foodservice industry operators today must concern themselves with the evolution of food preparation and service and attempt to anticipate demands and related industry changes such as the supply chain and resource acquisition to not only meet patrons demands but also to keep their competitive advantage from a marketing standpoint the trend toward a more demanding and sophisticated patron will continue to grow through various factors including the promotion of diverse food preparation through celebrity chefs mass media and the effect of globalization from an operational standpoint managing and controlling the business continues to serve as a critical success factor maintaining an appropriate balance between food costs and labor costs managing employee turnover and focusing on food service quality and consistency are fundamental elements of restaurant management and are necessary but not necessarily sufficient elements of success this increasing demand in all areas will challenge foodservice operators to adapt to new technologies to new business communication and delivery

systems and to new management systems to stay ahead of the changes strategic international restaurant development from concept to production explains the world of the food and beverage service industry as well as industry definitions history and the status quo with a look towards current challenges and future solutions that can be undertaken when developing strategic plans for restaurants it highlights trends and explains the logistics of management and its operation it introduces the basic principles for strategies and competitive advantage in the international context it discusses the food and beverage management philosophy and introduces the concept of food and beverage service entrepreneurship restaurant viability and critical success factors involved in a foodservice business venture finally it touches on the much discussed topic of the food and beverage service industry and sustainable development this book is ideal for restaurateurs managers entrepreneurs executives practitioners stakeholders researchers academicians and students interested in the methods tools and techniques to successfully manage develop and run a restaurant in the modern international restaurant industry

Strategic International Restaurant Development: From Concept to Production

2021-04-09

book cd rom restaurants are one of the most frequently started small businesses yet have one of the highest failure rates a business plan precisely defines your business identifies your goals and serves as your firm s resume the basic components include a current and proforma balance sheet an income statement and a cash flow analysis it helps you allocate resources properly handle unforeseen complications and make good business decisions because it provides specific and organised information about your company and how you will repay borrowed money a good business plan is a crucial part of any loan application additionally it informs personnel suppliers and others about your operations and goals despite the critical importance of a business plan many entrepreneurs drag their feet when it comes to preparing a written document they argue that their marketplace changes too fast for a business plan to be useful or that they just don t have

enough time but just as a builder won't begin construction without a blueprint eager business owners shouldn't rush into new ventures without a business plan the cd rom will cover the following subjects elements of a business plan cover sheet statement of purpose the business description of the restaurant marketing competition operating procedures personnel business insurance financial data loan applications capital equipment and supply list balance sheet breakeven analysis pro forma income projections profit loss statements three year summary detail by month first year detail by quarters second and third years assumptions upon which projections were based pro forma cash flow supporting documents for franchised businesses a copy of franchise contract and all supporting documents provided by the franchisor copy of proposed lease or purchase agreement for building space copy of licenses and other legal documents copy of resumes of all principals copies of letters of intent from suppliers etc a new study from the ohio state university has found the restaurant industry failure rate between 1996 and 1999 to be between 57 61 percent over three years don't be a statistic on the wrong side plan now for success with this new book and cd rom package
