now in its sixth annual edition the reality of aid has for the first time analysed the fair share of bilateral aid for basic social services basic education basic health reproductive health nutrition clean water and sanitation that should come from each donor an analysis which shows only two donors meeting their fair share and the g7 nations canada france germany italy japan uk us falling behind by over us 5 billion this year and next the reality of aid focuses on basic education as a right and not a privilege and its role in development cooperation and poverty elimination a key feature of the reality of aid 1998 1999 is the ten chapters offering analysis of development cooperation from the perspective of southern ngos many of these focus on basic education and raise issues around transparency gender and civil society if policies were programmes and promises were dollars the reality of aid could report great progress on the road to eradicating global poverty this year but at a time when donors acknowledge that ending poverty is possible it seems that commitments are being offered instead of resources and real change from the summary part i presents a useful summary highlighting the steps that donors could take now to make progress towards poverty eradication and reviews the trends in development cooperation debt relief measures targeted towards the new millennium and commitment to the goal of ensuring basic education for all part ii gives a full report on the overseas aid performance of oecd country aid donors and the european union over the last year part iii sets out a southern perspective on development cooperation part iv provides at a glance comparisons of donors aid outlook and commitment to development cooperation in the 21st century poverty eradication gender and public support part v contains handy reference material throughout the book information is presented in easily interpreted diagrams and graphs the reality of aid has established itself as a unique source of independent evaluation and comment on aid policies and development it is indispensable for all in the field whether in the official or voluntary sectors indispensable it gives you most of the hard facts you need to know about the major issues new internationalist the most comprehensive and rigorous independent analysis of the aid and development policies of the world s wealthiest nations essential reading charity world the reality of aid remains an essential purchase by the libraries of development institutions and an invaluable reference for development practitioners development change a reliable watchdog for anyone interested in this important aspect of international relations orbit an accessible reference it encompasses many key issues and stimulates further research commonwealth comparative politics originally published in 1998 since 1950 the south has undergone the most dramatic political transformation of any region in the united states the once solid meaning democratic south is now overwhelmingly republican and long disenfranchised african americans vote at levels comparable to those of whites in the rational southerner m v hood iii quentin kidd and irwin l morris argue that local strategic dynamics played a decisive and underappreciated role in both the development of the southern republican party and the mobilization of the region s black electorate mobilized blacks who supported the democratic party made it increasingly difficult for conservative whites to maintain control of the party s machinery also as local republican party organizations became politically viable the strategic opportunities that such a change provided made the gop an increasingly attractive alternative for white conservatives blacks also found new opportunities within the democratic party as whites fled to the gop especially in the deep south where large black populations had the potential to dominate state and local democratic parties as a result republican party viability also led to black mobilization using the theory of relative advantage hood kidd and morris provide a new perspective on party system transformation following a theoretically informed description of recent partisan dynamics in the south they demonstrate with decades of state level sub state and individual level data that gop organizational strength and black electoral mobilization were the primary determinants of political change in the region the authors finding that race was and still is the primary driver behind political change in the region stands in stark contrast to recent scholarship which points to in migration economic growth or religious factors as the locus of transition the rational southerner contributes not only to the study of southern politics but to our understanding of party system change racial politics and the role that state and local political dynamics play in the larger context of national politics and policymaking teri energy data directory yearbook or teddy is an
