Proposed Water Treatment Residuals Management Process for the Washington Aqueduct 2005

the code of federal regulations is the codification of the general and permanent rules published in the federal register by the executive departments and agencies of the federal government

An Evaluation of Emission Factors for Waste-to-energy Systems 1980

students and practitioners alike will find sources and control of air pollution by heinsohn and kabel to be a comprehensive treatment of possible contamination of the atmosphere the physical and social environment in which it occurs and the resultant impacts the cultural aesthetic biological physiological ecological legal and economic contexts of air pollution are addressed in depth as are the scientific and engineering principles used to mitigate it

Compilation of Air Pollutant Emission Factors. 3d Ed 1978

this informational document provides basic and current descriptions of gasoline marketing operations and methods that are available to control hydrocarbon emissions from these operations the three types of facilities that are described are terminals bulk plants and service stations operational and business trends are also discussed emissions from typical facilities including transport trucks are estimated the operations which lead to emissions from these facilities include 1 gasoline storage 2 gasoline loading at terminal and bulk plants 3 gasoline delivery to bulk plants and service stations and 4 the refueling of vehicles at service stations available and possible methods for controlling emissions are described with their estimated control efficiencies and costs the costs for control of a unit weight of hydrocarbon are calculated from these estimates this report also includes a bibliography of references cited in the text and supplementary sources of information

Development and Selection of Ammonia Emission Factors for the 1985 NAPAP Emissions Inventory 1990

the alarming consequences of global climate change have highlighted the need to take urgent steps to combat the causes of air pollution hence understanding the earth s atmosphere is a vital component in man s emerging quest for developing sustainable modes of behaviour in the 21st century written by a team of expert scientists the handbook of atmospheric science provides a broad and up to date account of our understanding of the natural processes that occur within the atmosphere it examines how man s activities have had a detrimental effect on the climate and how measures may be implemented in order to modify these activities the book progresses through chapters covering the principles of atmospheric science and the current problems of air pollution at the urban regional and global scales to the tools and applications used to understand air pollution the handbook of atmospheric science offers an excellent overview of this multi disciplinary subject and will prove invaluable to both students and researchers of atmospheric science air pollution and global change

Compilation of Air Pollutant Emission Factors 1977

risk assessment has become a dominant public policy tool for making choices based on limited resources to protect public health and the environment it has been instrumental to the mission of the u s environmental protection agency epa as well as other federal agencies in evaluating public health concerns informing regulatory and technological decisions prioritizing research needs and funding and in developing approaches for cost benefit analysis however risk assessment is at a crossroads despite advances in the field risk assessment faces a number of significant challenges including lengthy delays in making complex decisions lack of data leading to significant uncertainty in risk assessments and many chemicals in the marketplace that have not been evaluated and emerging agents requiring assessment science and decisions makes practical scientific and technical recommendations to address these challenges this book is a complement to the widely used 1983 national academies book risk assessment in the federal government also known as the red book the earlier book established a framework for the concepts and conduct of risk assessment that has been adopted by numerous expert committees regulatory agencies and public health institutions the new book embeds these concepts within a broader framework for risk based decision making together these are essential references for those working in the regulatory and public health fields

Compilation of Air Pollutant Emission Factors: Mobile sources 1985

Supplement C to Compilation of Air Pollutant Emission Factors 1990

Montana Statewide Oil and Gas and Proposed Amendment of the Powder River and Billings Resource Management Plans 2003

Bulk Gasoline Terminals, Background Information for Proposed Standards 1983

Point Reyes National Seashore and North District of Golden Gate National Recreation Area (N.R.A.), Fire Management Plan 2004

Kenai National Wildlife Refuge, Wolf Lake Area Natural Gas Project 2000

Mobile Source Emission Factors 1978

Mobile Source Emission Factors (for Low-altitude Areas Only) 1978

Hammond Railroad Relocation and Consolidation Project 1981

The Code of Federal Regulations of the United States of America 1994

Code of Federal Regulations 2005

Supplement B to Compilation of Air Pollutant Emission Factors 1996

International Conference on Air Pollution from Agricultural Operations 1996

**Construction, Maintenance and Operation of Tactical Infrastructure, Rio Grande Valley Sector
2007**

Proposed Construction, Operation, and Maintenance of Tactical Infrastructure, U.S. Border Patrol

San Diego Sector 2007

Puget Sound Naval Shipyard Steam Plant, Bremerton 1982

Fort George G. Meade, Addressing Campus Development 2010

Proposed 1979 Outer Continental Shelf Oil and Gas Lease Sale Offshore Southern California 1979

National Air Pollutant Emission Estimates, 1940-1988 1990

Sources and Control of Air Pollution 1999

Environmental Health Series 1972

National Emissions Report 1978

Los Alamos National Laboratory Continued Operation Site-Wide 1999

EPA National Publications Catalog 1995

Proposed 1981 Outer Continental Shelf Oil and Gas Lease Sale 56 1980

William B. Hobby Airport Runway Construction, Houston 1977

United States Marine Corps F-35B West Coast Basing 2010

**Baltimore-Washington International Airport Runway 15L-33R Extension, Anne Arundel County
1989**
