Closing with the Enemy

1994

this study picks up where d day leaves off from normandy through the breakout in france to the german army s last gasp in the battle of the bulge michael doubler deals with the deadly business of war closing with the enemy fighting and winning battles taking and holding territory his study provides a reassessment of how american gis accomplished these dangerous and costly tasks

1989

the impressive young scholar bert mosselmans analyzing the theory and policy of jevons a major figure in the field of the history of economics has put together a volume with broad international appeal particularly in europe north america and japan that offers a synthetic approach to jevons economic theory applied economics and economic policy adopting a relativist approach to his subject mosselmans focuses on all aspects of jevons theory tying the different strands together where appropriate and discriminating where necessary examining the relation between theory and practise he situates jevons within the history of economic thought and in relation to his logic ethics religion and aesthetics ideal for scholars working in the fields of philosophy and history as well as economics this ambitious and insightful work offers a comprehensive analysis of one of the founding fathers of modern economic thought whose work marked a new chapter in its history bridging the gap between classical and neo classical economics

Humanities

1986

this book sets out to explore contemporary life in australia looking also at the future of the continent and covering topics ranging from its history culture religion values and ecological perspectives to its economy and politics

William Stanley Jevons and the Cutting Edge of Economics

2013-03-07

during the twentieth century medicine has been radically transformed and powerfully transformative in 1900 western medicine was important to philanthropy and public health but it was marginal to the state the industrial economy and the welfare of most individuals it is now central to these aspects of life our prospects seem increasingly dependent on the progress of bio medical sciences and genetic technologies which promise to reshape future generations the editors of medicine in the twentieth century have commissioned over forty authoritative essays written by historical specialists but intended for general audiences some concentrate on the political economy of medicine and health as it changed from period to period and varied between countries others focus on understandings of the body and a third set of essays explores transformations in some of the theatres of medicine and the changing experiences of different categories of practitioners and patients

Australia Towards 2000

1990-06-18

fifteen years ago the aids epidemic did not exist on the public agenda in just over a decade the public and official response to the disease has resulted in the development of a whole network of organizations devoted to the study containment and practical treatment of aids in this important and original analysis of aids policy virginia berridge examines the speed and nature of the official and unofficial response to this new and critical historical event the policy reaction in britain passed through three stages from 1981 1986 the outbreak of a new contagious disease led to public alarm and social stigmatization with a lack of scientific certainty about the nature of the disorder aids was a new and open policy area there were no established departmental local or health authority mechanisms for dealing with the problem this was a period of policy development from below with relatively little official action and many voluntary initiatives behind the scenes this phase was succeeded in 1986 1987 by a brief stage of quasi wartime emergency in which national politicians and senior civil servants intervened and a high level political response emerged the response was a liberal one of safe sex and harm minimization rather than draconian notification or isolation of carriers the author demonstrates that despite the thatcher revolution in government in the 1980s crisis could still stimulate a consensual response the current period of normalization of the disease sees panic levels subsiding as the rate of growth slows and the fear of the unknown recedes official institutions have been established and formal procedures adopted and reviewed paid professionals have replaced the earlier volunteers the 1990s have seen change in the liberal consensus towards a harsher response and the partial repoliticization of aids in this fascinating and scholarly account virginia berridge analyses a remarkable period in contemporary british history and exposes the reaction of the british political and medical elites and of the british public to one of the most challenging issues of this century

Everything Is Changing

1988-06-27

this volume brings together for the first time a significant body of professor barnes scholarly writing on early korean state formation integrated so that successive topics form a coherent overview of the problems and solutions in peninsular state formation

Chronic Diseases

1995

this book studies the so far unexplored operation of the international monetary system that prevailed before the emergence of the international gold standard in 1873 conventional wisdom has it that the emergence of gold as a global anchor was both an inescapable and desirable evolution given the exchange rate stability it provided and britain s economic predominance this study draws on a wealth of archival sources and abundant new statistical evidence fully detailed in the appendix to demonstrate that global exchange rate stability always prevailed before the making of the gold standard this was despite the heterogeneity among national monetary regimes based on gold silver or both the reason for the stability before the establishment of the gold standard is france s bimetallic system france by being in a position to trade gold for silver and vice versa effectively pegged the exchange rate between gold and silver at its legal ratio of 15 5 part i of the book studies exactly how this mechanism worked part ii focuses on the respective behaviour of private concerns and arbitrageurs on the one hand and authorities such as the bank of france on the other hand in order to underline the constraints and opportunities that were associated with bimetallism as an international regime finally part iii provides a new view on the collapse of bimetallism and its replacement by a gold standard it is argued that bimetallism might well have survived and that the emergence of the gold standard was by no means inescapable rather it resulted from a massive coordination failure at both national and international levels a failure that was a preview of the interwar collapse of the gold standard

The Writers Directory

2013

now available in paperback this vital handbook marks the development of sports studies as a major new discipline within the social sciences edited by the leading sociologist of sport eric dunning and jay coakley author of the best selling textbook on sport in the usa it both reflects and richly endorses this new found status key aspects of the handbook include an inventory of the principal achievements in the field a guide to the chief conflicts and difficulties in the theory and research process a rallying point for researchers who are established or new to the field which sets the agenda for future developments a resource book for teachers who wish to establish new curricula and develop courses and programmes in the area of sports studies with an international and inter disciplinary team of contributors the handbook of sports studies is comprehensive in scope relevant in content and far reaching in its discussion of future prospect

State Formation in Korea

2013-11-05

this is my database on strange phenomena that i started in the 1960s it is time that it is out for people to read and use i hope that you enjoy and are challenged and entertained by it i have tidied it up to make it readable the reports run from 1600 to 1999 it is the largest published database of its type in existence what the hell has been happening on our planet in this book we have reports of hairy humanoids many in the forest but some coming out of what are called ufos we have reports of humanoids and non humanoids coming out of these ufos as well and interacting with people in strange and unusual ways our world is so rich with these bizarre reports that it has taken me twenty two volumes to record them all from 1600 to 1999 everything from monsters to odd falls from the sky from spontaneous combustion to lake and seamonsters and everything unimaginable in between from giant birds with human looking bodies to some birds that are strictly prehistoric as well as other entities too weird to even classify and of course your favorites such as bigfoot and ufos you might notice that some of your favorites might be missing i know that your grandma saw something in the local lake or woods or sky but she never did mention when and sometimes even where so grandma s sighting will not be included this also applies to plenty of other sightings no dates no entry even a year is enough and the name of the locality neither of these is a no show but there are many thousands more so find out about what might have or still might be lurking in your neighborhood this is not your normal road map but happy travelling you will be amazed as to what you will find in your state or even your neighborhood

The Glitter of Gold

2004-03-04

the soviet historical profession is in ferment for decades it was relegated to the task of obfuscating the past gilding the status quo and papering over the blank spots in soviet history events that defied even the most brazen attempts at falsification today it is engaged in an often painful process of self examination initially rather timid the internal discussion was soon propelled by external events the scuttling of history textbooks official disclosures of formerly classified facts and the explosion of candour in the depictions of the past in memoirs journalistic writing and fiction this volume gives voice to the lead actors in the first phase of this process the senior historians their journalistic challengers and those charged with responsibility for the institutions of research training and publication in the field of history

International Energy Outlook

1986

first published in 1999 in this study the author uses the annual latino festival as a framework for focusing the action and integrating many important informal and formal aspects of the washington d c latino community she demonstrates how the festival became a stage where relationships were defined networks established and identity enacted and provided my window into the history and development of the community for this study she was interested in an interpretative framework appropriate to festival which would reflect the multiple voices and points of view found within the community seeking the voices of leaders and community members in interviews and in spanish and english language newspapers

1986

new york magazine was born in 1968 after a run as an insert of the new york herald tribune and quickly made a place for itself as the trusted resource for readers across the country with award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating new york as both a place and an idea

Origins of Federal Support for Higher Education

2010-11-01

the existence of rapid and even catastrophic turnovers within the phanerozoic ecosystems has been discussed controversially for more than 170 years since 1980 this discussion has become even more intensive after the hypothesis of alvarez explaining the end cretaceous mass extinction as the result of a huge asteroid impact on the earth this theory stimulated several thousand papers and is still controversial the international research programme on global biological events in earth history attempts to bring the discussion back to the facts by using multidisciplinary investigations of the major phanerozoic events the results of an international group of experts are presented giving a wealth of information and a thorough discussion of the causes of the various global events
