## **Foundations of Modern Sociology**

1982-01

this book is a comprehensive overview of several major schools of sociological theory looking at various approaches from different cultural contexts abraham first explains conflicting views about the meaning of sociological theory itself then analyzes the basic sociological concepts of system structure function and conflict and the methodology of sociological theory designed to familiarize students with contemporary schools of theory including the most recent trends the book clearly defines structural functionalism conflict theory symbolic interactionism and phenomenological sociology

## **Modern Sociological Theory in Continuity and Change**

1957

modern sociologists on society and religion provides an introduction to some of the most influential figures in contemporary social theory with an emphasis on their analyses of society and religion the figures profiled include erving goffman zygmunt bauman michel foucault peter l berger thomas luckmann jürgen habermas pierre bourdieu anthony giddens arlie hochschild richard sennett and patricia hill collins the introduction places these sociologists in contemporary social discourse each chapter begins with an introduction to the main work and social analyses of the sociologist in question after a brief critical assessment it outlines their view on religion followed by examples of how other sociologists have used their theories to study religion each chapter ends with the authors suggestions for how their perspectives can be used to analyze the role of religion in contemporary society the book provides a general introduction and overview of social analyses in modern sociology it is a rich resource for scholars and students on all levels who are interested in social theory and the complexity of religion in contemporary society

## **Theories of Society**

1965

the chapters in this volume represent some of dennis wrong s best and most enduring essays initially published as skeptical sociology this collection displays his ability to write compellingly for general intellectual audiences as well as for academic sociologists the book is divided into sections that represent wrong s major areas of interest and investigation human nature and the perspective of sociology social stratification and inequality and power and politics each section is preceded by a short introduction that places the articles in context and elaborates and often sheds new light on the contents the essays in the first section were written with polemical intent directed against the assumptions of academic sociology that prevailed in an earlier period part two calls attention to the neglect by functionalists of power group conflict and historical change wrong shows that failure to consider them made functional theories of stratification especially vulnerable the third section is more heterogeneous in subject and theme than the others all the essays in it touch in some way on power or politics included in this volume is wrong s celebrated and much quoted article the oversocialized conception of man in modern sociology other significant essays reveal the author s views on many timely topics of sociological concern such as the quests for community and for identity the freudian marxian and weberian heritages in sociology

social class in america meritocracy a theory of democratic politics humanist positivist and functionalist perspectives and the sociology of the future the oversocialized conception of man is an indispensable volume for sociologists political theorists and historians dennis h wrong is emeritus professor of sociology at new york university he is the author of the problem of order population and society class fertility trends in western nations power its forms bases and uses also published by transaction and the modern condition forthcoming

## **Dictionary of Modern Sociology**

1969

these ten essays reassess and continue parson s work in sociology weighing in on the controversies which continue to surround his thought topics include scientific paradigms and organizational culture weber s influence complexity theory functionalism generalized symbolic media the social community and normative dilemmas contributors include scholars of sociology communications and behavioral science from the north america europe and australia c book news inc

## **Modern Sociology**

1978

containing the most systematic statement of the theoretical foundations and framework of functional sociology the essays included in this edition provide an authoritative approach to the functional analysis of social structures featuring two new chapters that form an introduction to the three essays publishing in part one of social theory and social structure robert k merton reflects on some of the most important thinking in contemporary sociology on theoretical sociology presents a clear and precise overview of basic concepts and serves as an introduction to the unique intellectual achievements of one of america s foremost scholars

## **Modern Sociology**

1965

this volume offers scholars of sociology and allied areas the fruits of an international conference on the contributions of the eminent robert k merton the assessment as good in content as well as in participants took place in amalfi italy with the participation of merton himself and under the auspices of the italian sociology association carlo mongardini aptly summarizes the unique impact of merton on the social theory of our century his strength as a classic writer lies in his balance unveiling complexity and in his humanism which looks beyond the apparent simplicity and coherence of social reality a special treat is the final chapter by merton reviewing unanticipated consequences and kindred sociological ideas in it he ranges from the historical antecedents of the concept to his own evolution in the use and expansion of the idea merton approaches the development of his thought as installments rather than simple evolution and in so doing gives us unique insight into how he built upon his originating notions in the context of social science as it existed in the united states tensions between integrating scholarship and reaching the general public provide a special insight into merton that might prove new even to those who know his work well contributors to this original volume include volker meja nico stehr paolo ammassari gianni statera birgitta nedelmann harriet zuckerman piotr sztopka peter gerlich charles crothers elena besozzi and arnold zongerle among others the chapters address the full range of merton s work with special emphasis on such areas as anomie structural analysis the relationship of theory to research patterns of latent and manifest influence and even the application of mertonian concepts to the analysis of merton as a scholar this unusual

compendium translated from the italian will interest social researchers across the academic spectrum

## **Foundations of Modern Sociology**

1985

social research efforts are often more concerned with basic social processes or patterns than with the dynamic relationship between social processes and social institutions in this classic collection contributors posit generalizations drawn from contemporary sociology their analyses go beyond elementary principles they interpret them qualify them or state them more precisely each of the contributors focuses on the modern american social structure and they are either explicitly comparative or have made observations that clearly are meant to apply to many countries this volume both embodies and draws attention to newer developments in sociology like most steps forward in an advancing science this orientation does not reject the older knowledge accumulated during earlier generations but incorporates and expands upon it the differences are in emphasis rather than any denial of the main body of accepted theory on the other hand the collection may be said to represent a response to the many criticisms by humanists and sociologists alike of the mainstream of contemporary sociology as it existed at the time of original publication in the late 1960s inquiries into social changes like sociological studies of historical phenomena may be viewed as modes of a comparative sociology they permit us to test more fully sociological generalizations the emphasis in this volume on historical and comparative studies and on social change parallels the growing attention of sociology to these problems during the 1960s social science turned from a nearly exclusive preoccupation with middle class populations to a concern with social relations in other societies past as well as present in addition to enriching our knowledge this broader view has increased both the precision and generalizing power of sociological principles

## **Dictionary of modern sociology**

1972

this volume is designed as a basic text for upper level and graduate courses in contemporary sociological theory most sociology programs require their majors to take at least one course in sociological theory sometimes two a typical breakdown is between classical and contemporary theory theory is perhaps one of the broadest areas of sociological inquiry and serves as a foundation or framework for more specialized study in specific substantive areas of the field in addition the study of sociological theory can readily be related to various aspects of other social science disciplines as well from the very beginning sociology has been characterized by alternative theoretical perspectives classical theory includes the european founding figures of the discipline whose works were produced during the later half of the nineteenth century and the first couple of decades of the twentieth century plus early american theorists for most of the second half of the twentieth century a fairly high consensus has developed among american sociologists regarding these major founders particularly with regard to the works of durkheim and weber in analyzing the overall society and of simmel in analyzing social interaction processes since the late 1960s and early 1970s the influence of marx has also been recognized recent decades have also witnessed an increased emphasis on the important contributions of several pioneering feminist perspectives in the early years of sociology

## **Humanity and Modern Sociological Thought**

1969
