psychiatrists and residents are faced with the important but what may feel overwhelming task of refreshing their knowledge of the whole of psychiatric practice typically while remaining engaged in full time clinical activity psychiatrists will find the logical structure substantive questions and thorough explanations provided by the study guide for the psychiatry board examination to be as reassuring as they are educational although readers are advised to consult a range of resources in preparation for the examination this guide is indispensable it is the first and only guide to reflect the revisions contained in dsm 5 and it will ably assume a primary role in the study and review process the guide is designed for maximum usefulness with specific features and attributes to support knowledge recall and successful examination performance the authors are from a cross section of accomplished students fellows and junior and senior faculty all of whom have faced or will face the board examination and who understand its importance to the profession topics were determined by the american board of psychiatry and neurology certification examination in psychiatry 2015 content blueprint the approximately 400 questions were formulated from information extracted from widely available american psychiatric publishing textbooks and accurately reflect the accepted psychiatric knowledge base each multiple choice question is followed by an explanation of why the correct answer is correct and the others are incorrect and every question and explanation is referenced directing the reader to the primary material for more in depth learning and study the volume was designed as a study guide for both the initial psychiatry board examination and the recertification examination the process of working through the study guide will allow the reader to identify areas of strength and weakness initiate further study and test and retest knowledge ultimately preparing for the examination s rigors only the study guide for the psychiatry board examination offers support for the new dsm 5 compatible examination and that alone renders it essential

Study Guide for the Psychiatry Board Examination **2016-04-13**

at the end of the great war the u s army faced the challenge of integrating what it had learned in the failures and ultimate success of its war effort during the interwar years the army sought to balance readiness and modernization in a period of limited resources and technological advances with profound implications for the conduct of warfare in after the trenches william o odom traces the development of combat doctrine between the world wars through an examination of the army s primary doctrine manuals the field service regulations the field service regulations of 1923 successfully assimilated the experiences of the first world war and translated them into viable tactical practice odom argues in this unique study rapidly developing technologies generated more efficient tools of war and greatly expanded the scale tempo and complexity of warfare personnel and material shortages led to a decline in the quality of army doctrine evidenced in the 1939 regulations examining the development of doctrine and the roles of key personalities such as john pershing hugh drum george lynch frank parker and lesley mcnair odom concludes that the successive revisions of the manual left the army scurrying to modernize its woefully outdated doctrine on the eve of the new war this impressively researched study of the doctrine of the interwar army fills a significant gap in our understanding of the development of the u s army during the first half of the twentieth century it

will serve scholars and others interested in military history as the standard reference on the subject moreover many of the challenges and conditions that existed seventy years ago resemble those faced by today's army this study of the army's historical responses to a declining military budget and an ever changing technology will broaden the perspectives of those who must deal with these important contemporary issues

Rules, regulations, and by-laws, ordinances, etc 1925
