Needs Assessment 2016-10

in 1995 witkin and altschuld proposed a three phase process model of needs assessment preassessment learning as much as possible from existing inexpensive sources assessment collecting new information about the needs in consideration postassessment prioritizing needs understanding their causes and translating priorities into action plans for organizations the model has been extensively re conceptualized and forms the basis for this book the content includes a user oriented approach to a comprehensive overview of the three phases and the 14 key steps necessary to implement them numerous examples and practical illustrations are given throughout the text as guidance for needs assessors and those who do research on the topic an extensive glossary of needs related terms and an outline of a final report are also provided the book is the first one in the needs assessment kit with connections to the other four

TALIS 2018 Results (Volume II) Teachers and School Leaders as Valued Professionals 2014-06

this report aims to provide an in depth analysis of teachers and school leaders perceptions of the value of their profession their work related well being and stress and their satisfaction with their working conditions it also offers a description of teachers and school leaders contractual arrangements opportunities to engage in professional tasks such as collaborative teamwork autonomous decision making and leadership practices

state of the art techniques for material characterization including a linear viscoelasticity primer methods and software for the analysis of flexible and rigid pavements including the asphalt pavement design state of the art pavement evaluation techniques including moduli backcalculation methods pavement economic analysis techniques including the most up to date user cost relationships the book companion website provides solved examples in each chapter and the electronic files associated with them an instructor solutions manual for the problems provided at the end of each chapter powerpoint presentations by chapter to facilitate lecture delivery pavement design and materials is an essential up to date textbook on the subject for upper level undergraduate and graduate level courses on pavement materials and pavement design it is also a valuable reference for practicing professional engineers involved in the various aspects of roadway pavement material selection and structural design

Pavement Design and Materials 1973

best known as a founding father of neuropsychology luria is remembered for his clinical approach which in many ways foreshadowed and served as the basis for the currently popular process approach to neuropsychological diagnosis although he never completed the job of designing a general theory of brain behavioral relations he nonetheless contributed mightily to the ongoing effort to develop one and to the emergence of neuropsychology as a mature science written by professionals who either knew alexandr romanovich luria personally or experienced his scientific influence the topics examined in this volume reflect the expanse of his interests and contributions

Contemporary Neuropsychology and the Legacy of Luria 2019-06-19

reliably optimizing a new treatment in humans is a critical first step in clinical evaluation since choosing a suboptimal dose or schedule may lead to failure in later trials at the same time if promising preclinical results do not translate into a real treatment advance it is important to determine this quickly and terminate the clinical evaluation process to avoid wasting resources bayesian designs for phase i ii clinical trials describes how phase i ii designs can serve as a bridge or protective barrier between preclinical studies and large confirmatory clinical trials it illustrates many of the severe drawbacks with conventional methods used for early phase clinical trials and presents numerous bayesian designs for human clinical trials of new experimental treatment regimes written by research leaders from the university of texas md anderson cancer center this book shows how bayesian designs for early phase clinical trials can explore refine and optimize new experimental treatments it emphasizes the importance of basing decisions on both efficacy and toxicity

Bayesian Designs for Phase I-II Clinical Trials 2005-03

this first oecd skills outlook presents the initial results of the oecd survey of adult skills which evaluates the skills of adults in 22 oecd and 2 non oecd partner countries

OECD Skills Outlook 2013 First Results from the Survey of Adult Skills 2007

the oecd teaching and learning international survey talis is the largest international survey asking teachers and school leaders about their working conditions and learning environments and provides a barometer of the profession every five years results from the 2018 cycle explore and examine the various dimensions of teacher and school leader professionalism across education systems
