sexual selection perspectives and models from the neotropics presents new sexual selection research based upon neotropical species as neotropical regions are destroyed at an alarming rate with an estimated 140 species of rainforest plants and animals going extinct every day it is important to bring neotropical research to the fore now sexual selection occurs when the male or female of a species is attracted by certain characteristics such as form color or behavior when those features lead to a greater probability of successful mating they become more prominent in the species although most theoretical concepts concerning sexual selection and reproductive strategies are based upon north american and european fauna the neotropical region encompasses much more biodiversity with as many as 15 000 plant and animal species in a single acre of rain forest this book illustrates concepts in sexual selection through themes ranging from female cryptic choice in insects sexual conflict in fish interaction between sexual selection and the immune system nuptial gifts visual and acoustic sexual signaling parental investment to alternative mating strategies among others these approaches distinguish sexual selection from current publications in sexual selection mainly because of the latitudinal and taxonomic focus so that readers will be introduced to systems mostly unknown outside the tropics several of which bring into question some well established patterns for temperate regions synthesizes sexual selection research on species from the neotropics combines different perspectives and levels of analysis using a broad taxonomic basis introducing readers to systems mostly unknown outside the tropics and bringing into question well established patterns for temperate regions includes contributions exploring concepts and theory as well as discussions on a variety of neotropical vertebrates and invertebrates such as

insects fish arthropods and birds in 1937 h g wells proposed a predigital freely available world encyclopedia to represent a civilization saving world brain in a series of talks and essays in 1937 h g wells proselytized for what he called a world brain as manifested in a world encyclopedia a repository of scientifically established knowledge that would spread enlightenment around the world and lead to world peace wells known to readers today as the author of the war of the worlds and other science fiction classics was imagining something like a predigital wikipedia the world encyclopedia would provide a summary of verified reality in about forty volumes it would be widely available free of copyright and utilize the latest technology of course as bruce sterling points out in the foreword to this edition of wells s work the world brain didn t happen the internet did and yet wells anticipated aspects of the internet envisioning the world brain as a technical system of networked knowledge in sterling s words a hypothetical super gadget wells s optimism about the power of information might strike readers today as naïvely utopian but possibly also inspirational on election day in 2016 it seemed unthinkable to many americans that donald trump could become president of the united states but the victories of the obama administration hid from view fundamental problems deeply rooted in american social institutions and history the election s consequences drastically changed how americans experience their country especially for those threatened by the public outburst of bigotry and repression amid the deluge of tweets and breaking news stories that turn each day into a political soap opera it can be difficult to take a step back and see the big picture to confront the threats we face we must recognize that the trump presidency is a symptom not the malady antidemocracy in america is a collective effort to understand how we got to this point and what can be done about it assembled by the sociologist eric klinenberg as well as the editors of the online magazine public books caitlin zaloom and sharon marcus it offers essays from many of the nation s leading scholars experts on topics including race religion gender civil liberties protest inequality immigration climate change national security and the role of the media antidemocracy in america places our present in international and historical context considering the worldwide turn toward authoritarianism and its varied precursors each essay seeks to inform our understanding of the fragility of american democracy and suggests how to protect it from the buried contradictions that trump s victory brought into public view in new perspectives on the irish diaspora charles fanning incorporates eighteen fresh perspectives on the irish diaspora over three centuries and around the globe he enlists scholarly tools from the disciplines of history sociology literary criticism folklore and culture studies to present a collection of writings about the irish diaspora of great variety and depth during the 1950s thousands of mixed race children were born to us servicemen and local korean women in us occupied south korea assumed to be the progeny of camptown women or military prostitutes their presence created a major

problem for the image of us democracy in the world at a time when the nation was vying for cold war allegiances abroad as mixed race children became a discernible population around us military encampments in south korea communists seized upon the image of those left behind by their gi fathers as evidence of us imperialism irresponsibility and immorality in the third world aware of this and keen to redeem the image of america s intervention in asia us citizens spearheading the postwar recovery of recently war torn south korea embarked upon a campaign in us congress to bring as many of these children home by the early 1960s american philanthropists missionaries and voluntary agencies had succeeded in constructing the figure of the abandoned and mistreated amerasian orphan to lobby us congress for the quick passage of intercountry adoption laws they also gained the sympathies of american families eager to welcome these racially different children into the intimate confines of their homes although the adoptions of korean amerasian children helped to promote an image of humanitarian rescue and cold war racial liberalism in 1950s and 1960s america there was one other problem many of these children were not actually orphans but had been living with their korean mothers in the camptown communities surrounding us military bases prior to adoption their placements into american families relied upon dehumanizing constructions of these women as hardened prostitutes who did not even love their own children south korea as a backwards racist society bent up on confucian tradition and pure bloodlines and the united states as a welcoming home in an era of intense racial segregation the first amerasians tells the powerful oftentimes heartbreaking story of how americans created and used the concept of the amerasian to remove thousands of mixed race children from their korean mothers to adoptive us homes during the 1950s and 1960s in doing so yuri w doolan reveals how the amerasian is not simply a mixed race person fathered by a us serviceman in asia nor a racial term used to describe individuals with one american and one asian parent like its popular definition suggests rather the amerasian is a cold war construct whose rescue has been utilized to repudiate accusations of us imperialism and achieve sentimental victories in the aftermath of wars not quite won by the military from such constructions americans lobbied congress twice first in the 1950s to establish international adoption laws that would lead to the placement of hundreds of thousands of korean children in the united states then later in the 1980s when the plight of mixed race koreans would be invoked again to argue for amerasian immigration laws culminating in the migrations of tens of thousands of mixed race vietnamese and their relatives beyond cold war historiography this book also shows how in using the figure of the mistreated and abandoned amerasian in need of rescue americans caused harm to actual people mixed race koreans and their mothers specifically as children were placed into adoptive homes during an era where few regulations or safeguards existed to protect them from abuse negligence or racial hostilities in the us and many

korean mothers were coerced both physically and monetarily to relinquish their children to american authorities this work provides a basic understanding of the physical background and engineering considerations required for the design of ir systems examining all components and combining them into examples of current surveillance systems this second edition presents new coverage of state of the art optical systems including lightweight mirrors and adaptiv these nine essays selected by lawrence baldassaro and richard a johnson present for the first time in a single volume an ethnic and racial profile of american baseball these essayists show how the gradual involvement by various ethnic and racial groups reflects the changing nature of baseball and of american society as a whole over the course of the twentieth century although the sport could not truly be called representative of america until after jackie robinson broke the color line in 1947 fascination with the ethnic backgrounds of the players began more than a century ago when athletes of german and irish descent entered the major leagues in large numbers in the 1920s commentators noted the influx of ballplayers of italian and slavic origins and wondered why there were not more jewish players in the big leagues the era following world war ii however saw the most dramatic ethnographic shift with the belated entry of african american ballplayers the pattern of ethnic succession continues as players of hispanic and asian origin infuse fresh excitement and renewal into the major leagues normandy flanders field and other overseas cemeteries of the american battle monument commission abmc are well known however lesser known burial sites of american war dead exist all over the world in australia and across the pacific rim in canada and mexico libya and spain most of europe and as far north as the russian arctic this is the history of american soldiers buried abroad since the american revolution it traces the evolution of american attitudes and practices about war dead and provides the names and locations of those still buried abroad in non abmc locations can rock music help us understand literature rock music in american fiction writing 1966 2011 argues that a close analysis of the rock music incorporated into a literary text an investigation of the lyrics a musicological exploration of the sounds and rhythms a cultural historical inquiry into the production and reception of a song may yield exciting new insight into and expand our understanding of american literary production from the mid 20th century onwards reading major works by joyce carol oates alice walker don delillo jeffrey eugenides sherman alexie and jennifer egan from such a rock musicological vantage point rock music in american fiction writing adds a new dimension to recent work in american literary criticism by seeking to establish rock music as an analytical tool for literary investigation the book concentrates on the way these literary artists have struggled to come to terms with the dichotomies inherent in rock music its liberating and revolutionary impulses as well as its adherence to the bleakest laws of consumer capitalism in their work by combining a musicological with a literary analysis rock music in

in the second volume of the acclaimed gas food lodging trilogy authors john jakle keith sculle and jefferson rogers take an informative entertaining and comprehensive look at the history of the motel from the introduction of roadside tent camps

## **beginning chess how to master the fundamental skills (Read Only)**

and motor cabins in the 1910s to the wonderfully kitschy motels of the 1950s that line older roads and today's comfortable but anonymous chains that lure drivers off the interstate. Americans and their cars have found places to stay on their travels. Motels were more than just places to sleep; however, they were the places where many Americans saw their first color television, used their first coffee maker, and walked on their first shag carpet. Illustrated with more than 230 photographs, postcards, maps, and drawings, *The Motel in America* details the development of the motel as a commercial enterprise, its imaginative architectural expressions, and its evolution within the place-product packaging concept along America's highways as an integral part of America's landscape and culture. The motel finally receives the in-depth attention it deserves.

2007

The history of civil rights in the United States is usually analyzed and interpreted through the lenses of modern conservatism and progressive liberalism. In *Race and Liberty in America*, the *Essential Reader* author Jonathan Bean argues that the historical record does not conveniently fit into either of these categories and that knowledge of the American classical liberal tradition is required to gain a more accurate understanding of the past, present, and future of civil liberties in the nation. By assembling and contextualizing classic documents from the Declaration of Independence to the Civil Rights Act of 1964 to the 2007 U.S. Supreme Court decision banning school assignment by race, Bean demonstrates that classical liberalism differs from progressive liberalism in emphasizing individual freedom, Christianity, the racial neutrality of the Constitution, complete color blindness, and free market capitalism. A comprehensive and vital resource for scholars and students of civil liberties, *Race and Liberty in America* presents a wealth of primary sources that trace the evolution of civil rights throughout U.S. history.

### **The Motel in America**
