Peripheral Territories, Tourism, and Regional Development

2021-06-16

limited land and resources along with the overexploitation of tourism and multiple other factors make peripheral and ultra peripheral territories relevant cases for studying governance and sustainable development this book presents case studies of european and mediterranean regions to study regional development and territorial sustainability strategic planning and territorial management and governance written by experts in the field the chapters contained herein provide the reader with a deep understanding from several perspectives of the dynamics challenges and opportunities of tourism in these specific territories

Anatomy of a South African Karst Hydrosystem

2022-08-05

this book combines the results of the research activities in the assessment of water resources environment and an integrated water resource monitoring program to support preservation efforts of the aquatic environment of the cradle of humankind world heritage sites a poor understanding of the surface and groundwater resources of the property has precipitated often alarmist reporting in the media regarding the negative impacts associated with various sources of poor quality water the most notable of these is the acid mine drainage threat to karst ecosystems and fossil sites across the property these circumstances have generated wide and considerable concern for the preservation of the unesco inscribed fossil sites and integrity of the water resources of the property

Politics and Governance of Basic Education

2018-09-21

this is an open access title available under the terms of a cc by nc nd 4 0 international licence it is free to read at oxford scholarship online and offered as a free pdf download from oup and selected open access locations all over the world economic inclusion has risen to the top of the development discourse a well performing education system is central to achieving inclusive development but the challenge of improving educational outcomes has proven to be unexpectedly difficult access to education has increased but quality remains low with weaknesses in governance comprising an important part of the explanation the politics and governance of basic education explores the balance between hierarchical and horizontal institutional arrangements for the public provision of basic education using the vivid example of south africa a country that had ambitious goals at the outset of its transition from apartheid to democracy it explores how the interaction of politics and institutions affects educational outcomes by examining lessons learned from how south africa failed to achieve many of its goals it constructs an innovative alternative strategy for making process combining practical steps to achieve incremental gains to re orient the system towards learning

The Report: South Africa 2014

2014-12-08

indeed since the end of apartheid in 1994 south africa has become a major diplomatic player both on the african continent as well as further afield despite the size of south africa s economy the country currently faces a number of major economic challenges as of the end of july 2014 the unemployment rate was at 25.5 according

to data from statistics south africa which was among the highest in the world while the government's long term development plans are generally highly regarded delivery and execution has occasionally been problematic while there are major hurdles that must be cleared given the country's strong institutions and the rapid pace of economic expansion over the past two decades south africa should be able to look forward to 20 more years of peace and steady sustained economic growth

Annual Performance Plan

2015

civil society ngos governments and multilateral institutions all repeatedly call for improved or good governance yet they seem to speak past one another governance is in danger of losing all meaning precisely because it means many things to different people in varied locations this is especially true in sub saharan africa here the postcolony takes many forms reflecting the imperial project with painful accuracy offering a set of multidisciplinary analyses of governance in different sectors crisis management water food security universities in different locales across sub saharan africa and from different theoretical approaches network to adversarial network governance this volume makes a useful addition to the growing debates on how to govern it steers away from offering a correct definition of governance or from promoting a particular position on postcoloniality it gives no neat conclusion but invites readers to draw their own conclusions based on these differing approaches to and analyses of governance in the postcolony as a robust critical assessment of power and accountability in the sub saharan context governance and the postcolony views from africa brings together topical case studies that will be a valuable resource for those working in the field of african international relations public policy public management and administration

Emerging Infectious Diseases

2018-07

new perspectives in forensic human skeletal identification provides a comprehensive and up to date perspective on human identification methods in forensic anthropology divided into four distinct sections the chapters will reflect recent advances in human skeletal identification including statistical and morphometric methods for assessing the biological profile sex age ancestry stature biochemical methods of identification dna analysis stable isotope analysis bomb curve analysis and use of comparative radiography the final section of this book highlights advances in human identification techniques that are being applied to international populations and disaster victims the contributing authors represent established experts in forensic anthropology and closely related fields new perspectives in forensic human skeletal identification will be an essential resource for researchers practitioners and advanced students interested in state of the art methods for human identification a comprehensive and up to date volume on human identification methods in forensic anthropology focuses on recent advances such as statistical and morphometric methods for assessing the biological profile biochemical methods of identification and use of comparative radiography includes an entire section on human identification techniques being applied to international populations and disaster victims

the bestselling autobiography of the greatest rugby player of our time brian o driscoll since 1999 when he made his international debut there has been no greater player in world rugby than brian o driscoll in 2010 rugby world magazine named him its world player of the decade and since then the legend has only grown now at the end of his amazing career which culminated in fairy tale fashion with ireland s victory in the 2014 six nations championship he tells his own story honest gritty and thoughtful brian o driscoll s autobiography is not just an essential sports book it is an essential book about family friends hard work courage and imagination honest charming and revealing a thoroughly good read rugby world a thoroughly enjoyable read after reading the test i warmed even more to o driscoll as a player and a man he stood for a new ethos in irish sport that refused to accept mediocrity or glorious failure fergal keane irish times o driscoll s honesty takes the reader to a place they simply have not been before vincent hogan irish independent a must read insight into the life and mind of ireland s greatest rugby player irish mail on sunday there are fascinating insights into the lengths he was willing to go to perform at the highest level sunday business post

WASTES: Solutions, Treatments and Opportunities IV

2023-09-06

this volume brings together many of south africa s leading scholars of education and covers the full range of south african schooling from financing and policy reform to in depth discussions of literacy numeracy teacher development and curriculum change the book moves beyond a historical analysis and provides an inside view of

the questions south african scholars are now grappling with are there different and preferential equilibria we have not yet thought of or explored and if so what are they in practical terms how does one get to a more equitable distribution of teachers resources and learning outcomes while decidedly local these questions resonate throughout the developing world south africa today is the most unequal country in the world the richest 10 of south africans lay claim to 65 of national income and 90 of national wealth this is the largest 90 10 gap in the world and one that is reflected in the schooling system two decades after apartheid it is still the case that the life chances of most south african children are determined not by their ability or the result of hard work and determination but instead by the colour of their skin the province of their birth and the wealth of their parents looking back on almost three decades of democracy in south africa it is this stubbornness of inequality and its patterns of persistence that demands explanation justification and analysis this is a landmark book on basic education in south africa an essential volume for those interested in learning outcomes and their inequality in south africa the various chapters present conceptually and empirically sophisticated analyses of learning outcomes across divisions of race class and place the book brings together the wealth of decades of research output from top quality researchers to explore what has improved what has not and why prof lant pritchett harvard university there is much wisdom in this collection from many of the best education analysts in south africa no surprise that they conclude that without a large and sustained expansion in well trained teachers early childhood education and adequate school resources south africa will continue to sacrifice its people s future to maintaining the privileges of the few prof martin carnoy stanford university altogether one can derive from this very valuable volume if not an exact blueprint for the future then certainly at least a crucial and evidence based itinerary for the next few steps dr luis crouch rti

The Test

2014-10-23

the education triple cocktail brings together rigorous quantitative and qualitative research on a new approach to improving foundational teaching and learning for schoolchildren living in working class poor and remote rural communities in resource constrained systems like south africa at the core of this book is the theory and evidence for a powerful new interlocking and mutually reinforcing change model inspired by the aids treatment story the three pronged approach of structured daily lesson plans appropriate and high quality educational materials and one on one instructional coaching to help teachers transform their instructional practices in early grade classrooms shows that it will improve learning outcomes for education systems defined by low levels of early grade learning and profoundly unequal outcomes the education triple cocktail offers a theoretically informed evidence based way forward this book will be of immense use to teachers students of education policymakers and parents

South African Schooling: The Enigma of Inequality

2019-11-05

this book presents key activities promising practices and lessons learned to date from the world bank s tuberculosis tb in the mining sector initiative an innovative multisectoral multicountry public private regional initiative it examines how a collaborative platform was established to cover 10 southern african countries and it details the processes through which multiple countries ministries sectors and partners have been brought together to address the varied dimensions of the epidemic the case studies in this book highlight the significant progress and achievements made since 2010 in the effort to develop a regional platform for addressing tb in the mining sector in southern africa the primary focus of the case studies is how these cooperative regional processes at both technical and political levels have been designed implemented managed and sustained through various partnerships to complement country level efforts the case studies provide an evidence base for

practitioners working in tb management in the mining sector despite the achievements that have been made and their potential to strengthen tb interventions critical gaps remain in addressing barriers to access delivery of quality services and increased uptake of tb services the case studies explore these key challenges and gaps and they offer strategies for replicating successes and addressing complex health service delivery interventions in other regions around the world further action is needed including better compliance with occupational health and safety standards by mining companies strengthened community health systems and improved coordination of tb care increased empowerment and participation of women in the mining sector and improved tracking and tracing of ex mineworkers across borders the aim of the book is to provide helpful models lessons learned and recommendations that can be used as a starting point for analyzing the risks opportunities incentives and contexts of regional health cooperation that involves multiple sectors and stakeholders

The Education Triple Cocktail

2018-08-15

this volume arises from the inaugural public law conference hosted in september 2014 by the centre for public law at the university of cambridge which brought together leading public lawyers from a number of common law jurisdictions while those from such jurisdictions share background understandings significant differences within the common law world create opportunities for valuable exchanges of ideas and debate this collection draws upon one of the principal sub themes that emerged during the conference namely the the way in which relationships and distinctions between the notions of process and substance play out in relation to and inform adjudication in public law cases the essays contained in this volume address those issues from a variety of perspectives while the bulk of the chapters consider topical issues in judicial review either on common law or human rights grounds or both other chapters adopt more theoretical historical empirical or contextual

approaches concluding chapters reflect generally on the papers in the collection and the value of facilitating cross jurisdictional dialogue

Tuberculosis Must Fall!

2018-11-15

from a renowned group of international scholars this new work examines how leading economic countries use sport business to drive and further economic development by raising brand awareness country as a brand transforming lagging communities and enhancing travel and tourism in the country

Public Law Adjudication in Common Law Systems

2016-04-07

this blind peer reviewed book systematically records analyses and assesses for the first time in a single volume the implications of the global development and management of professional evaluation for the african continent the book deals with the most strategic contemporary evaluation themes each of these themes contains discussions of theoretical issues illustrated with one or more short case studies while selected longer case studies and other relevant documentation are also taken up in annexures at the end of the book the book therefore comprises a guide to best m e practices for purposes of systematic policy programme and project evaluations it is suitable for both professional m e institutionalisation and capacity building projects as well as for evaluation information dissemination and education at different levels in the public private and voluntary sectors in society especially in a developmental context

Evaluation Management in South Africa and Africa

2014-12-01

this collection of essays assesses the efforts of african governments to constitutionalise decentralisation be it in the form of federalism local government or traditional authorities since the end of the cold war jurisdictions across africa have witnessed an ostensible return to multi party democracy within the paradigm of constitutionalism and the rule of law linked to the democratisation process many countries took steps to decentralize power by departing from the heavily centralized systems inherited from colonial regimes the centralization of power typically characterized by the personalization and concentration of power in the hands of leaders and privileged elites in capital cities mostly resulted in repressive regimes and fragile states as decentralisation is a response to these challenges this volume analyses the dynamic relationship between the efforts to implement decentralization and presence or absence of constitutionalism this volume examines a

variety of forms and degrees of decentralization found across africa it advances a new understanding of trends and patterns and facilitates the exchange of ideas among african governments and scholars about the critical role that decentralisation may play in democratization of and constitutionalism in africa

Managing Agile Open-Source Software Projects with Visual Studio Online

2015-04-16

this volume is the first published collection of papers on the impact of diglossia and dialectal variations on language and literacy acquisition impairment and education the authors are pioneering in this field and are leading researchers with substantial experience in conducting research in this area a wide range of areas and languages are covered including the us south africa israel and various european countries the chapters present novel data and insights regarding the role of dialectal variations on language and literacy from a wide range of countries and perspectives these insights have significant theoretical and practical implications a majority of literacy learners worldwide are taught to read and write in a language variety or a dialect that is not the same as their spoken language not only is this the global norm but it is probably also the greatest obstacle to literacy learning this volume is the first published collection of papers on the role of dialect in language and literacy acquisition impairment and education in a variety of languages and situations across europe the middle east north america africa and asia the authors are pioneers in this field

rugby is a sport that means different things to different people around the world so when award winning writer donald mcrae set off to take the pulse of the sport soon after the dawn of the professional era he began to build a portrait of the game that highlighted the contrasts between nations who may have been united in their love for rugby but who saw it in very different ways featuring in depth interviews with a range of great players from around the world including sean fitzpatrick francois pienaar and lawrence dallaglio among others winter colours is a compelling account of the culture of rugby as seen by its biggest stars men who also hold dear the sport s very traditions that make it so special this is a remarkable piece of writing and is sure to be of interest to

all who follow the sport at any level

Sustainable Construction in the Era of the Fourth Industrial Revolution

2023-07-19

in south africa two unmistakable features describe post apartheid politics the first is the formal framework of liberal democracy including regular elections multiple political parties and a range of progressive social rights the second is the politics of the extraordinary which includes a political discourse that relies on threats and the use of violence the crude re racialization of numerous conflicts and protests over various popular grievances in this highly original work thiven reddy shows how conventional approaches to understanding democratization have failed to capture the complexities of south africa s post apartheid transition rather as a product of imperial expansion the south african state capitalism and citizen identities have been uniquely shaped by a particular mode of domination namely settler colonialism south africa settler colonialism and the failures of liberal democracy is an important work that sheds light on the nature of modernity democracy and the complex politics of contemporary south africa

Winter Colours

2014-06-05

after more than 20 years of freedom in south africa we have to ask ourselves difficult questions are we willing to perpetuate a lie search for facts or think wishfully freedom has been enabled by apartheid s end but at the

same time some of apartheid's key institutions and social relations are reproduced under the guise of democracy this collection of essays acknowledges the enormous expectations placed on the shoulders of the south african revolution to produce an alternative political regime in response to apartheid and global neo liberalism it does not lament the inability of south africa's democracy to provide deeper freedoms or suggest that since it hasn't this is some form of betrayal freedom is made possible and/or limited by local political choices contemporary global conditions and the complexities of social change this book explores the multiplicity of spaces within which the dynamics of social change unfold and the complex ways in which power is produced and reproduced in this way it seeks to understand the often non-linear practices through which alternative possibilities emerge the lengthy and often indirect ways in which new communities are imagined and new solidarities are built in this sense this book is not a collection of hope or despair nor is it a book that seeks to situate itself between these two poles instead it aims to read the present historically critically and politically and to offer insights into the ongoing iterative and often messy struggles for freedom

South Africa, Settler Colonialism and the Failures of Liberal Democracy

2015-12-15

while ethnic identities are found to play a key role in politics not all members of a group toe their group's line and vote for its affiliated party why do some voters choose not to vote with their group when doing so can often be advantageous given the norms of ethnic favoritism observed across africa according to afrobarometer data between 30-52% of voters in sub-saharan africa do not vote for their ethnic groups party this book argues that as individuals are less readily identified as members of their ethnic group they are less likely to be treated as if they are members of that group which in turn weakens their identification with the group individuals who

weakly identify with their group are less likely to be influenced by their identity when voting this approach makes this book the first study to theorize and empirically test the effects of the everyday identity construction process on ethnic salience and in turn on vote choice to test the theory the book develops the concept of ethnic distance and measures it empirically empirical tests find support for the argument in south africa uganda and the united states these cases allow me to test the effect of ethnic distance on several different ethnic dimensions race language and region in a variety of contexts as a first step toward matching our scholarly concepts of ethnicity to its complexity in the real world this study is poised to alter the way we think about ethnicity in politics

Domains of Freedom

2016-09-12

this second fully revised and extended edition of zoonoses infections affecting humans and animals covers the most important pathogens impacting both human and animal public health and debates current developments in this interdisciplinary field from a one health perspective following a setting approach the individual chapters each review zoonoses occurring in a specific group of animals such as production animals pets or wildlife or in a defined ecosystem a focus is put on zoonoses emerging along the food chain and on antibiotic resistance as an increasing challenge in infectious disease management special interest chapters debate non resolved and currently hotly debated zoonoses foremost covid 19 influenza crohn paratuberculosis and chronic botulism also taking into account the economic and ecological aspects of zoonotic disease outbreaks this second edition includes brand new chapters on emerging pathogens such as sars cov 2 chlamydia and helminths it reviews historic zoonoses provides additional insights into pathogens of reptiles and highlights significant neglected tropical diseases this reference work is a must read for researchers health professionals and students in

microbiology and veterinary medicine the book's ambition to spread knowledge on zoonoses and on strategies on how to tackle them complies with the United Nations Sustainable Goals in particular goal 3 good health and well-being

Inequality in Zambia

2022-01-31

a fascinating study that shows how the intersection of technology and politics has shaped south african history since the 1960s this book details the development of an interconnected technological system of a coal mine and of the matimba and medupi power stations in the waterberg a rural region of south africa near the country s border with botswana south africa s state steel manufacturing corporation iscor which has since been privatized developed a coal mine in the region in the 1970s this set the stage for the national electricity provider eskom to build coal fueled power stations in the waterberg faeeza ballim follows the development of these technological systems from the late 1960s a period of heightened repression as the apartheid government attempted to realize its vision of racial segregation to the deeply fraught construction of the medupi power station in postapartheid south africa the medupi power station was planned toward the end of the first decade of the twenty first century as a measure to alleviate the country s electricity shortage but the continued delay of its completion and the escalation of its costs meant that it failed to realize those ambitions while public frustration and electricity outages grew by tracing this story this book highlights the importance of technology to our understanding of south african history this characterization challenges the idea that the technological state corporations were proxies for the apartheid government and highlights that their activities in the waterberg did not necessarily accord with the government s strategic purposes while a part of the broader national modernization project under apartheid they also set the stage for worker solidarity and trade union organization in the waterberg and elsewhere in the country this book also argues that the state corporations their technology

and their engineers enjoyed ambivalent relationships with the governments of their time relationships that can be characterized as both autonomous and immersive in the era of democracy while eskom has been caught up in government corruption a major scourge to the fortunes of south africa it has also retained a degree of organizational autonomy and offered a degree of resistance to those who sought to further corruption the examination of the workings of these technological systems and the state corporations responsible for them complicates conventional understandings of the transition from the authoritarian rule of apartheid to democratic south africa which coincided with the transition from state led development to neoliberalism this book is an indispensable case study on the workings of industrial and political power in africa and beyond
