Understanding Green Business 2011-05

why understanding green business with every new day society has become more aware of the increasing threats to the globe due to the non environmentally friendly practices that have been occurring in the previous years due to the newfound awareness people have taken greater lengths to pass laws alter company policies and change their everyday lives to do their part in helping to preserve the environment and prevent any further damage rather than taking the easy route and continuing their habits society is putting forth a consciousness effort to go out of their way to improve the environment in any way they can as a collective force the going green movement will better the environment and allow further generations to enjoy a clean and productive world how is understanding green business structured dr tehrani and dr sinha dedicate each chapter to a different aspect of going green in this book such as products transportation networking research and energy alternatives in addition the authors discuss green careers and provide useful information on how to go about working at a green company the future of the green movement and its impacts are mentioned so as to provide a potential impact of current changes in the future it also shows a possible interpretation of how the future green movement shall be exercised who is this book for this book has been created as the core textbook for business professionals industry practitioners academicians and students who would like to hone their business skills and keep up with the latest trends in green business as a result understanding green business will support students pursuing a master degree in mba certificate in management or a diploma in management and or business while undergraduate students in business programs

Million Cars for Billion People 2014-10-11

can one car transform a nation the ford model t did do so a century ago when it replaced the horse brought about a revolution in agriculture became a stimulus to urbanization that eventually changed the landscape of america though the maruti 800 the tata indica the hyundai santro and the maruti alto became engines of growth for india these cars neither drove away the cow nor changed the way indians travelled tata s nano was expected to change all that and become the ultimate people s car capturing the imagination of the middle class across nations and cultures in spite of its petite dimensions the nano was meant to stand tall yet it did not what caused it to fail and fall from grace despite being lauded as the right product at the right time and the most significant new car since the ford model t was introduced 100 years ago but is it really all over or is there still hope for india s little wonder what will the people s cars of tomorrow be like a million cars for a billion people delves into the questions concerns and doubts as well as the many misconceptions and myths that have gathered momentum over the years about india s automotive history and the industry s mission to

create a true people's car the very first cars that came to india the early beginnings of the industry the nascent history of the automobile across nations like germany france us the uk italy japan and south korea is narrated with authority and charm from the viewpoint of the quest for the ultimate people's car
