????????????????? ?????? ?????? ??? nuclear engineering is
the engineering discipline concerned with
designing and applying systems that utilize the
energy released by nuclear processes 1 2 the most
prominent application of nuclear engineering is
the generation of electricity worldwide some 440
nuclear reactors in 32 countries generate 10
percent of the world s energy ??? the aim of the
department of nuclear engineering is to explore
quantum technologies leading to the frontiers of
science such as quantum beams nanotechnology and
atomic technology this is done from a microscopic
point of view based on the science of quantum
phenomena relating to elementary particles atomic
nuclei and atoms and ??? the department of nuclear
engineering and management offers advanced study
and research opportunities to international
students master s and doctoral courses will lead
to the corresponding degrees respectively in two
years and three years lectures and instructions
for research are given generally in english ??? ??
