university physics is designed for the two or three semester calculus based physics course the text has been developed to meet the scope and sequence of most university physics courses and provides a foundation for a career in mathematics science or engineering the book provides an important opportunity for students to learn the core concepts of physics and understand how those concepts apply to their lives and to the world around them due to the comprehensive nature of the material we are offering the book in three volumes for flexibility and efficiency coverage and scope our university physics textbook adheres to the scope and sequence of most two and three semester physics courses nationwide we have worked to make physics interesting and accessible to students while maintaining the mathematical rigor inherent in the subject with this objective in mind the content of this textbook has been developed and arranged to provide a logical progression from fundamental to more advanced concepts building upon what students have already learned and emphasizing connections between topics and between theory and applications the goal of each section is to enable students not just to recognize concepts but to work with them in ways that will be useful in later courses and future careers the organization and pedagogical features were developed and vetted with feedback from science educators dedicated to the project volume iii unit 1 optics chapter 1 the nature of light chapter 2 geometric optics and image formation chapter 3 interference chapter 4 diffraction unit 2 modern physics chapter 5 relativity chapter 6 photons and matter waves chapter 7 quantum mechanics chapter 8 atomic structure chapter 9 condensed matter physics chapter 10 nuclear physics chapter 11 particle physics and cosmology

we are here with you tonight with those few words in august 1973 sarah chambers her husband richard and their good friends  
alice and dick started a journey that would take them far beyond anything they could possibly imagine they would explore the  
unseen realm of the spiritual world with their teacher michael along with good friend eugene trout they would become the  
creators of a new spiritual teaching based in love that is used to help people become more of who they really are the group kept  
transcripts of their meetings and those transcripts were quietly copied and passed around to their friends then copied and passed  
on to their friends volume 1 contains the transcripts themselves volume 2 contains the charts cartoons drawings and  
compilations by various members of the group as well as background on the members of the group volume 3 contains additional  
transcripts from 1978 1985 and updates to volume 1
