## *The Indian Civil Rights Act at Forty*

2012

literary nonfiction native american studies edited by kristen a carpenter matthew l m fletcher and angela r riley congress passed the indian civil rights act of 1968 icra to address civil rights in indian country icra extended select tailored provisions of the bill of rights including equal protection due process free speech and religious exercise criminal procedure and property rights to tribal governments but with the exception of the writ of habeas corpus congress did not establish a federal enforcement mechanism for violations of the act nor did it abrogate tribal sovereign immunity thus icra has been interpreted and enforced almost exclusively by indian tribes and their courts this collection of essays gathered on the fortieth anniversary of icra provides for the first time a summary and critical analysis of how indian tribes interpret and apply these important civil rights provisions in our contemporary world the authors have found that while informed by icra and the dominant society s conception of individual rights indian nations are ultimately adapting and interpreting icra in ways consistent with their own tribal traditions and beliefs in some respects icra parallels the broader experiences of tribes over the past forty years a period of growth revitalization and self determination for many indian nations

## *Public Law after the Human Rights Act*

2010-05-20

it is remarkable that 10 years after the human rights act came into effect and with further reform possible there are still no clear answers to basic questions about the relationship between the human rights act human rights principles and the common law such basic questions include what is the human rights act what is the relationship between human rights principles and common law doctrines in public law do traditional public law principles need to be replaced how has the human rights act altered the constitutional relationship between the courts government and parliament in the uk public law after the human rights act proposes answers to these questions unlike other books on the human rights act the book looks beyond the human rights act itself to its effect on public law as a whole the book articulates in novel ways the relationship between the act and administrative and constitutional law it suggests that the human rights act has built on the common law constitution the discussion focuses on core topics in modern public law including the constitutional status of the human rights act the relationship between human rights and the common law the human rights act s effect on central doctrines of public law such as reasonableness proportionality and process review the structure of public law in the human rights era derogation and emergencies and the right of access to a court winner of the inner temple young author book prize 2011

## The Rise and Fall of the Voting Rights Act

2016-04-12

on june 25 2013 the u s supreme court handed down its decision in shelby county v holder invalidating a key provision of voting rights law the decision the culmination of an eight year battle over the power of congress to regulate state conduct of elections marked the closing of a chapter in american politics that chapter had opened a century earlier in the case of guinn v united states which ushered in national efforts to knock down racial barriers

to the ballot a detailed and timely history the rise and fall of the voting rights act analyzes changing legislation and the future of voting rights in the united states in tracing the development of the voting rights act from its inception charles s bullock iii ronald keith gaddie and justin j wert begin by exploring the political and legal aspects of the jim crow electoral regime detailing both the subsequent struggle to enact the law and its impact they explain why the voting rights act was necessary the authors draw on court cases and election data to bring their discussion to the present with an examination of the 2006 revision and renewal of the act and its role in shaping the southern political environment in the 2008 and 2012 presidential elections when barack obama was chosen bullock gaddie and wert go on to closely evaluate the 2013 shelby county decision describing how the ideological makeup of the supreme court created an appellate environment that made the act ripe for a challenge rigorous in its scholarship and thoroughly readable this book goes beyond history and analysis to provide compelling and much needed insight into the ways voting rights legislation has shaped the united states the rise and fall of the voting rights act illuminates the historical roots and the human consequences of a critical chapter in u s legal history

## Human Rights in the UK

2013

this highly acclaimed textbook provides law students with a thorough introduction to the human rights act 1998 its background how it came to be passed and the mass of case law that has followed it the authors discuss the particular rights the act embodies including the law s response to terrorism combining broad topic coverage with an engaging writing style hoffman and rowe provide an outstanding platform for students wishing to gain an in depth and critical understanding of this contemporary contentious and constantly evolving area of law

## Extension of the Voting Rights Act of 1965

1975

under the human rights act british courts are for the first time empowered to review primary legislation for compliance with a codified set of fundamental rights in this book aileen kavanagh argues that the hra gives judges strong powers of constitutional review similar to those exercised by the courts under an entrenched bill of rights the aim of the book is to subject the leading case law under the hra to critical scrutiny whilst remaining sensitive to the deeper constitutional political and theoretical questions which underpin it such questions include the idea of judicial deference the constitutional status of the hra the principle of parliamentary sovereignty and the constitutional division of labour between parliament and the courts the book closes with a sustained defence of the legitimacy of constitutional review in a democracy thus providing a powerful rejoinder to those who are sceptical about judicial power under the hra

## *Civil Rights Acts of 1957, 1960, 1964, 1968 (as Amended Through the 93d Congress, First Session)*

1974

this book analyses the common law's approach to retroactivity the central claim is that when a court considers whether to develop or change a common law rule the retroactive effect of doing so should explicitly be considered and informed by the common law's approach to statutory construction presumptively be resisted as a platform for this claim a definition of retroactivity is established and a review of the history of retroactivity in the common law is provided it is then argued that certainty particularly in the form of an ability to rely on the law and a conception of negative liberty constitute rationales for a general presumption against retroactivity at a level of abstraction applicable both to the construction of statutes and to developing or changing common law rules the presumption against retroactivity in the construction of statutes is analysed and one conclusion reached is that the presumption is a principle of the common law independent of legislative intent across private public and criminal law the retroactive effect of judicial decisions that develop or change common law rules is then considered in detail prospective overruling is examined as a potential means to control the retroactive effect of some judicial decisions but it is argued that prospective overruling should be regarded as constitutionally impermissible the book is primarily concerned with english and australian law although cases from other common law jurisdictions particularly canada and new zealand are also discussed the conclusion is that in statutory construction and the adjudication of common law rules there should be a consistently strong presumption against retroactivity motivated by the common law's concern for certainty and liberty and defeasible only to strong reasons ben juratowitch not only gives an account of the operation of the presumption but also teases out the policies which underlie the different rules this is particularly welcome lawyers and judges often seem less than sure footed when confronted by questions in this field by giving us an insight into the policies the author provides a basis for more satisfactory decision making in the future the author not only discusses the recent cases but examines the question in the light of authority in other commonwealth jurisdictions and with due regard to the more theoretical literature this is a valuable contribution to what is an important current debate in the law happily ben juratowitch has succeeded in making his study not only useful but interesting and enjoyable from the foreword by lord rodger of earlsferry

for almost forty years the verdict on lyndon johnson s presidency has been reduced to a handful of harsh words tragedy betrayal lost opportunity initially historians focused on the vietnam war and how that conflict derailed liberalism tarnished the nation s reputation wasted lives and eventually even led to watergate more recently johnson has been excoriated in more personal terms as a player of political hardball as the product of machine style corruption as an opportunist as a cruel husband and boss in lbj randall b woods a distinguished historian of twentieth century america and a son of texas offers a wholesale reappraisal and sweeping authoritative account of the lbj who has been lost under this baleful gaze woods understands the political landscape of the american south and the differences between personal failings and political principles thanks to the release of thousands of hours of lbj s white house tapes along with the declassification of tens of thousands of documents and interviews with key aides woods s lbj brings crucial new evidence to bear on many key aspects of the man and the politician as private conversations reveal johnson intentionally exaggerated his stereotype in many interviews for reasons of both tactics and contempt it is time to set the record straight woods s johnson is a flawed but deeply sympathetic character he was born into a family with a liberal texas tradition of public service and a strong belief in the public good he worked tirelessly but not just for the sake of ambition his approach to reform at home and to fighting fascism and communism abroad was motivated by the same ideals and based on a liberal christian tradition that is often forgotten today vietnam turned into a tragedy but it was part and parcel of johnson s commitment to civil rights and antipoverty reforms lbj offers a fascinating new history of the political upheavals of the 1960s and a new way to understand the last great burst of liberalism in america johnson was a magnetic character and his life was filled with fascinating stories and scenes through insights gained from interviews with his longtime secretary his secret service detail and his closest aides and confidants woods brings johnson before us in vivid and unforgettable color

## ***Supreme Court Confirmation Hearings and Constitutional Change***

2012

this dynamic and comprehensive text from nationally renowned scholars continues to demonstrate the profound influence african americans have had and continue to have on american politics through the use of two interrelated themes the idea of universal freedom and the concept of minority majority coalitions the text demonstrates how the presence of africans in the united states affected the founding of the republic and its political institutions and processes the authors show that through the quest for their own freedom in the united states african americans have universalized and expanded the freedoms of all americans new to the eighth edition a new co author sherry l

wallace is renowned for her teaching scholarship and participation in apsa s american government textbook assessment for coverage of race ethnicity and gender she is the perfect addition following an election year that included female presidential candidates as well as candidates of color and issues focusing on racial tension and inequality offers a new media integration guide for the first time provides the first overall assessment of the obama administration in relation to domestic and foreign policy and racial politics in particular updated through the 2016 elections connecting the obama years with the new administration looks at candidates hillary clinton and ben carson in particular in relation to the themes of the book adds a new section on state politics and elections includes new sections on intersectionality dealing with issues of race gender and sexuality lgbt issues as another manifestation of the struggle for universal freedom a discussion of the black lives matter movement and a new section focusing on the changing character of black ethnicity as result of increased immigration from africa and the caribbean discusses the way in which race contributed to the polarization of american politics the connections to the tea party and the obama presidency and the 2016 presidential campaign as the most polarized since the advent of polling previews the impact of the trump administration on matters of race and ethnicity

## Conservation in a Crowded World: Case studies from the Asia-Pacific

1980

deep informed and reeks of common sense norman ornstein it is now beyond debate that rising inequality is not only leaving millions of americans living on a sharp edge but also is threatening our democracy for activists and scholars alike who are struggling to create a more equitable society this is an essential read david gergen we are in an age of crisis that much we can agree on but a crisis of what exactly and how do we get out of it in a follow up to their influential and much debated death by a thousand cuts michael graetz and ian shapiro focus on what really worries people not what the rich are making or the government is taking from them but their own insecurity americans are worried about losing their jobs their status and the safety of their communities they fear the wolf at the door the solution is not protectionism or class warfare but better jobs higher wages greater protection for families suffering from unemployment better health insurance and higher quality childcare and it turns out those goals are more achievable than you might think the wolf at the door is one of those rare books that doesn t just diagnose our problems it shows how to address them this is a terrific book original erudite and superbly well informed and full of new wisdom about what might and what might not help the majority of americans who have not shared in our growing prosperity but are left facing the wolf at the door everyone interested in public policy should read this book angus deaton princeton university graetz and shapiro wrestle with a fundamental question of our day how do we address a system that makes too many americans anxious that economic security is slipping out of reach their cogent call for sensible and achievable policies should be read by progressives and conservatives alike jacob j lew former secretary of the treasury
