the ancient near east embraces a vast geographical area from the borders of iran and afghanistan in the east to the levant and anatolia and from the black sea in the north to egypt in the south it was a region of enormous cultural political and linguistic diversity in this authoritative new study amélie kuhrt examines its history from the earliest written documents to the conquest of alexander the great c 3000 330 bc this work dispels many of the misapprehensions which have surrounded the study of the region it provides a lucid up to date narrative which takes into account the latest archaeological and textual discoveries and deals with the complex problems of interpretation and methodology the ancient near east is an essential text for all students of history of this region and a reassessment presented here in a facsimile reissue catalogues around 100 separate species ranging from hedgehogs to hippopotami anubis baboons to zebu cattle that can be identified in egyptian art from prehistoric through pre dynastic to late kingdom times profusely illustrated the catalogue is arranged by order then species each entry providing the relevant hieroglyph a brief description of the animal its natural habitat and distribution and a narrative on its depiction in egyptian art through time by location types of illustration or object and context tomb etc known errors and discrepancies either in original scripts or classical and or modern literature are listed mammals are abundantly depicted in tomb paintings and inscriptions common scenes include hunts processions wild animals being led on chains domesticated animals in household and working environments and satirical scenes such scenes provide many insights into the lives of egyptians and their relationships with animals that are further enhanced by many decorative figurines and statues and often poignantly by the mummies of mostly small animals including cats and dogs the university museum excavated at beth shan from 1921 1934 when stratigraphical methods were first being developed for this study the two late bronze levels vii and viii have been reevaluated by the careful analysis of field records photographs and drawings along with the restudy of all artifacts housed in the university museum and a selection of objects in the rockefeller museum in jerusalem the structures of these levels have parallels in new kingdom egypt and late bronze early iron age sites of southern levant and the sinai included are contributions by 13 specialists on specific classes of objects and technologies university museum monograph 85 this compelling narrative provides the only comprehensive guide in english to the rise and decline of ptolemaic rule in egypt over three centuries from the death of alexander in 323 bc to the tragic deaths of antony and cleopatra in 30 bc the skilful integration of material from a vast array of sources allows the reader to trace the political and religious development of one of the most powerful empires of the ancient eastern mediterranean it shows how the success of the ptolemies was due in part to their adoption of many features of the egyptian pharaohs who preceded them their deification and funding of cults and temples throughout egypt semitic words and names appear in unprecedented numbers in texts of the new kingdom the period when the egyptian empire extended into syria palestine in his book james hoch provides a comprehensive account of these words their likely origins their contexts and their implications for the study of egyptian and semitic linguistics and late bronze and iron age culture in the eastern mediterranean unlike previous word catalogs this work consists of concise word studies and contains a wealth of linguistic lexical and cultural information hoch considers some five hundred semitic words found in egyptian texts from about 1500 to 650 b c e building on previous scholarship he proposes new etymologies and translations and discusses phonological morphological and semantic factors that figure in the use of these words the egyptian evidence is essential to an understanding of the phonology of northwest semitic and hoch presents a major reconstruction of the phonemic systems of equal importance is his account of the particular semantic use of semitic vocabulary in contexts sometimes quite different from those of the hebrew scriptures and ugaritic myths and legends with its new critical assessment of many hotly debated issues of semitic and egyptian philology this book will be consulted for its lexical and linguistic conclusions and will serve as the basis for future work in both fields originally published in 1994 the princeton legacy library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of princeton university press these editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions the goal of the princeton legacy library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by princeton university press since its founding in 1905 first published in 1988 this glossary of ancient egyptian nautical terms compounds the titles of naval personnel harbour personnel and dockyard personnel following this the glossary focuses on the ship types ship parts ship equipment and specific naval installations alongside miscellaneous terms there is additional attention made to actual names of ships boats and temple barks the title concludes with a comprehensive appendix a vivid story of an astonishing period in ancient egypt s history 1550 bc to 1295 bc that tears away the gold and glamour to reveal how these great pharaohs ruthlessly ruled egypt for two hundred and fifty years for more than two centuries egypt was ruled by the most powerful successful and richest dynasty of kings in its long end epic history they included the female king hatshepsut the warrior kings thutmose iii and amenhotep ii the religious radical akhenaten and his queen nefertiti and most famously of all for the wealth found in his tomb the short lived boy king tutankhamun the power and riches of the pharaohs of the 18th dynasty came at enormous cost to egypt s enemies and to most of its people this was an age of ruthless absolutism exploitation extravagance brutality and oppression in a culture where not only did egypt plunder its neighbors but egyptian kings and their people robbed one another 3 500 years ago ancient egypt began two centuries of growth where it became richer and more powerful than any other nation in the world ruled by the kings of the 18th dynasty they presided over a system built on war oppression and ruthlessness pouring egypt s wealth into grandiose monuments temples and extravagant tombs tutankhamun was one of the last of the line and one of the most obscure among his predecessors were some of the most notorious and enigmatic figures of all of egypt s history pharaohs of the sun is the story of these famed rulers showing how their glamour and gold

became tainted by selfishness ostentation and the systematic exploitation of egypt s people and enemies the egyptians were people of flesh and blood capable of both greatness and weakness masters of ambitious projects but also slaves to banal preoccupations they imposed their vision of the world on their environment but they were weighed down by the burden of the human condition in short they were like any of us and like ours their society had its affairs its scandals its uncertainties and its rifts from the preface drawing on ancient texts archaeological reports and other sources pascal vernus focuses attention on the human failings of the too often mythologized egyptians affairs and scandals in ancient egypt treats instances of significant corruption which according to vernus constitute a crisis of values in new kingdom egypt his discoveries afford sobering new insights into the tension between stated beliefs and actual behavior in ancient egyptian civilization the examples of corruption vernus describes run the gamut from graverobbing to labor unrest from embezzlement to palace intrigue the first chapter deals with the tomb robberies in the theban necropolis during the twentieth dynasty the second outlines the economic context and events associated with strikes carried out by the workmen of the royal necropolis the third chapter uses a certain paneb as an exemplar of corruption in the area of thebes chapter 4 considers the theft of government property and attempted cover ups in the aswan region the last example may be the most dramatic the conspiracy in the royal women s quarters in the last year of rameses iii aimed at affecting the succession to the throne in the book s final chapter vernus analyzes the historical contexts and the main issues surrounding each scandal thebes egypt extinct city history what does it feel like when brother fights brother this volume deals with the development and the characteristics of the literature of ancient egypt over a period of more than two millennia from the monumental origins of autobiography at the end of the old kingdom ca 2150 bce down to the latest literary compositions in demotic during the graeco roman period 300 bce 200 ce this book the result of an international co operation among more than twenty scholars is divided into sections devoted to the definition of literary discourse in ancient egypt the history and genres of these texts their linguistic and stylistic features and the image of ancient egypt as displayed in later literary traditions of the mediterranean world greek coptic arabic with over thirty chapters this volume provides an interdisciplinary account of current research in one of the methodologically most advanced fields of egyptology first published in 1990 routledge is an imprint of taylor francis an informa company holm s book is an innovative approach to the biblical book of daniel it places daniel against the background of story collections an ancient genre that began in egypt in the mid second millennium b c e this work focuses on daniel 6 4 and provides detailed comparisons with specific bodies of story collections and other related material from the ancient near east in this regard special attention is given to egyptian court tales a large corpus mostly neglected by previous biblical scholars thus this book brings new evidence and fresh insights to the field of daniel studies which in recent years has generated constant interest especially as it pertains to textual issues and literary matters setting daniel against an explicit definition of the story collection genre redefines a vast array of questions concerning textual criticism compositional history and the overall nature of the book for instance the divergent texts of the narrative parts of daniel the masoretic text and the greek editions in theodotion and the septuagint now need to be described in part as variant editions or tellings of a common core material rather than as translations of older written texts with clearly traceable genealogies when daniel is studied in the context of story collections and kindred compositions from the ancient near eastern and neighboring literatures new light is shed on the literary traditions and processes from which the daniel stories arose there are a greater number of court tales and cycles than previously recognized as in the case of qumran but also the egypt demotic corpus the detailed discussion of all these materials allows us to appreciate the book of daniel in a much wider literary milieu and it furthers our understanding of the history of its composition and early transmission published in 1990 bibliography of the amarna perio is a valuable contribution to the field of asian studies cutting edge research by twenty four international scholars on female power agency health and literacy in ancient egypt there has been considerable scholarship in the last fifty years on the role of ancient egyptian women in society with their ability to work outside the home inherit and dispense of property initiate divorce testify in court and serve in local government egyptian women exercised more legal rights and economic independence than their counterparts throughout antiquity yet their agency and autonomy are often downplayed undermined or outright ignored in women in ancient egypt twenty four international scholars offer a corrective to this view by presenting the latest cutting edge research on women and gender in ancient egypt covering the entirety of egyptian history from earliest times to late antiquity this volume commences with a thorough study of the earliest written evidence of egyptian women both royal and non royal before moving on to chapters that deal with various aspects of egyptian queens followed by studies on the legal status and economic roles of non royal women and finally on women s health and body adornment within this sweeping chronological range each study is intensely focused on the evidence recovered from a particular site or a specific time period rather than following a strictly chronological arrangement the thematic organization of chapters enables readers to discern diachronic patterns of continuity and change within each group of women clémentine audouit paul valery university montpellier france anne austin university of missouri st work of the theban desert road survey presents the major rock inscriptions of the northwestern theban desert and the western hinterlands of qamula the material includes six larger sites and several smaller collections and individual inscriptions and images sites discovered by the theban desert road survey over the course of approximately twelve field seasons the major groupings of inscriptions from south to north are the rock shrine of pahu and the inscriptions of gebel

akhenaton sites in the vicinity of the wadi himdaniya a small but interesting collection of inscriptions near the wadi arqub baghla with two smaller outlying sites inscriptions of the wadi magari to the north including the site of the great predynastic tableau with its plethora of crocodiles the associated vignette of elephant on the gebel along with the nearby gebel sutekh site and smaller concentrations beyond and finally the inscriptions of the area of the matna el barqa highlights of the epigraphic material include new prayers to amun and hathor one a genuine new kingdom de profundis recording an appeal to amun during a storm on the Nile several important predynastic and protodynastic tableaux and the only rock art depictions of akhenaton in a true amarna style in Egypt from the old to the new kingdom enigmatic texts were created on the basis of non standardized lists of characters and phonetic signs the exact principles of which are still unclear to this day for the first that these three texts have a theological iconographic and formal connection and calls them collectively the book of the solar osirian unity differentiated and lively he presents the content and theological peculiarities of these texts that deal with the afterlife with each other and in relation to other enigmatic texts of the new as well as the middle and old kingdom the book holds 26 chapters encompassing the history of israel from its very beginnings up to the destruction of the first temple of Jerusalem 586 BC the successive parts are 1 the dawn of israel dealing with the israelite proto history mari and early israel as well as the tribal societies and genealogies 2 forming a nation the exodus and conquest of canaan the period of the judges and the charismatic nature of the judges the danite migration 3 the rise of the davidic dynasty a political view of the kingdom of david and solomon the diplomatic international marriages of the latter organs of statecraft in the israelite monarchy 4 king amon and josiah and their final fate twilight of Judah and the destruction of Jerusalem 5 this part is dedicated to historical episodes in the former prophets and in the prophetic books several excursi follow this publication has also been published in paperback please click here for details this in depth treatise presents conclusive evidence for an extremely close relationship between ancient Egyptian religious beliefs and the book of revelation practically all characters scenes and series of scenes found in revelation have parallels in mainstream Egyptian sources including the book of the dead the amduat book of gates book of Aker books of the heavens and others parallel characters include Egypt's Apophis as revelation's Satan while situations and activities in scenes include the judgment scene and singers by a lake of fire parallel sequences of scenes include those found in the 2nd to 12th divisions of the book of gates and most of revelation's chapters 15-21 allusions to the book of dead are common finally a key conclusion the entire structure of the book of revelation can be accounted for in the organization of text and early Jewish poetic work Stuart Weeks incorporates studies of literature from ancient Egypt and from the Dead Sea Scrolls but his focus is on the background and use of certain key images in the text Proverbs 1-9 belongs to an important class of biblical literature wisdom literature and is less well known as a whole than the related books of Job and Ecclesiastes partly because it has been viewed until recently as a dull and muddled school book however parts of it have been profoundly influential on the development of both Judaism and Christianity and occupy a key role in modern feminist theology Weeks demonstrates that those parts belong to a much broader and more intricate set of ideas than older scholarship allowed annotation important historical and cultural figures as well as some less well known individuals in Egypt's long history are incorporated in this scholarly work of reference in this compelling guide and sourcebook renowned author and scholar Michael Rice introduces us to the inhabitants of ancient Egypt allowing us to encounter their world through their own eyes here are the great and the famous from Cleopatra to Tutankhamun but here also are the grave robber Amenwah Nakht the gardener and Sebastr the hairdresser the whole arena of Egyptian life is expressed in these pages not only are there nearly a thousand biographies there is also a chapter on encountering ancient Egyptians sections on kingship and on religion a chronology a glossary and maps a combination of erudite scholarship and a clear and accessible style this volume opens up the world of the ancient Egyptians to all those with an interest in the subject in a way that has never been done before covering the time span from the Paleolithic period to the destruction of Jerusalem in 586 BC the eminent Egyptologist Donald Redford explores three thousand years of uninterrupted contact between Egypt and western Asia across the Sinai Land Bridge in the vivid and lucid
