by demonstrating that western conceptions of civil society have provided the framework for interpreting societies in the global south decolonizing civil society in mozambique argues that it is only through a critical deconstruction of these concepts that we can start to re balance global power relationships both in academic discourse and in development practices examining the exclusionary discourses framing the support for western type ngos in the development discourse often to the exclusion of local social actors this book dissects mainstream contemporary ideas about civil society and finds a new means by which to identify local forms of social action often based in traditional structures and spiritual discourses outlining new conceptual ideas for an alternative framing of mozambique s civil society kleibl proposes a series of fresh theoretical issues and questions alongside empirical research moving towards a series of new policy and practice arguments for rethinking and decolonizing civil society in the global south

the interplay between solitude and society was a particularly persistent theme in nineteenth century american literature though writers approached this theme in different ways poe explored the metaphysical significance of isolation and held solitude in high esteem hawthorne viewed the theme in moral terms and examined the obligation of each individual to the larger community and emerson maintained that the contradictory states of self reliance and solidarity are fundamental to human happiness herman melville emerged with an ontological response to this issue questioning the nature of being he argued that humans are essentially isolated creatures while he grants that we are free to choose how we conduct our lives whether in solitude or in society we cannot escape the essential condition of our alienation thus in moby dick he coins the term isolato to signify the inherent separateness of all individuals writing some fifty years later edith wharton reached the same conclusion this book argues that wharton s views on solitude and society were strongly parallel to those of melville scholars have generally held that wharton was primarily influenced by the great english french and russian writers of the nineteenth century and that with the exception of walt whitman ralph waldo emerson

and henry james she neglected the influence of american literature almost entirely this study demonstrates that wharton read a significant portion of melville s writings that she reflected on the nature and achievement of his works and that her consideration of his importance emerged during very significant moments in her life when she was forced to grapple with her own place as an individual in relation to a larger community though melville and wharton initially seem disparate this book shows that they had much in common by studying the two authors side by side this volume reveals that they shared a similar way of seeing the world particularly with respect to their considerations of solitude and society through their solitary characters melville and wharton question the relationship of self and society and thus engage a universal problem of special interest to the nineteenth century

george herbert mead 1863 1931 is a founding figure in the field of sociology his stature is comparable to that of his contemporaries emile durkheim and max weber mead s contribution was a profound and unique american theory that analyzed society and the individual as social objects as mead saw it both society and the individual emerged from cooperative democratic processes linking the self the other and the community mary jo deegan a leading scholar of mead s work traces the evolution of his thought its continuity and change she is particularly interested in the most controversial period of mead s work in which he addressed topics of violence and the nation state mead s theory of war peace and society emerged out of the historical events of his time particularly world war i during this period he went from being a pacifist along with his contemporaries john dewey and jane addams to being a strong advocate for war from 1917 1918 mead became a leader in voicing the need for war based on his theory of self and society after the war he became disillusioned with president woodrow wilson with americans failure to support mechanisms for international arbitration and with the political reasons for american participation in world war i he returned to a more pacifist and co operative model of behavior during the 1920s when he became less political more abstract and more withdrawn from public debate the book includes deegan s interpretation of mead s early social thought his friendship and family networks the historical context of america at war and the importance of analysis of violence and the state from mead s perspective she also provides illustrative selections from mead s work much of which was previously unpublished
