tom hayden first realized he was irish on the inside when he heard civil rights marchers in northern ireland singing we shall overcome in 1969 though his great grandparents had been forced to emigrate to the us in the 1850s hayden s parents erased his irish heritage in the quest for respectability in this passionate book he explores the losses wrought by such conformism assimilation he argues has led to high rates of schizophrenia depression alcoholism and domestic violence within the irish community today s irish americans hayden contends need to re inhabit their history to recognize that assimilation need not entail submission by recognizing their links to others now experiencing the prejudice once directed at their ancestors they can develop a sense of themselves that is both specific and inclusive the survival of a distinct irish soul is proof enough that anglo culture will never fully satisfy our needs we have a unique role in reshaping american

this engaging book traces the history archaeology and legends of ancient ireland from 9000 b c when nomadic hunter gatherers appeared in ireland at the end of the last ice age to 1167 a d when a norman invasion brought the country under control of the english crown for the first time so much of what people today accept as ancient irish history celtic invaders from europe turning ireland into a celtic nation st patrick driving the snakes from ireland and converting its people to christianity is myth and legend with little basis in reality the truth is more interesting the irish as the authors show are not even celtic in an archaeological sense and there were plenty of bishops in ireland before a british missionary called patrick arrived but in search of ancient ireland is not simply the story of events from long ago across ireland today are festivals places and folk customs that provide a tangible link to events thousands of years past the authors visit and describe many of these places and festivals talking to a wide variety of historians scholars poets and storytellers in the very settings where history happened thus the book is also a journey on the ground to uncover ten thousand years of irish identity in search of ancient ireland is the official companion to the three part pbs documentary series with 14 black and white photos 6 b w illustrations and 1 map
