the abolition of war for extracts from others due credit is given but none of course for anything taken from my own writings the cause of peace aims solely to do away the custom of international war and i trust there will be found in this book nothing that does not bear on this object nor anything that interferes with the legitimate authority of government as a friend of peace i am of course a supporter of civil government with all the powers requisite for the condign punishment of wrong doers the enforcement of law and the preservation of social order i deem government in spite of its worst abuses an ordinance of god for the good of mankind nor can i as a peace man hold any doctrines incompatible in my view with its just and necessary powers over its own subjects i condemn only the great duel of nations about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any
