Bruce Charles Bill Mollison (4 May 1928 – 24 September 2016) was an Australian researcher, author, scientist, teacher, and biologist. In 1981, he was awarded the Right Livelihood Award for developing and promoting the theory and practice of permaculture.

Mollison is widely known as the "father of permaculture," a design system that integrates agriculture, ecology, and human settlements. His work has inspired millions of people around the world to practice and apply permaculture principles.

In this article, you will learn about Bill Mollison's life, his contributions to permaculture, and his legacy. We will explore how he set the field of permaculture in motion, from co-originating the concept with David Holmgren to co-founding the Permaculture Institute Inc. with Scott Pittman.

With deep sorrow, we wish to inform family and friends that Bruce Charles Bill Mollison, the father of permaculture, has passed away. He departed peacefully from this world in Hobart, Tasmania, just before 11 PM AEST on the 24th of September 2016.

A short film narrated by Bill Mollison and David Holmgren reveals how permaculture began from one simple question about agriculture and developed into a sustainable design system that embraces the principles of ecology, agriculture, and human settlements.

Bill Mollison, co-founder with David Holmgren of the Permaculture Design System, first described it in the 1978 book "Permaculture One." Two more books followed within a year, both published by Tagari Publishers.

Bill Mollison (1928–2016) was an expert on permaculture, a topic he extensively wrote about and taught, bringing the issue to the attention of both institutions and the general public. Mollison founded the Permaculture Institute in Tasmania, whose educational activities have inspired permanent institutes worldwide.

Spreading his knowledge, Mollison founded the first and original Permaculture Institute, which was established in 1979 to teach the practical design of sustainable soil, water, plant, and legal and economic systems to students worldwide.

Bill's legacy is a testament to his vision and dedication. In 1981, he helped develop a holistic body of environmental design principles. "Permaculture: A Designer's Manual" is the definitive permaculture design manual by Bill Mollison. Since 1988, this manual has been the textbook and curriculum for the 72-hour certificate course in permaculture design.

Learn about the foundational principles established by permaculture co-founder Bill Mollison and their significance in designing sustainable and regenerative systems for agriculture and ecology. The Permaculture Institute was founded by Bill Mollison and Scott Pittman in 1997 to promote the permaculture concept through education. Over 25 years later, we are advancing permaculture, offering programs in ecosystem self-design.

In the realm of sustainability, few names shine as brightly as Bill Mollison's.

as bill mollison the co founder of permaculture his seminal work permaculture a designer s manual stands as a foundational text in the sustainability movement [2024-1-20] permaculture a holistic design system pioneered by bill mollison encapsulates a set of guiding principles that redefine our relationship with the environment these principles are not just concepts but serve as powerful thinking tools fostering sustainable and innovative solutions [permaculture the word coined by bill mollison is a portmanteau of permanent agriculture and permanent culture is the conscious design and maintenance of agriculturally productive ecosystems which have the diversity stability and resilience of natural ecosystems [2024-3-7] permaculture is a word originally coined by bill mollison and david holmgren in the mid 1970 s to describe an integrated evolving system of perennial or self perpetuating plant and animal species useful to man [when bill mollison was given a draft set of these cards he stated these are the clearest and most comprehensive layout of the permaculture principles he had ever seen one of bill s daughters frances mollison is an artist and painted the illustrations for some of the cards and is currently working on illustrations for the rest [mollisons 116 mollison street 3444 kyneton [mollisons [mollisons bacchus marsh sunbury diggers rest chillout festival daylesford lake eppalock [bills [bills [ricoh business innovation lounge tokyo [business innovation lounge tokyo [bills [bills
