Robert Fludd 2001-09-24 the author examines the careers of the most distinguished disciples of the theosophical masters he begins by examining the concept of initiation promoted by the theosophical movement s founders each section investigates a separate category of initiates focusing consecutively on hindus muslims bahais buddhists and the western female occultists more than just a study of theosophy this book explores many related developments in political and religious history among the figures it illumines in new ways are anagarika dharmapala alexandra david neel george ivanovitch gurdjieff and isabelle eberhardt its approach brings needed objectivity and balance to a topic too long mythologized by cultists and ignored by scholars

Initiates of Theosophical Masters 1995-07-20 george robert stowe mead 1863 1933 was a major translator editor and commentator on gnostic and hermetic literature and thus a pivotal figure linking the late 19th century esoteric revival to 20th century art literature and psychology as a young convert to the new movement of theosophy he served as private secretary to its co founder helena petrovna blavatsky and after founding the european section of the theosophical society edited its london journal lucifer for many years mead s initial interest in theosophy and hinduism soon blossomed into a lifelong and wide ranging engagement with the texts of gnosticism neo platonism and hermeticism his editions and commentaries on previously inaccessible sources became standard works before the first world war and an important source of inspiration to such figures as jung ezra pound yeats and robert duncan a new entry in the western masters series of concise biographies noting key figures in the western esoteric tradition g r s mead and the gnostic quest introduces mead s life works and influences combining a substantial biography with a collection of his most important writings

G. R. S. Mead and the Gnostic Quest 2005-08-10 this introduction to the western esoteric traditions offers a concise overview of their historical development the author explores these traditions from their roots in hermeticism neo platonism and gnosticism in the early christian era up to their reverberations in modern day s scientific paradigms

The Western Esoteric Traditions 2008-10-14 a pivotal figure of modern isotericism rudolf steiner 1861 1925 was a clairvoyant and supersensitive with a scientific and philosophical education he believed that man can gain objective knowledge of higher worlds and apply these insights to all fields of human

activity anthroposophy the path of wisdom and knowledge he initiated plots man's struggle to attain full spiritual development through the practical application of the forces brought by Christ. Steiner saw the spirit as the creative element in evolution and his work is increasingly accepted as a practical vitalizing force for today's world.

Rudolf Steiner 2004-10-16 christian mystic astrologer and spiritualist charles carleton massey 1838 1905 underwent an eclectic spiritual journey that resulted in a series of articles letters and booklets that have largely been neglected by modern society. Massey was a child of privilege formally trained as a barrister of law at the Westminster School and the son of the English Minister of Finance for India. He devoted his life to solving the metaphysical mysteries of existence leading him into the world of religious philosophy that placed him in the middle of a crossroads between Victorian science religion and philosophy. Beginning his journey as a spiritualist Massey continued on a course that brought him into the Theosophical Society eventually becoming the founding president of its British branch. Going through the ranks of the Society of Psychical Research and ultimately into his final role as a Christian Mystic this indispensable work combines Massey's collected writings with never before published letters organized topically in order to define Massey's unique world view for a new generation of readers. This book covers a range of topics from the nature of God to the microcosm and macrocosm to Satanism and reincarnation all the while allowing the reader a rare glimpse into Victorian England and the social and religious issues of this time period. The recollections recorded in this book though written over a hundred years ago are dealt with in such a simple yet profound way that remain relevant to modern spiritual seekers of all types.

A Search for Meaning in Victorian Religion 2014-11-05 Marsilio Ficino was one of the most influential humanist philosophers of the early Italian Renaissance. Though an ordained priest he was also a practicing astrologer and magician whose daunting life's work was to reconcile religious faith with philosophical reason which included integrating pagan magical practice with Christianity in a lengthy introduction. Editor Angela Voss puts Ficino's achievement in context as a complete re-visioning of traditional astrological practice and the beginning of a humanistic and psychological approach that prefigured contemporary holistic approaches to astrology as therapy.

Mystic Apprentice Master Volume 2006-12-19 a history of Nazi Germany's SS and its leader examining the group's mystical cult aspects and Himmler's rise through the ranks of power. Hitler's Nazi Party at its evil roots embraced a bizarre interpretation of ancient European paganism blending it with fragments of other traditions from sources as diverse as Tenth Century Saxon warlords nineteenth century spiritualism and early twentieth century fringe archeology. Even the swastika the hated symbol of Nazism had its roots in ancient symbolism its first recorded appearance carved into a mammoth tusk twelve thousand years before Hitler came to power. At the heart of the evil was Hitler's witch doctor Heinrich Himmler and his stranger than fiction cult the deadly SS the mundanely named Schutzstaffel literally protective squadron was the very essence of Nazism and their threatening double lightning bolt was one of the most dreaded symbols of the Third Reich. With good reason what the SS was truly protecting was the ideology of Aryan superiority. Hitler's Master of the Dark Arts is the first history of the SS and its leader to focus on the mystical cult aspects of the organization. It follows Himmler's transformation of the SS from a few hundred members in 1929 to over fifty thousand black uniformed Aryans by the mid 1930s concurrent with its expansion and its eventual independence from the Brown Shirts of the SA. Himmler infused the Black Knights with a mishmash of occult beliefs and lunatic fringe theories that would have been completely laughable except that they were also used to justify the final solution.

Handbook of the Theosophical Current 1995-07-20 probing the relationship between modernist literary experimentation and several key strands of occult practice which emerged in europe from roughly 1894 to 1944 this book sets the work of leading modernist writers alongside lesser known female writers and writers in languages other than english to more fully portray the aesthetic and philosophical connections between modernism and the occult although the early decades of the twentieth century the era of cocktails motorcars bobbed hair and war are often described as a period of newness and innovation many writers of the time found inspiration and visionary brilliance by turning to the mysterious occult past this book's principle intervention is to reimagine the contours and boundaries of literary modernism by welcoming into the conversation a number of significant female writers and writers in languages other than english who are often still relegated to the fringes of modernist studies well remembered poets and novelists such as ezra pound w b yeats and aleister crowley were tied to occult beliefs and this book sets these leading figures alongside less well remembered but equally splendid modernists including paul brunton mary butts alexandra david neel florence farr dion fortune hermann hesse and rudolf steiner from the little magazines where occultism and fabianism were comfortable companions to consulting rooms of psychoanalysts where archetypes were revealed to be both mystical and mundane to the forbidden mountain trails that led to formidable spiritual teachers the conditions of modernism were invariably those conditions which inspired a return to the occult traditions that many thinkers believed had long evaporated indeed in many ways these traditions were the making of the modern world by uncovering hidden hopes and anxieties that faced a newly modern western europe this book demonstrates how literary modernists understood occultism as a universal form of cultural expression which has inspired creative exuberance since the dawn of civilisation

Innovation in Esotericism from the Renaissance to the Present 2010 it all began with a letter found hidden in some old manuscripts requesting a dispensation for as much karma as possible to be given in as short a time as possible as a direct result of replicating this ancient letter the author s life was drastically changed and finally culminated in her being taken on a walkabout with a group of masters residing in the rocky mountains however after spending just over nine months with these advanced brothers the greatest challenge was to be faced upon her return this is an account woven like an adult fable based on truth of how the opportunity to step into an unbelievable life was made available and is available to any sincere seeker of truth this journey shows that with courage rather than faith with the desire to seek ultimate truth rather than know it one may seize all opportunities making them the willing servants to enlightenment

The Secular Religion of Franklin Merrell-Wolff 2017-11-24 the main subjects of analysis in the present book are the stages of initiation in the grand scheme of theosophical evolution these initiatory steps are connected to an idea of evolutionary self development by means of a set of virtues that are relative to the individual s position on the path of evolution the central thesis is that these stages were translated from the hindu tradition to the theosophical tradition through multifaceted hybridization processes in which several indian members of the theosophical society partook starting with annie besant s early theosophy the stages of initiation are traced through blavatsky s work to manilal dvivedi and t subba row both indian members of the theosophical society and then on to the sanâtana dharma text books in 1898 the english theosophist annie besant and the indian theosophist bhagavan das together founded the central hindu college

benares which became the nucleus around which the benares hindu university was instituted in 1915 in this context the sanâtana dharma text books were published mühlmatter shows that the stages of initiation were the blueprint for annie besant s pedagogy which she implemented in the central hindu college in benares in doing so he succeeds in making intelligible how esoteric knowledge was transferred to public institutions and how a broader public could be reached as a result the dissertation has been awarded the esswe phd thesis prize 2022 by the european society for the study of western esotericism

The Master, The Lover, and Me 2011-01-11 meditative reflection strengthening thinking and feeling through the will is one of the main methods of experiencing anthroposophy prokofieff writes the best path to this goal is inner work with the foundation stone meditation because this meditation is the quintessence of the whole of anthroposophy given in meditatively inspired form by means of earthly words rudolf steiner described the substance of the foundation stone meditation as spoken by him out of the will of the spiritual world and as verses heard from the cosmic word owing to its spiritual and mantric form the text of this meditation represents an archetype and is thus a key to the most diverse areas of world and human existence depending on which spiritual portal is opened with this key explains prokofieff one arrives at one result or another and one and the same line of the meditation becomes a reply to the most varied questions the author applies this method in this work and in the process illuminates and opens up many dimensions of spiritual science his research embraces among other aspects the relationship of the foundation stone meditation to the being anthroposophia the spiritual hierarchies human karma the rosicrucian michaelic and grail streams the mystery of golgotha the two jesus children the three spiritual sources of anthroposophy and even the constitution of the general anthroposophical society

Seeing with Different Eyes 2020-11-16 this volume introduces what has sometimes been called the third component of western culture it traces the historical development of those religious traditions which have rejected a world view based on the primacy of pure rationality or doctrinal faith emphasizing instead the importance of inner enlightenment or gnosis a revelatory experience which was typically believed to entail an encounter with one s true self as well as with the ground of being god the contributors to this book demonstrate this perspective as fundamental to a variety of interconnected traditions in antiquity one finds the gnostics and hermetics in the middle ages several christian sects the medieval cathars can to a certain extent be considered part of the same tradition starting with the italian humanist renaissance hermetic philosophy became of central importance to a new religious synthesis that can be referred to as western esotericism the development of this tradition is described from renaissance hermeticists and practitioners of spiritual alchemy to the emergence of

rosicrucianism and christian theosophy in the seventeenth century and from post enlightenment aspects of romanticism and occultism to the present day new age movement
