in general the early modern period is considered to have lasted from the 16th to the 19th centuries about 1500 1800 in a european context it is defined as the period following the middle ages and preceding the advent of modernity sometimes defined as the late modern period the complex legacy of the early modern era in africa asia the americas and europe a period of political change movement of peoples and colonization scientific and technological discovery and artistic innovation continues to shape the present day early modern europe also referred to as the post medieval period is the period of european history between the end of the middle ages and the beginning of the industrial revolution roughly the mid 15th century to the late 18th century since the thirteenth century the low countries and northern france had included some of europe s great battlefields and as they formed the border between the habsburg and bourbon empires they witnessed almost continuous war during the early modern period the modern era or the modern period also known as modern history or modern times is the period of human history that succeeds the post classical era also known particularly with reference to europe as the middle ages which ended around 1500 ad up to the present select time period prehistoric ancient medieval early modern modern history of europe renaissance reformation wars the 16th century was a period of vigorous economic expansion this expansion in turn played a major role in the many other transformations social political and cultural of the early modern age this chapter examines the emergence of the idea of early modern history during the 1960s and 1970s and explains its origins particularly in modernization theory and in the expansion of the university system at that period the early modern period of world history ca 1300 1800 was marked by a rapidly increasing level of global interaction between the aftermath of mongol conquest in the east and the onset of industrialization in the west a framework was established for new kinds of contacts and collective self definition across an unprecedented range of human summary the year 1500 is widely recognized by historians as the watershed between the medieval world and the modern world the first two centuries of this newer epoch contained much of historical importance spanning such widely varied events as a price revolution a commercial revolution a reformation a renaissance voyages of discovery important interventions from new comparative research in fields such as eastern and east central european history russian and eurasian history ottoman or south asian studies have thrown older models of modernity and its european origins into disarray the early modern period 1500 1700 brought several significant changes in the lives of the english people the most dramatic were perhaps the reformation the subsequent dissolution of the monasteries in the 16th century and the devastating civil war during the next senses of space in the early modern world search within full text access open access cited by 1 nicholas terpstra university of toronto publisher cambridge
