a revised translation of one of the most important of jung's longer works the volume also contains an appendix of four shorter papers on psychological typology published between 1913 and 1935 essays which state the fundamentals of jung's psychological system on the psychology of the unconscious and the relations between the ego and the unconscious with their original versions in an appendix essays on aspects of analytical therapy specifically the transference abreaction and dream analysis contains an additional essay the realities of practical psychotherapy found among jung's posthumous papers this volume has become known as perhaps the best introduction to jung's work in these famous essays the relations between the ego and the unconscious and on the psychology of the unconscious he presented the essential core of his system historically they mark the end of jung's intimate association with freud and sum up his attempt to integrate the psychological schools of freud and adler into a comprehensive framework this is the first paperback publication of this key work in its revised and augmented second edition of 1966 the earliest versions of the two essays new paths in psychology 1912 and the structure of the unconscious 1916 discovered among jung's posthumous papers are published in an appendix to show the development of jung's thought in later versions as an aid to study the index has been comprehensively expanded in paperback for the first time the detailed general index to the authoritative english language edition of jung's works this general index to the collected works of c g jung is exceptionally comprehensive indexing down to paragraph numbers some particularly important subjects are treated in subindexes including alchemy animals the bible colors freud jung and numbers this is an essential reference tool for serious students of jung an authoritative edition of jung's shorter works on the psychology of religious phenomena this volume collects jung's shorter writings on religion and psychology including several that are of major importance the pieces on western religion are psychology and religion a psychological approach to the dogma of the trinity transformation symbolism in the mass forewords to white's god and the unconscious and werblowsky's lucifer and prometheus brother klaus psychotherapists or the clergy psychoanalysis and the cure of souls answer to job the pieces on eastern religion are psychological commentaries on the tibetan book of the great liberation and the tibetan book of the dead yoga and the west foreword to suzuki's introduction to zen buddhism the psychology of eastern meditation the holy men of india foreword to the i ching in paperback for the first time an authoritative bibliography of jung's works in german and english a record of all of jung's publications in german and in english this volume replaces the general bibliography published in 1979 as volume 19 of the collected works of c g jung in the form of a checklist this revised general bibliography records through 1990 the initial publication of each original work by jung each translation into english and all significant new editions including paperbacks and publications in periodicals the contents of the volumes of the collected works of c g jung and the gesammelte werke published in switzerland are listed in parallel to show the relation between the two editions jung's seminars are dealt with in detail and where possible information is provided about the origin of works that were first conceived as lectures there are indexes of all publications personal names organizations and societies and periodicals in may

1956 in his eighty second year jung first discussed with gerhard adler the question of the publication of his letters over many years jung had often used the medium of letters to communicate his ideas to others and to clarify the interpretation of his work quite apart from answering people who approached him with genuine problems of their own and simply corresponding with friends and colleagues many of his letters thus contain new creative ideas and provide a running commentary on his work from some 1 600 letters written by jung between the years 1906 1961 the editors have selected over 1 000 volume 1 published in 1973 contains those letters written between 1906 and 1950 nine essays written between 1922 and 1941 on paracelsus freud picasso the sinologist richard wilhelm joyce s ulysses artistic creativity generally and the source of artistic creativity in archetypal structures essays bearing on the contemporary scene and on the relation of the individual to society including papers written during the 1920s and 1930s focusing on the upheaval in germany and two major works of jung s last years the undiscovered self and flying saucers in 1911 jung published a book of which he says it laid down a programme to be followed for the next few decades of my life it was vastly erudite and covered innumerable fields of study psychiatry psychoanalysis ethnology and comparative religion amongst others in due course it became a standard work and was translated into french dutch and italian as well as english in which language it was given the well known but somewhat misleading title of the psychology of the unconscious in the foreword to the present revised edition which first appeared in 1956 jung says it was the explosion of all those psychic contents which could find no room no breathing space in the constricting atmosphere of freudian psychology it was an attempt only partially successful to create a wider setting for medical psychology and to bring the whole of the psychic phenomena within its purview for this edition appearing ten years after the first bibliographical citations and entries have been revised in the light of subsequent publications in the collected works and in the standard edition of freud s works some translations have been substituted in quotations and other essential corrections have been made but there have been no changes of substance in the text for the first time in paperback the authoritative edition of jung s miscellaneous collected writings the symbolic life gathers some 160 of jung s writings that span sixty years and reflect his inquiring mind numerous interests and wide circle of professional and personal acquaintance these writings include three longer works the symbolic life symbols and the interpretation of dreams and the tavistock lectures a number of previously overlooked reviews reports and articles from the early years of jung s career several finished or virtually finished manuscripts that weren t published in his lifetime including a 1901 report on freud s on dreams and works jung wrote after retiring from active medical practice the other pieces collected here include forewords to books by colleagues and pupils replies to journalists questions encyclopedia articles and letters on technical subjects in may 1956 in his eighty second year jung first discussed with gerhard adler the question of the publication of his letters over many years jung had often used the medium of letters to communicate his ideas to others and to clarify the interpretation of his work quite apart from answering people who approached him with genuine problems of their own and simply corresponding with friends and colleagues many of his letters thus contain new creative ideas and provide a running commentary on his work from some 1 600 letters written by jung between the years 1906 1961 the editors have selected over 1 000 volume 2 contains 460 letters written between 1951 and 1961 during the last years of jung s life when he was in contact with many people whose names are familiar to the english reader these include mircea eliade r f c hull ernest jones herbert read j b rhine upton sinclair and fr victor white volume 2 also contains an addenda with sixteen letters from the period 1915 1946 and a subject index to both volumes the annotation throughout is detailed and authoritative papers on child

psychology education and individuation underlining the overwhelming importance of parents and teachers in the genesis of the intellectual feeling and emotional disorders of childhood the final paper deals with marriage as an aid or obstacle to self realization one of the most important of jung's longer works and probably the most famous of his books psychological types appeared in german in 1921 after a fallow period of eight years during which jung had published little he called it the fruit of nearly twenty years work in the domain of practical psychology and in his autobiography he wrote this work sprang originally from my need to define the ways in which my outlook differed from freud's and adler's in attempting to answer this question i came across the problem of types for it is one's psychological type which from the outset determines and limits a person's judgment my book therefore was an effort to deal with the relationship of the individual to the world to people and things it discussed the various aspects of consciousness the various attitudes the conscious mind might take toward the world and thus constitutes a psychology of consciousness regarded from what might be called a clinical angle in expounding his system of personality types jung relied not so much on formal case data as on the countless impressions and experiences derived from the treatment of nervous illnesses from intercourse with people of all social levels friend and foe alike and from an analysis of his own psychological nature the book is rich in material drawn from literature aesthetics religion and philosophy the extended chapters that give general descriptions of the types and definitions of jung's principal psychological concepts are key documents in analytical psychology a study of the analogies between alchemy christian dogma and psychological symbolism revised translation with new bibliography and index the authoritative edition of jung's important early writings on his word association experiments after joining the staff of the burghölzli mental hospital in 1900 jung developed and applied word association tests for studying normal and abnormal psychology between 1904 and 1907 he published nine studies on these experiments experimental researches features these studies as well as two lectures on the association method that jung gave in 1909 when he and freud were invited to clark university in worcester massachusetts and three articles on psychophysical researches jung's word association studies are a significant phase in the development of his thought and an important contribution to diagnostic psychology and psychiatry the authoritative edition of some of jung's most important writings on psychiatry the psychogenesis of mental disease presents some of jung's most important writings on psychiatry including on the psychology of dementia praecox his landmark early study of what is today called schizophrenia also featured here are nine other key papers in psychiatry the earliest being the content of the psychoses written in 1908 when jung was a leading member of the early psychoanalytic movement the latest are two papers written in 1956 and 1958 which embody jung's conclusions after many years of experience in the psychotherapy of schizophrenia these writings reflect the original techniques with which jung is especially associated the authoritative edition of early psychiatric studies by jung which foreshadow much of his later work psychiatric studies gathers writings on descriptive and experimental psychiatry that jung published between 1902 and 1905 early in his career as a psychiatrist the book opens with a study that foreshadows much of his later work and is indispensable to all serious students of his psychiatric career this is his medical degree dissertation on the psychology and pathology of so called occult phenomena a detailed analysis of the case of an adolescent girl who professed to be a medium this volume also includes papers on cryptomnesia hysterical parapraes in reading manic mood disorder simulated insanity and other subjects aion originally published in german in 1951 is one of the major works of jung's later years the central theme of the volume is the symbolic representation of the psychic totality through the concept of the self whose traditional historical equivalent is the figure of christ jung demonstrates

his thesis by an investigation of the allegoria christi especially the fish symbol but also of gnostic and alchemical symbolism which he treats as phenomena of cultural assimilation the first four chapters on the ego the shadow and the anima and animus provide a valuable summation of these key concepts in jung's system of psychology beginning with jung's earliest correspondence to associates of the psychoanalytic period and ending shortly before his death the 935 letters selected for these two volumes offer a running commentary on his creativity the recipients of the letters include mircea eliade sigmund freud esther harding james joyce karl kernyi erich neumann maud oakes herbert read upton sinclair and father victor white the psychological and religious implications of alchemy were jung's major preoccupation during the last thirty years of his life the essays composing the present volume complete the publication of his alchemical researches to which three entire volumes have been devoted the monumental *Mysterium Coniunctionis* psychology and alchemy and *Aion* besides shorter papers in other volumes this collection of shorter alchemical studies has special value as an introduction to jung's work on alchemy the first study on chinese alchemy marked the beginning of his interest in the subject and was originally published in a volume written jointly with richard wilhelm the other four are now published for the first time completely in english this book gives the substance of jung's published writings on freud and psychoanalysis between 1906 and 1916 with two later papers the book covers the period of the enthusiastic collaboration between the two pioneers of psychology through the years when jung's growing appreciation of religious experience and his criticism of freud's emphasis on pathology led with other differences to his formal break with his mentor jung's last major work completed in his 81st year on the synthesis of the opposites in alchemy and psychology five long essays that trace jung's developing interest in alchemy from 1929 onward an introduction and supplement to his major works on the subject illustrated with 42 patients drawings and paintings an exceptionally comprehensive index by paragraph numbers certain subjects are treated in separate sub indexes within the general index these include alchemy animals the bible colors freud jung and numbers dr carl gustav jung author of some of the most provocative hypotheses in modern psychology describes what he regards as an authentic religious function in the unconscious mind using a wealth of material from ancient and medieval gnostic alchemistic and occultistic literature he discusses the religious symbolism of unconscious processes and the possible continuity of religious forms that have appeared and reappeared through the centuries these compact vigorous essays constitute dr jung's most sustained interpretation of the religious function in individual experience journal of social philosophy *Mysterium Coniunctionis* was first published in the collected works of c g jung in 1963 for this second edition of the work numerous corrections and revisions have been made in cross references to other volumes of the collected works now available and likewise in the bibliography *Mysterium Coniunctionis* was jung's last work of book length and gives a final account of his lengthy researches in alchemy it was jung's empirical discovery that certain key problems of modern man were prefigures in what the alchemists called their art or process jung maintained that the world of alchemical symbols does not belong to the rubbish heap of the past but stands in a very real and living relationship to our most recent discoveries concerning the psychology of the unconscious the volume includes ten plates a bibliography an index and an appendix of original latin and greek texts quoted in the work

Collected Works of C. G. Jung, Volume 8 2024-03-19
