Fugitive Slaves and Spaces of Freedom in North America

2020-09-08

this volume introduces a new way to study the experiences of runaway slaves by defining different spaces of freedom they inhabited it also provides a groundbreaking continental view of fugitive slave migration moving beyond the usual regional or national approaches to explore locations in canada the u s north and south mexico and the caribbean using newspapers advertisements and new demographic data contributors show how events like the revolutionary war and westward expansion shaped the slave experience contributors investigate sites of formal freedom where slavery was abolished and refugees were legally free to determine the extent to which fugitive slaves experienced freedom in places like canada while still being subject to racism in sites of semiformal freedom as in the northern united states fugitives claims to freedom were precarious because state abolition laws conflicted with federal fugitive slave laws contributors show how local committees strategized to interfere with the work of slave catchers to protect refugees sites of informal freedom were created within the slaveholding south where runaways who felt relocating to distant destinations was too risky formed maroon communities or attempted to blend in with free black populations these individuals procured false documents or changed their names to avoid detection and pass as free the essays discuss slaves motivations for choosing these destinations the social networks that supported their plans what it was like to settle in their new societies and how slave flight impacted broader debates about slavery this volume redraws the map of escape and emancipation during this period emphasizing the importance of place in defining the meaning and extent of freedom contributors kyle ainsworth mekala audain gordon s barker sylviane a diouf roy e finkenbine graham russell gao hedges jeffrey r kerr ritchie viola franziska müller james david nichols damian alan pargas matthew pinsker a volume in the series southern dissent edited by stanley harrold and randall m miller

After Finitude

2008-06-07

after finitude provides readings of the history of philosophy and sets out a critique of the unavowed fideism at the heart of post kantian philosophy author quentin meillassoux introduces a philosophical alternative to the forced choice between dogmatism and critique after finitude proposes a new alliance between philosophy and science and calls for an unequivocal halt to the creeping return of religiosity in contemporary philosophical discourse

Maya Christians and Their Churches in Sixteenth-Century Belize

2020-03-17

it is widely held that christianity came to belize as an extension of the conquest of yucatan and that adherence to christian belief and practice was abandoned in the absence of enduring spanish authority an alternative view comes from the excavations of maya churches at tipu and lamanai which show that the dead were buried in christian churchyards long after the churches themselves fell into disuse and pre columbian ritual objects were cached in christian sacred spaces both during and after spanish occupation excavations also reveal that the architectural style of these early churches is franciscan in inspiration but nonetheless the product of continuing community efforts at construction and repair a conclusion difficult to ignore is that the maya of tipu and lamanai considered themselves christians with or without spanish presence viewing historical and archaeological data through the lens of her personal experience of roman catholicism and informed by feminist approaches elizabeth graham assesses the concept of religion the significance of doctrine the empowerment of the individual and the process of conversion by examining the meanings attributed to ideas objects and images by the maya by iberian christians and by archaeologists graham s provocative study also makes the case that the impact of christianity in belize was a phenomenon that uniquely shaped the development of the modern nation a volume in the series maya studies edited by diane z chase and arlen f chase

Abraham Lincoln as a Man of Ideas

2016-12-29

despite the most meager of formal educations lincoln had a tremendous intellectual curiosity that drove

him into the circle of enlightenment philosophy and democratic political ideology and from these lincoln developed a set of political convictions that guided him throughout his life and his presidency this compilation of ten essays from lincoln scholar allen c guelzo uncovers the hidden sources of lincoln s ideas and examines the beliefs that directed his career and brought an end to slavery and the civil war

Approaches to Monumental Landscapes of the Ancient Maya

2019-12-11

this volume brings together a wide spectrum of new approaches to ancient maya studies in an innovative exploration of how the preclassic and classic maya shaped their world moving beyond the towering temples and palaces typically associated with the maya civilization contributors present unconventional examples of monumental maya landscapes featuring studies from across the central maya lowlands belize and the northern and central maya highlands and spanning over 10 000 years of human occupation in the region these chapters show how the word monumental can be used to describe natural and constructed landscapes political and economic landscapes and ritual and sacred landscapes examples include a massive system of aqueducts and canals at the kaminaljuyu site a vast arena designed for public spectacle at chan chich and even the complex realms of maya cosmology as represented by the ritual cave at las cuevas by including physical conceptual and symbolic ways monumentality pervaded ancient maya culture this volume broadens traditional understandings of how the maya interacted with their environment and provides exciting analytical perspectives to guide future study a volume in the series maya studies edited by diane z chase and arlen f chase

Prizing Scottish Literature

2021-02-15

this cultural history of the saltire society literary awards demonstrates the significance the awards have had within scottish literary and cultural life it is one piece of the wider cultural award puzzle and illustrates how far from being parochial or niche lesser known awards whose histories may be yet untold play their own role in the circulation of cultural value through the consecration of literary value the study of the society s book of the year and first book of the year awards not only highlights how important connections between literary awards and national culture and identity are within prize culture and how literary awards and their founding institutions can be products of the socio political and cultural milieu in which they form but this study also illustrates how existing literary award scholarship has only begun to scratch the surface of the complexities of the phenomenon this book promotes a new approach to considering literary prizes proposing that the concept of the literary awards hierarchy can contribute to emerging and developing discourses pertaining to literary and indeed cultural prizes more broadly

The Sea Their Graves

The Archaeology of Southeastern Native American Landscapes of the Colonial Era

2019-11-04

honorable mention southern anthropological society james mooney award native american populations both accommodated and resisted the encroachment of european powers in southeastern north america from the arrival of spaniards in the sixteenth century to the first decades of the american republic tracing changes to the region s natural cultural social and political environments charles cobb provides an unprecedented survey of the landscape histories of indigenous groups across this critically important area and time period cobb explores how native americans responded to the hardships of epidemic diseases chronic warfare and enslavement some groups developed new modes of migration and travel to escape conflict while others built new alliances to create safety in numbers cultural maps were redrawn as native communities evolved into the groups known today as the cherokee choctaw creek chickasaw catawba and seminole peoples cobb connects the formation of these coalitions to events in the wider

atlantic world including the rise of plantation slavery the growth of the deerskin trade the birth of the consumer revolution and the emergence of capitalism using archaeological data historical documents and ethnohistorical accounts cobb argues that native inhabitants of the southeast successfully navigated the challenges of this era reevaluating long standing assumptions that their cultures collapsed under the impact of colonialism a volume in the series the american experience in archaeological perspective edited by michael s nassaney

thorough examination of the antebellum fortifications that formed the backbone of u s military defense during the national period the system of coastal defenses built by the federal government after the war of 1812 was more than a series of forts standing guard over a watery frontier it was an integrated and comprehensive plan of national defense developed by the us army corps of engineers and it represented the nation s first peacetime defense policy known as the third system since it replaced two earlier attempts it included coastal fortifications but also denoted the values of the society that created it the governing defense policy was one that combined permanent fortifications to defend seaports a national militia system and a small regular army the third system remained the defense paradigm in the united states from 1816 to 1861 when the onset of the civil war changed the standard in addition to providing the country with military security the system also provided the context for the ongoing discussion in congress over national defense through annual congressional debates on military funding

A Journey into Florida Railroad History

2012-03-25

it is safe to say that without railroads florida wouldn t be what it is today railroads connected the state s important cities and towns conquered the peninsula s vast and seemingly impenetrable interior ushered in untold numbers of settlers and tourists and conveyed to market faster than any previous means of transportation the myriad products of florida s mines forests factories farms and groves gregg turner traces the long slow development of florida railroads from the first tentative lines in the 1830s through the boom of the 1880s to the maturity of the railroad system in the 1920s at the end of that decade nearly 6 000 miles of labyrinthine track covered the state turner also examines the decline of the industry as the automobile rose to prominence in american culture and lines were abandoned or sold for hiking trails and green spaces meticulously researched and richly illustrated including many never before published images a journey into florida railroad history is a comprehensive authoritative history of the subject written by one of the nation s foremost authorities on florida railroads it explores all the key players and companies and every significant period of development this engaging and lively story will be savored and enjoyed by generations to come

Britain's Man on the Spot in Iraq and Afghanistan

2023-10-19

the newly discovered papers and colourfully written letters of anglo irish sir henry dobbs which form the backbone of this book reveal his importance in the development of the modern middle east an influential civil servant and britain s longest serving high commissioner in iraq at a time when the british empire was facing increasing challenges to its once dominant position he describes the difficulties of governing first in india then in the formerly ottoman mesopotamia during ww1 here dobbs had to devise administrative systems while often at odds with his superior sir percy cox in the discussions that followed the third afghan war dobbs manoeuvred between the different views in london and delhi with great dexterity to negotiate alone with the amir of afghanistan the enduring 1921 anglo afghan treaty having accepted from the league of nations the responsibility for taking the newly created iraq to sustainable independence in the aftermath of ww1 the cash strapped british government came under great domestic

pressure to abandon it key to british support continuing was iraqi acceptance of the controversial 1922 treaty with britain this dobbs achieved by disregarding the unhelpful approach recommended by london and risking his career he pressed on with his own wholly unauthorised tactics in other initiatives dobbs ensured that mosul province remained within iraq dobbs consistently pressed for iraq's early independence granted in 1932 the first territory in the former ottoman empire to gain it an early advocate of self determination dobbs was frequently at odds with the more traditional imperial approach of his superiors he always endeavoured to balance the aspirations and needs of overseas communities for whom he was responsible with the interests of britain which he represented

pharsalia a plantation located in piedmont virginia at the foot of the blue ridge mountains is one of the best documented sites of its kind drawing on the exceptionally rich trove of papers left behind by the massie family pharsalia s owners this case study demonstrates how white southern planters paradoxically relied on capitalistic methods even as they pursued an ideal of agrarian independence lynn a nelson also shows how the contradictions between these ends and means would later manifest themselves in the southern conservation movement nelson follows the fortunes of pharsalia s owners telling how virginia s traditional extensive agriculture contributed to the soil s erosion and exhaustion subsequent attempts to balance independence and sustainability through a complex system of crop rotation and resource recycling ultimately gave way to an intensive slave based form of agricultural capitalism pharsalia could not support the massies aristocratic ambitions and it was eventually parceled up and sold off by family members the farm s story embodies several fundamentals of modern u s environmental thought southerners nineteenth century quest for financial and ecological independence provided the background for conservationists attempts to save family farming at the same time farmers failure to achieve independence while maximizing profits and crop yields drove them to seek government aid and regulation these became some of the hallmarks of conservation efforts in the new deal and beyond

this study is the first to show how state courts enabled the mass expulsion of native americans from their southern homelands in the 1830s our understanding of that infamous period argues tim alan garrison is too often molded around the towering personalities of the indian removal debate including president andrew jackson cherokee leader john ross and united states supreme court justice john marshall this common view minimizes the impact on indian sovereignty of some little known legal cases at the state level because the federal government upheld native american self dominion southerners bent on expropriating indian land sought a legal toehold through state supreme court decisions as garrison discusses georgia v tassels 1830 caldwell v alabama 1831 tennessee v forman 1835 and other cases he shows how proremoval partisans exploited regional sympathies by casting removal as a states rights rather than a moral issue they won the wide support of a land hungry southern populace the disastrous consequences to cherokees creeks choctaws chickasaws and seminoles are still unfolding important in its own right jurisprudence on indian matters in the antebellum south also complements the legal corpus on slavery readers will gain a broader perspective on the racial views of the southern legal elite and on the logical inconsistencies of southern law and politics in the conceptual period of the anti indian and proslavery ideologies
