2012-12 our summary is short, simple, and pragmatic. It allows you to have the essential ideas of a big book in less than 30 minutes. As you read this summary, you will discover that the era of long careers is over, the world is changing, and it is time to change with it. This book tells us how to do it. You will also discover that you have to make choices for yourself. No one else will do it for you. There isn't just one path; there are many. Making choices for yourself is not being selfish. Making choices for yourself is deciding to take charge of your own life rather than making someone else's dreams come true. The major problem in today's society is that more and more people are finding it difficult to follow their way of doing things, and for good reason. Society is changing, but the education provided at school and university is not preparing for it at all or too slowly. Full employment, that blessed time when it was still possible to quit without trembling and to find a job on the same day, has had its dark days. It is increasingly difficult to find a stable job, even after graduation. In *Choose Yourself*, James Altucher shares his professional setbacks and proposes solutions to better cope with the changing job market. He advocates giving priority to your health, your dreams, and yourself. It's time to choose and to choose yourself. Buy now the summary of this book for the modest price of a cup of coffee.
