The School of Mines Quarterly 1890 an illuminating story of a sufi community that sought the revelation of god in the afghan highlands of the sixteenth century the messianic community known as the roshaniyya not only desired to find god s word and to abide by it but also attempted to practice god s word and to develop techniques of language intended to render their own tongues as the organs of continuous revelation as their critics would contend however the roshaniyya attempted to make language do something that language should not do infuse the semiotic with the divine their story thus ends in a tower of skulls the proliferation of heresiographies that detailed the sins of the roshaniyya and new formations of afghan identity in singing with the mountains william e b sherman finds something extraordinary about the roshaniyya not least because the first known literary use of vernacular pashto occurs in an eclectic roshani imitation of the qur an the story of the roshaniyya exemplifies a religious culture of linguistic experimentation in the example of the roshaniyya we discover a set of questions and anxieties about the capacities of language that pervaded sufi orders imperial courts groups of wandering ascetics and scholastic networks throughout central and south asia in telling this tale sherman asks the following questions how can we make language shimmer with divine truth how can letters grant sovereign power and form new ethnic identities and ways of belonging how can rhyme bend our conceptions of time so that the prophetic past comes to inhabit the now of our collective moment by analyzing the ways in which the roshaniyya answered these types of questions and the ways in which their answers were eventually rejected as heresies this book offers new insight into the imaginations of religious actors in the late medieval and early modern persianate worlds

The Dutch Overseas Empire, 1600-1800 2020-10-15 most histories of european appropriation of indigenous territories have until recently focused on conquest and occupation while relatively little attention has been paid to the history of treaty making yet treaties were also a means of extending empire to grasp the extent of european legal engagement with indigenous peoples empire by treaty negotiating european expansion 1600 1900 looks at the history of treaty making in european empires dutch spanish portuguese french and british from the early 17th to the late 19th century that is during both stages of european imperialism while scholars have often dismissed treaties assuming that they would have been fraudulent or unequal this book argues that there was more to the practice of treaty making than mere commercial and political opportunism indeed treaty making was also promoted by europeans as a more legitimate means of appropriating indigenous sovereignties and acquiring land than were conquest or occupation and therefore as a way to reconcile expansion with moral and juridical legitimacy as for indigenous peoples they engaged in treaty making as a way to further their interests even if on the whole they gained far less than the europeans from those agreements and often less than they bargained for the vexed history of treaty making presents particular challenges for the great expectations placed in treaties for the resolution of conflicts over indigenous rights in post colonial societies these hopes are held by both indigenous peoples and representatives of the post colonial state and yet both must come to terms with the complex and troubled history of treaty making over 300 years of empire empire by treaty looks at treaty making in dutch colonial expansion the spanish portuguese border in the americas aboriginal land in canada french colonial west africa and british india

Register of Commissioned and Warrant Officers of the United States Naval Reserve 1953 this omnibus brings together some old and some recent works by jos gommans on the warhorse and its impact on medieval and early modern state formation in south asia these studies are based on gommans observation that indian empires always had to deal with a highly dynamic inner frontier between semi arid wilderness and settled agriculture such inner frontiers could only be bridged by the ongoing movements of turkish afghan rajput and other warbands like the most spectacular examples of the delhi sultanate and the mughal empires they all based their power on the exploitation of the most lethal weapon of that time the warhorse in discussing the breeding and trading of horses and their role in medieval and early modern south asian warfare gommans also makes some thought provoking comparisons with europe and the middle east since the indian frontier is part of the much larger eurasian arid zone that links the indian subcontinent to west central and east asia the final essay explores the connected and entangled history of the turko mongolian warband in the ottoman and timurid empires russia and china

Empire by Treaty 2014-10-30 south asian history has enjoyed a remarkable renaissance over the past thirty years its historians are not only producing new ways of thinking about the imperial impact and legacy on south asia but also helping to reshape the

study of imperial history in general the essays in this collection address a number of these important developments delineating not only the complicated interplay between imperial rulers and their subjects in india but also illuminating the economic political environmental social cultural ideological and intellectual contexts which informed and were in turn informed by these interactions particular attention is paid to a cluster of binary oppositions that have hitherto framed south asian history namely colonizer colonized imperialism nationalism and modernity tradition and how new analytical frameworks are emerging which enable us to think beyond the constraints imposed by these binaries closer attention to regional dynamics as well as to wider global forces has enriched our understanding of the history of south asia within a wider imperial matrix previous impressions of all powerful imperialism with the capacity to reshape all before it for good or ill are rejected in favour of a much more nuanced image of imperialism in india that acknowledges the impact as well as the intentions of colonialism but within a much more complicated historical landscape where other processes are at work
