia and africa once there he lived walked and talked at length with many diverse peoples the awa of ecuador and colombia the oku who live near kilum mountain in cameroon the hatam of the arfak mountains in indonesia s irian jaya province the resourceful if underequipped wardens of zambia s national park service the fishermen and farmers of a st lucia that caribbean tourists seldom discover while in the amazon basin he found sad tales of people without a future and of relentless environmental losses more often though he returned with stories of hope and encouragement for as the nature of development shows conservation and economic development agencies can work together and the governments of poor and rich countries alike can cooperate to improve human lives and stop disastrous ecological losses in the world s richest habitats as new imperatives replace the global preoccupation with warfare and reckless modes of development stone s book carries a resonant and important message about how we have mistreated our habitats in the past and how we can

achieve a new environmental world order

Tropical Development and Research Institute Report 1987-12-01

tropical archaeobotany fills the need for a substantial reference work on plant remains from the tropics it covers the examination identification and interpretation of plant remains in tropical archaeology whilst also the origins spread investigating the origins spread distribution and past use of tropical plants for food and other purposes recent technological developments in electron microscopy and biochemical and genetic research as well as increased interest in tropical environments and ecosystems are now beginning to realise the great potential for archaeobotanical research in the tropics with the use of case studies from a wide range of areas this volume details the latest macroscopic microscopic and chemical techniques for the analysis of plant remains from seeds roots and tubers to epidermal fragments pollen and phytoliths each chapter of tropical archaeobotany focuses on a different aspect of archaeobotanical research using detailed examples from a variety of tropical areas though with its emphasis on techniques and methodology the book has a relevance beyond the regional scope of each chapter

Climate and Economic Development in the Tropics 1957

the tropics soils agricultural enemies agriculture research minerals health hazards health research

Development Or Destruction 2019-08-27

british colonial rule of the tropics is the critical background to contemporary development issues this study of britain s economic and political relationship with its tropical colonies provides detailed analyses of trade and policy the considerations of past successes and failures elucidate current opportunities and developments no other book covers this broad topic with such detail and clarity

Tropical Ecological Systems 2012-12-06

this book links tropical agri chain dynamics with which cirad and afd have been involved for decades to that of sustainable development increased environmental and social concerns urge agri chain actors and development practitioners to design innovations and public and private actors to invent regulations in connection with agri chains to improve sustainability with a view to contributing towards implementing the sustainable development goals sdgs this book examines the different roles of agri

chains as vectors of development as spaces of innovation as objects of evaluation and as arenas of regulation it builds upon the findings and experiences of cirad and its researchers together with their southern partners and of afd and its officers linking agricultural production with the other economic sectors agri chains are key spaces where local and global challenges to sustainability meet and where local and global actors experiment interlinked or common solutions

Changing Landscapes 2012-03-29

provides a comprehensive introduction to the complex systems of the tropics covering a broad cross regional range of humid through to semi arid tropical climate zones offers a balanced mix of biophysical and human management issues

Tropical Development and Research Institute 1986

today tropical cyclones continue to bring destruction as well as disruption to societies that are exposed to their threat this book represents a compilation of recent cutting edge research on tropical cyclones and their impacts from researchers at many institutions around the world this book contains new looks at tropical cyclone dynamics the use of satellite based remote sensing in the detection and climatology of tropical cyclones and the modeling and prediction of tropical cyclones as well as their associated impacts this book would make a nice addition to any course on tropical meteorology highlighting topics of interest in recent research on this topic

Recent Developments in Tropical Cyclone Dynamics, Prediction, and Detection 19??

first published in 1998 this is volume xiii of eighteen in the sociology of development series originally published in 1969 this book is a study of organizations and development of two rural development projects by the author whilst working in the administration in kenya a grazing control programme and the mwea irrigation settlement
