digital pharma marketing playbook is a first of its kind of book it is the first and only book that presents 101 cases in digital pharma marketing these cases show how some of the leading pharmaceutical companies across the world have used digital and social media channels they are also excellent learning opportunities to all pharma marketing and brand managers and students of pharmaceutical marketing digital transformation is sweeping the world around us everything these days has become digital the ever increasing rate of adoption of wearable devices and the advent of the internet of things are digitizing more and more of our experience at the same time healthcare in general and the pharmaceutical industry in particular have been lagging in

adapting to a digital strategy it is not that the pharma is new to multichannel marketing the pharmaceutical industry traditionally has been following a multichannel marketing strategy where most of the channels have been static rather than dynamic the number of channels has increased significantly due to the internet explosion pharma is moving to a multi stakeholder world a world in which stakeholders beyond the prescriber are gaining importance these new influencer groups such as patients nurses payers and regulators are increasingly turning to digital channels for their information needs regarding healthcare digital therefore plays a vital role in reaching these new audiences if you want to maximize the impact of your marketing communications can you afford to ignore the channels that your stakeholders are frequently using of course not therefore the question is not to digitize or not to digitize but how soon and how effectively why a digital pharma marketing playbook because a playbook is a one stop read or single source resource for all the essential information that you need on a given sport in our case digital pharma marketing if you can make work more fun and enjoyable it is play moreover when work becomes play there are no goals that you cannot score contents 1 challenging times changing rules 2 digital revolution 3 digital pharma marketing 4 social media marketing and pharma 5 digital transformation

this book equips pre service teachers research postgraduate students teacher educators and language specialists with specific

knowledge and skills about the principles research and applications of digital portfolios within the efl writing contexts while most digital portfolio scholarship focuses on higher education this book targets primary level and secondary level school audiences namely pre service teachers teacher educators and ministry of education staff members with a focus on efl writing the rationale behind this design is that the published literature on digital portfolios tends to be generic and one size fits all there has been scant published scholarship about the development of digital portfolio literacy among teachers and pupils which could enable them to upgrade the teaching and learning of writing in a larger efl environment this volume fills this gap by illustrating the why what and how aspects of digital portfolios in ten reader friendly chapters guiding educators to enrich their pedagogical repertoire via the portfolio approach this book emphasises a healthy balance between principles research and practice it is an easy to follow guide to setting up digital portfolio systems and coaching pupils to improve writing ensuring the dissemination of digital portfolios with high fidelity
