The Criminal Process in the People's Republic of China,

1949-1963 1968 this volume represents the fruits of a preliminary inquiry into one aspect of contemporary chinese law the criminal process investigating what he calls china s legal experiment mr cohen raises large questions about chinese law is the peoples republic a lawless power arbitrarily disrupting the lives of its people has it sought to attain marx s vision of the ultimate withering away of the state and the law has mao zedong preferred soviet practice to marxist preaching if so has he followed stalin or stalin s heirs to what extent has it been possible to transplant a foreign legal system into the world s oldest legal tradition has the system changed since 1949 what has been the direction of that change and what are the prospects for the future today immense difficulties impede the study of any aspect of china s legal system most foreign scholars are forbidden to enter the country and those who do visit china find solid data hard to come by much of the body of law is unpublished and available only to officialdom and what is publicly available offers an incomplete idealized or outdated version of chinese legal processes moreover popular publications

and legal journals that told much about the regime's first decade have become increasingly scarce and uninformative in order to obtain information for this study Mr Cohen spent 1963-64 in Hong Kong interviewing refugees from the mainland and searching out and translating material on Chinese criminal law from the interviews and published works he has endeavored to piece together relevant data in order to see the system as a whole the first of the three parts of the book is an introductory essay providing an overview of the evolution and operation of the criminal process from 1949 through 1963 the second part constituting the bulk of the book systematically presents primary source material including excerpts from legal documents policy statements and articles in Chinese periodicals in order to show the law in action as well as the law on the books the author has included selections from written and oral accounts by persons who have lived in or visited the People's Republic interspersed among these diverse materials are Mr Cohen's own comments questions and notes part iii contains an English-Chinese glossary of the major institutional and legal terms translated in part ii a bibliography of sources and a list of English language books and articles that are pertinent to an understanding of the criminal process in China

Defendant Participation in the Criminal Process 2016-10-04

requirements for the defendant to actively participate in the English criminal process have been increasing in recent years such that the defendant can now be penalised for their non

cooperation this book explores the changes to the defendant's role as a participant in the criminal process and the ramifications of penalising a defendant's non-cooperation particularly its effect on the adversarial system the book develops a normative theory which proposes that the criminal process should operate as a mechanism for calling the state to account for its accusations and request for official condemnation and punishment of the accused it goes on to examine the limitations placed on the privilege against self-incrimination the curtailment of the right to silence and the defendant's duty to disclose the details of his or her case prior to trial the book shows that by placing participatory requirements on defendants and penalising them for their non-cooperation a system of obligatory participation has developed this development is the consequence of pursuing efficient fact-finding with little regard for principles of fairness or the rights of the defendant

Victims and the Criminal Trial 2016-08-10 this book addresses the idea that victims remain contested and controversial participants of justice in the twenty-first century adversarial criminal trial victims are increasingly participating in all phases of the criminal trial with new substantive and procedural rights many of which may be enforced against the state or defendant this movement to substantive rights has been contentious and evidences a contested terrain between lawyers defendants policy makers and even victims themselves bringing together substantial source materials from law and policy this book sets

out the rights and powers of the victim throughout the phases of the modern adversarial criminal trial it examines the role of the victim in pre trial processes alternative pathways and restorative intervention the jury trial sentencing appeal and parole preventative detention victim registers criminal injuries compensation and victim assistance restitution and reparations and extra curial rights and declarations are examined to set out the rights of victims as they impact upon and constitute aspects of the modern criminal trial process the adversarial criminal trial is also assessed in the context of the increased rights of victims in international law and procedure and with reference to policy transfer between civil and common law jurisdictions this timely and comprehensive book will be of great interest to scholars of criminology criminal law and socio legal studies

Taming the Presumption of Innocence 2016-02-01 the notion that an individual accused of a crime is presumed innocent until proven guilty is one of the cornerstones of the american criminal justice system however the presumption of innocence creates a number of practical and theoretical issues particularly regarding pre trial and post trial processes in taming the presumption of innocence richard l lippke argues that the presumption of innocence should be contained to the criminal trial beyond the realm of the trial legal professionals investigators and the general public should carry out their respective roles in the criminal justice process without making any presumptions about guilt or innocence whatsoever rather

than eschewing the significance of the presumption of innocence the book defends its role within its proper context the criminal trial according to lippke other aspects of the criminal justice system such as investigation lawmaking and treatment of ex offenders should be conducted in such a way that reflects the fallibility and unpredictability of the system without involving the issue of presumed guilt or innocence lippke dispels the idea that the presumption of innocence can be used to remedy some of the current issues in the practice of criminal justice and instead proposes engaging in deeper more substantive reforms of the american criminal justice system the first monograph dedicated exclusively to the presumption of innocence taming the presumption of innocence will be an ideal text for students and scholars of criminology criminal justice and legal theory

Criminal Aliens in the United States 1994 the expression the criminal question does not at present have much currency in english language criminology the term was carried across from italian debates about the orientation of criminology and in particular debates about what came to be called critical criminology one definition offered early in the debate described it as an area constituted by actions institutions policies and discourses whose boundaries shift according to this writer crime and the cultural and symbolic significance carried by law and criminal justice is an integral aspect of the criminal question the criminal question draws attention to the specific location and constitution of a given field of forces and the themes issues

dilemmas and debates that compose it at the same time it enables connections to be made between these embedded realities and the wider conceivably global contours of influence and flows of power with which it connects this in turn raises many questions how far do the responses to crime and punishment internationally flow from and owe their contemporary shape to the cultural and economic transformations now widely known as globalisation how can something that is in significant ways embedded situated and locally produced also travel what is not in doubt is that it does travel and travel with serious consequences the international circulation of discourses and practices has become a pressing issue for scholars who try to understand their operation in their own particular cultural contexts this collection of essays seeks a constructive comparative view of these tendencies to convergence and divergence

The Criminal the Community 2015-06-04 i will now give in some detail the history of a more decisive and significant example of this same moral insensibility it is in a child and i take it from german records marie schneider a school girl twelve years of age was brought before the berlin criminal court in 1886 she was well developed for her age of ordinary facial expression not pretty nor yet ugly her head was round the forehead receding slightly the nose rather small the eyes brown and lively the smooth rather fair hair combed back pg 8 with an intellectual clearness and precision very remarkable for her age she answered all the searching questions put by the president of the court without hesitation or shrinking there was not the slightest trace of any inner emotion or deep excitement she spoke in the same quiet equable tone in which a school girl

speaks to her teacher or repeats her lesson and when the questions put to her became of so serious a character that the judge himself involuntarily altered his voice and tone the little girl still remained self possessed lucid childlike she was by no means bold but she knew that she had to answer as when her teacher spoke to her and what she said bore the impress of perfect truth and agreed at every point with the evidence already placed before the court her statement was substantially as follows my name is marie schneider i was born on the 1st of may 1874 in berlin my father died long ago i do not know when i never knew him my mother is still living she is a machinist i also have a younger brother i lost a sister a year ago i did not much like her because she was better than i and my mother treated her better my mother has several times whipped me for naughtiness and it is right that i should take away the stick with which she beat me and to beat her i have gone to school since i was six years old

excerpt from the criminal insane in the united states and in foreign countries the softened modern sentiment toward the insane exposes society to a new danger it is that criminals may take advantage of the plea of insanity to secure acquittal or

commitment to a hospital instead of to a prison the necessity therefore of protecting the prisoner on one hand and of protecting society on the other has introduced marked changes in modern law and methods of practice in the courts of civilized countries we are obliged to ask to day whether the prisoner was sane when the act with which he is charged was committed at least we are obliged to meet this question whenever it is raised he may have been sane when the act was committed and be insane at the time of his trial or he may have been insane when the act was committed though sane at the time of trial or he may become insane after he is convicted and sentenced and while serving his term in prison the irresponsibility of the prisoner thus creates a new responsibility for society it is the responsibility first of determining whether an accused person is or was mentally diseased and then of deciding what form of treatment the person shall receive it may be acquittal if his recovery and harmlessness are beyond doubt or it may be committal to a hospital or to a special asylum for the criminal

Democracy in the Courts 2016-05-13 in the last two decades the philosophy of criminal law has undergone a vibrant revival in canada the adoption of the charter of rights and freedoms has given the supreme court of canada unprecedented latitude to engage with principles of legal moral and political philosophy when elaborating its criminal law jurisprudence canadian scholars have followed suit by paying increased attention to the philosophical foundations of domestic criminal law because of canada s leadership in international criminal law both at the level of the international criminal court and of specific war crimes tribunals they have also begun to turn their attention to international criminal law per se this collection seeks to bring all these canadian voices together for the first time and evidence the fact that criminal law theory is no longer to be associated exclusively with the older british german and american traditions the topics covered include questions of philosophical methodology the legitimate scope of domestic and international criminalization rationales for criminal law defences in both

domestic and international law the philosophical underpinnings of specific crimes and forms of joint responsibility as well as the theorization of criminal procedure and evidence law endorsements in continental europe academic commentary on the criminal law has long manifested large philosophical ambitions less so in common law countries where the dominance of jury trial and the piecemeal development of case law together with the famously robust attitudes of common lawyers have militated against detailed philosophical engagement with doctrine over the last 20 years or so however new generations of philosophically literate lawyers and legally informed philosophers have overcome the historic resistance nowhere more so it seems than in canada where the common law and civilian traditions meet in rethinking criminal law theory françois tanguay renaud and james sribopoulos have joined with 14 talented canadian colleagues to showcase the tremendous breadth and depth of their contemporary national contribution to the subject ranging across topics as diverse as emergency obscenity and insanity these essays without exception insightful and penetrating set a high standard for the rest of us to aspire to john gardner university of oxford rethinking criminal law theory is an excellent collection of essays demonstrating the vigour creativity and range of canadian criminal justice scholarship it covers a wide range of problems and issues both in the domestic and the international context core questions are examined in depth and new questions

interdisciplinary investigation into criminalization focussing on the principles that might guide decisions about what kinds of conduct should be criminalized and the forms that criminalization should take developing a normative theory of criminalization the series tackles the key questions at the heart of the issue what principles and goals should guide legislators in deciding what to criminalize how should criminal wrongs be classified and differentiated how should law enforcement officials apply the law s specifications of offences this the fifth book in the series offers a historical and conceptual account of the development of the modern criminal law in england and as it has spread to common law jurisdictions around the world the book offers a historical perspective on the development of theories of criminalization it shows how the emergence of theories of criminalization is inextricably linked to modern understandings of the criminal law as a conceptually distinct body of rules and how this in turn has been shaped by the changing functions of criminal law as an instrument of government in the modern state the book is structured in two main parts the first traces the development of the modern law as a distinct and conceptually distinct body of rules looking in particular at ideas of jurisdiction codification and responsibility the second part then engages in detailed analysis of specific areas of criminal law focusing on patterns of criminalization in relation to property the person and sexual conduct

The Criminal the Community (Classic Reprint) 2001-05-24 as shown by the trials of slobodan milosevic charles taylor and

saddam hussein the large scale and systematic commission of international crimes is usually planned and set in motion by senior political and military leaders nevertheless the application of traditional forms of criminal liability leads to the conclusion that they are mere accessories to such crimes this does not reflect their central role and often results in a punishment which is inappropriately low in view of the impact of their actions and omissions for these reasons international criminal law has placed special emphasis on the development of concepts such as control of the crime and joint criminal enterprise also known as the common purpose doctrine which aim at reflecting better the central role played by senior political and military leaders in campaigns of large scale and systematic commission of international crimes the rome statute of the international criminal court and the case law of the icty and the ictr have in recent years played a unique role in the achievement of this goal
