culture and conflict inevitably go hand in hand the very idea of culture is marked by  
the notion of difference and by the creative fraught interaction between conflicting  
concepts and values the same can be said of all key ideas in the study of culture such  
as identity and diversity memory and trauma the translation of cultures and  
globalization dislocation and emplacement mediation and exclusion this series  
publishes theoretically informed original scholarship from the fields of literary and  
cultural studies as well as media visual and film studies it fosters an interdisciplinary  
dialogue on the multiple ways in which conflict supports and constrains the  
production of meaning on how conflict is represented how it relates to the past and
