regardless of industry most major companies are becoming technology companies the successful management of information has become so critical to a company s goals that in many ways now is the age of the cio yet it executives are besieged by a host of contradictions bad technology can bring a company to its knees but corporate boards rarely employ cios cios must keep costs down at the very same time that they drive innovation cios are focused on the future while they are tethered by technology

decisions made in the past these contradictions form what martha heller calls the cio paradox a set of conflicting forces that are deeply embedded in governance staffing executive expectations and even corporate culture heller who has spent more than 12 years working with the cio community offers guidance to cios on how to attack reverse or neutralize the paradoxical elements of the cio role through interviews with a wide array of successful cios the cio paradox helps readers level the playing field for it success and get one step closer to bringing maximum value to their companies

The Wolf in CIO's Clothing

2017

in cios at work noted author ed yourdon interviews many of the world s most influential chief information officers you will gain insights from the first cio of the usa take a peek into the future with the cio at google learn the unique role it plays in testing microsoft applications and much more yourdon focuses on how his interviewees tackle the day to day work of managing information in their organizations while revealing much more how they got there how they manage and allocate resources and how they interact with business units and assure that their companies take advantage of technologies and automation to make employees even more productive surveying a variety of unique corporations you ll get a great sense of what can be done and what is being done now in organizations around the world simply put ed yourdon s cios at work is a fascinating read the author has managed to illuminate the real challenges confronting the chief information officer the technical expertise of his extraordinary interviewees and their personal insights into the changing role of technology in business are in no short supply but what really stands out beyond the banter about clouds agile development is the human dimension more than anything else the cio is wrestling with profound issues the proliferation of choices the speed of change the shorter attention spans of consumers the everyone s an expert mindset and the growing expectation for limitless and low cost computing resources that are as open and accessible as they are safe secure and accurate at last the cio has a human face but also an enormous burden that can only be appreciated by reading yourdon s probative interviews jon toigo managing principle toigo partners international featured cios ben fried google tony scott microsoft monte ford american airlines mittu sridhara ladbrokes steve rubinow nyse lew temares retired university of miami mark mooney mcgraw hill dan wakeman educational testing services lynne ellen detroit energy becky blalock southern company ken bohlen arizona public services roger gurnani verizon ashish gupta british telecom joan miller u k parliament vivek kundra first cio u s government paul strassmann retired kraft foods other books in the apress at work series ctos at work donaldson seigel donaldson 978 1 4302 3593 4 coders at work seibel 978 1 4302 1948 4 venture capitalists at work shah shah 978 1 4302 3837 9 founders at work livingston 978 1 4302 1078 8 european founders at work santos 978 1 4302 3906 2 women leaders at work ghaffari 978 1 4302 3729 7 advertisers at work tuten 978 1 4302 3828 7 gamers at work ramsay 978 1 4302 3351 0
