Handbook of Social Indicators and Quality of Life Research

2011-11-25

the aim of the handbook of social indicators and quality of life research is to create an overview of the field of quality of life qol studies in the early years of the 21st century that can be updated and improved upon as the field evolves and the century unfolds social indicators are statistical time series used to monitor the social system helping to identify changes and to guide intervention to alter the course of social change examples include unemployment rates crime rates estimates of life expectancy health status indices school enrollment rates average achievement scores election voting rates and measures of subjective well being such as satisfaction with life as a whole and with specific domains or aspects of life this book provides a review of the historical development of the field including the history of qol in medicine and mental health as well as the research related to quality of work life qwl programs it discusses several of qol main concepts happiness positive psychology and subjective wellbeing relations between spirituality and religiousness and qol are examined as are the effects of educational attainment on qol and marketing and the associations with economic growth the book goes on to investigate methodological approaches and issues that should be considered in measuring and analysing quality of life from a quantitative perspective the final chapters are dedicated to research on elements of qol in a broad range of countries and populations

The Presentation of Self in Contemporary Social Life

2016-05-17

the presentation of self in contemporary social life covers the popular theories of erving goffman and shows modern applications of dramaturgical analysis in a wide range of social contexts david shulman s innovative new text demonstrates how goffman s ideas first introduced in 1959 continue to inspire research into how we manage the impressions that others form about us he synthesizes the work of contemporary scholars who use dramaturgical approaches from several disciplines who recognize that many values social norms and laws have changed since goffman s time and that contemporary society offers significant new forms of impression management that we can engage in and experience after a general introduction to dramaturgical sociology readers will see many examples of how goffman s ideas can provide powerful insights into familiar aspects of contemporary life today including business and the workplace popular culture the entertainment industry and the digital world

The Sanctity of Social Life

2017-06-15

the book explores how humans are distinct social beings whose relations nevertheless extend into nonhuman spheres in various ways

Human Nature and Social Life

2015-10-30

social policy in modern industrialised societies is increasingly challenged by new social risks these include insecure employment resulting from ever more volatile labour markets new family and gender relationships resulting from the growing participation of women in the labour market and the many problems resulting from very much longer human life expectancy whereas once social policy had to be in step with a standardised relatively stable and predictable life course it now has to cope with non standardised individual preferences life courses and families and the consequent increased risks and uncertainties this book examines these new life courses and their impact on social policy across a range of east asian societies it shows how governments and social welfare institutions have been slow to respond to the new challenges in response we propose a life course sensitised policy as an approach to manage these risks overall the book provides many new insights which will assist advance social policy in east asia

New Life Courses, Social Risks and Social Policy in East Asia

1864

the life of an activist is a non fiction narrative that describes key steps on how to become and evolve into an effective activist and community leader the book describes social movements and provides useful advice on how to successfully manage non profits to accomplish positive social change that truly improves people s lives the author is a lifelong activist who was born in the united states but was deported to el salvador as a baby he spent his childhood in el salvador but moved back to the united states and grew up in south central los angeles during the tumultuous and violent decades of the late 1970s and 1980s he has also lived and worked in rochester minnesota madrid spain washington d c and alexandria virginia

crime how do they plan to sustain this decision and in what ways does probation help this book explores these questions based on in depth interviews with a group of men under probation supervision sam king investigates the factors associated with making a decision to desist from crime the book examines strategies for desistance and explores the factors that individuals consider when they are thinking about how they will desist in doing so the book sheds new light on existing understandings of desistance from crime and helps to develop our understandings of the role that individuals play in constructing their own desistance journeys this book also highlights the role of probation in this process offering a timely and critical review of the nature of probation under the new labour government in the uk between 1997 2010 the findings indicate that we should allow probation officers greater autonomy and discretion within their roles and that we should free them from the bureaucracy of risk assessment and targets moreover the book warns against the potential fragmentation of community supervision as such the book will be of interest to criminology students researchers academics policymakers and practitioners particularly those who work with ex offenders in the community

Christendom from the Standpoint of Italy

2008-07

the life of margaret alice murray a woman s work in archaeology is the first book length biography of margaret alice murray 1863 1963 one of the first women to practice archeology despite murray s numerous professional successes her career has received little attention because she has been overshadowed by her mentor sir flinders petrie this oversight has obscured the significance of her career including her fieldwork the students she trained her administration of the pioneering egyptology department at university college london ucl and her published works rather than focusing on murray s involvement in petrie s archaeological program kathleen l sheppard treats murray as a practicing scientist with theories ideas and accomplishments of her own this book analyzes the life and career of margaret alice murray as a teacher excavator scholar and popularizer of egyptology archaeology anthropology linguistics and more sheppard also analyzes areas outside of murray s archaeology career including her involvement in the suffrage movement her work in folklore and witchcraft studies and her life after her official retirement from ucl

philosophy as a way of life this unique collection of essays on the late pierre hadot s revolutionary methodological approach to studying and practicing philosophy explores hadot s primary conviction that philosophy itself goes beyond solving puzzles and analyzing abstract arguments hadot believed that philosophy is a key part of humanity s search for happiness that it can transform our perception of the world and thus can alter our very mode of being his argument that the goal of philosophy is to shift our focus away from our habitual obsession with individuality and to embrace universality and objectivity has resonated with thinkers across the academy and outside it offering genuinely interdisciplinary analysis of hadot s work and philosophical practice this volume includes papers written from a gamut of philosophical historical and geographical perspectives articles address issues in the history of philosophy from pythagoras to descartes by way of islamic thought thus corresponding to hadot s view of the importance of philologically based analysis of ancient texts and historical contexts others study the presence of ideas related to or influenced by hadot in contemporary thought from wittgenstein to leonard nelson analytic philosophy and french postmodernism the result is a wide ranging publication pointing to an additional third way alongside the traditional approaches of continental and analytic philosophy one that expands our horizons with secular spiritual exercises designed to enable us to be in a fuller more authentic way

The Life of Sir Harry Parkes: Consul in China. by S. Lane-Poole

2018-09-10

to be alone is to be different to be different is to be alone and to be in the interior of this fatal circle is to be lonely to be lonely is to have failed susan schultz 1976 loneliness carries a significant social stigma as lack of friendship and social ties is socially undesirable and social perceptions of lonely people are generally unfavourable lonely people often have very negative self perceptions believing that the inability to establish social ties is due to personal inadequacies or socially undesirable attributes this book is divided into three parts the first part reviews loneliness in general describing what it is and how it affects us the second part examines loneliness throughout the life cycle analysing how it affects us in childhood adulthood and as we age the final part explores the connection between loneliness and other conditions such as arthritis eating disorders and depression loneliness updated offers the latest research on how loneliness can affect us in our daily lives and how it is expressed as we travel through life from childhood to old age it will be a highly interesting read for scholars students and researchers of clinical psychology particularly those interested in further exploring the effects and consequences of loneliness this book was originally published as a special issue of the journal of psychology

Why Social Media is Ruining Your Life

1888

aging the life course social cultural contexts provides an accessible up to date introduction to the study of aging and the life course from a distinctly sociological perspective it explores the sociocultural dimensions of aging while encouraging critical thinking about the diversity of aging experiences societal attitudes toward older adults the politics and economics of growing old and end of life resources throughout the text deborah lowry emphasizes the relevance of the material for working with older populations understanding social policy and policy debates improving communities relating to others and understanding ourselves organized into four major sections part i introduces students to fundamental demographic sociological and life course concepts part ii explores the experiences and conditions of aging especially in particular groups and part iii presents current research on older adults engagement in work family social networks and sex finally part iv addresses themes of aging and social change

The Life of Richard Lord Westbury

1873

intermediate statistics a conceptual course is a student friendly text for advanced undergraduate and graduate courses it begins with an introductory chapter that reviews descriptive and inferential statistics in plain language avoiding extensive emphasis on complex formulas the remainder of the text covers 13 different statistical topics ranging from descriptive statistics to advanced multiple regression analysis and path analysis each chapter contains a description of the logic of each set of statistical tests or procedures and then introduces students to a series of data sets using spss with screen captures and detailed step by step instructions students acquire an appreciation of the logic of descriptive and inferential statistics and an understanding of which techniques are best suited to which kinds of data or research questions

The Life of Charles Dickens

1877

explore the crucial issues facing the glbt population in their struggle for acceptance in contemporary america sexual

contemporary society is complex governed and administered by a range of contradictory policies practices and techniques nowhere are these contradictions more keenly felt than in cultural policy this book uses insights from a range of disciplines to aid the reader in understanding contemporary cultural policy drawing on a range of case studies including analysis of the reality of work in the creative industries urban regeneration and current government cultural policy in the uk the book discusses the idea of value in the cultural sector showing how value plays out in cultural organizations uniquely the book crosses disciplinary boundaries to present a thorough introduction to the subject as a result the book will be of interest to a range of scholars across arts management public and nonprofit management cultural studies sociology and political science it will also be essential reading for those working in the arts culture and public policy

The Life of Margaret Alice Murray

2013-08-05

over one billion people use the internet globally psychologists are beginning to understand what people do online and the impact being online has on behaviour it s making us re think many of our existing assumptions about what it means to be a social being for instance if we can talk flirt meet people and fall in love online this challenges many of psychology s theories that intimacy or understanding requires physical co presence the oxford handbook of internet psychology brings together many of the leading researchers in what can be termed internet psychology though a very new area of research it is growing at a phenomenal pace in addition to well studied areas of investigation such as social identity theory computer mediated communication and virtual communities the volume also includes chapters on topics as diverse as deception and misrepresentation attitude change and persuasion online internet addiction online relationships privacy and trust health and leisure use of the internet and the nature of interactivity with over 30 chapters written by experts in the field the range and depth of coverage is unequalled and serves to define this emerging area of research uniquely this content is supported by an entire section covering the use of the internet as a research tool including qualitative and quantitative methods online survey design personality testing ethics and technological and design issues while it is likely to be a popular research resource to be dipped into as a whole volume it is coherent and compelling enough to act as a single text book the oxford handbook of internet psychology is the definitive text on this burgeoning field it will be an essential resource for anyone interested in the psychological aspects of internet use or planning to conduct research using the net

Philosophy as a Way of Life

1983

this book has two purposes first to introduce the study of work and the workplace as a method for informing the design of computer systems to be used at work we primarily focus on the predominant way in which the organization of work has been approached within the field of human computer interaction hci which is from the perspective of ethnomethodology we locate studies of work in hci within its intellectual antecedents and describe paradigmatic examples and case studies second we hope to provide those who are intending to conduct the type of fieldwork that studies of work and the workplace draw off with suggestions as to how they can go about their own work of developing observations about the settings they encounter these suggestions take the form of a set of maxims that we have found useful while conducting the studies we have been involved in we draw from our own fieldwork notes in order to illustrate these maxims in addition we also offer some homilies about how to make observations again these are ones we have found useful in our own work table of contents motivation overview a paradigmatic case scientific foundations detailed description case study how to conduct ethnomethodological studies of work making observations current status
