from dirt bikes and jet skis to weed wackers and snowblowers machines powered by small gas engines have become a permanent and loud fixture in american culture but fifty years of high speed fun and pristine lawns have

not come without cost technology it powers paul r josephson explores the political environmental and public health issues surrounding one of america s most dangerous pastimes each chapter tells the story of an ecosystem within the united states and the devices that wreak havoc on it personal watercraft pwcs on inland lakes and rivers all terrain vehicles atvs in deserts and forests lawn mowers and leaf blowers in suburbia in addition to environmental impacts josephson discusses the development and promotion of these technologies the legal and regulatory efforts made to improve their safety and environmental soundness and the role of owners clubs in encouraging responsible operation research nongovernmental organizations and manufacturers josephson s compelling history leads to one irrefutable conclusion these machines cannot be operated without loss of life and loss of habitat
