Catalog of Copyright Entries. Third Series 1961 includes part 1 number 1 2 books and pamphlets including serials and contributions to periodicals january december

Canadian Jeweller 1959 vols 1958 1979 one issue each year includes the annual directory

**Doctrine and Reform in the British Cavalry 1880–1918** 2016-12-05 a prevalent view among historians is that both horsed cavalry and the cavalry charge became obviously obsolete in the second half of the nineteenth century in the face of increased infantry and artillery firepower and that officers of the cavalry clung to both for reasons of prestige and stupidity it is this view commonly held but rarely supported by sustained research that this book challenges it shows that the achievements of british and empire cavalry in the first world war although controversial are sufficient to contradict the argument that belief in the cavalry was evidence of military incompetence it offers a case study of how in reality a practical military doctrine for the cavalry was developed and modified over several decades influenced by wider defence plans and spending by the experience of combat by army politics and by the rivalries of senior officers debate as to how the cavalry was to adjust its tactics in the face of increased infantry and artillery firepower began in the mid nineteenth century when the increasing size of armies meant a greater need for mobile troops the cavalry problem was how to deal with a gap in the evolution of warfare between the mass armies of the later nineteenth century and the motorised firepower of the mid twentieth century an issue that is closely connected with the origins of the deadlock on the western front tracing this debate this book shows how despite serious attempts to learn from history both european style wars and colonial wars produced ambiguous or disputed evidence as to the future of cavalry and doctrine was largely a matter of what appeared practical at the time

**Interlibrary Loan Services Manual** 1991 february issue includes appendix entitled directory of united states government periodicals and subscription publications september issue includes list of depository libraries june and december issues include semiannual index

**Monthly Catalog, United States Public Documents** 1934-07 in the first book ever written on the subject carl bowman examines how and why members of the church of the brethren historically known as dunkers after their method of baptism were assimilated faster and earlier than their amish mennonite or even hutterite cousins

*Books and Pamphlets, Including Serials and Contributions to Periodicals* 1968 popular science gives our readers the information and tools to improve their technology and their world the core belief that popular science and our readers share the future is going to be better and science and technology are the driving forces that will help make it better

**Foreign Service Regulations of the United States of America** 1941 vols 76 83 93 include reference and data section for 1929 1936 46 1929 called water works and sewerage data section

*Catalogue of Copyright Entries* 1928 the regular mounted infantry was one of the most important innovations of the late victorian and edwardian british army rather than fight on horseback in the traditional manner of cavalry they used horses primarily to move swiftly about the battlefield where they would then dismount and fight on foot thus anticipating the development of mechanised infantry tactics during the twentieth century yet despite this apparent foresight the mounted infantry concept was abandoned by the british army in 1913 just at the point when it may have made the transition from a colonial to a continental force as part of the british expeditionary force exploring the historical background to the mounted infantry this book untangles the debates that raged in the army parliament and the press between its advocates and the supporters of the established cavalry with its origins in the extemporised mounted detachments raised during times of crisis from infantry battalions on overseas imperial garrison duties dr winrow reveals how the mounted infantry model unique among european armies evolved into a formalised and apparently highly successful organisation of non cavalry mounted troops he then analyses why the mounted infantry concept fell out of

favour just eleven years after its apogee during the south african anglo boer war of 1899 1902 as such the book will be of interest not only to historians of the nineteenth century british army but also those tracing the development of modern military doctrine and tactics to which the mounted infantry provided successful if short lived inspiration
