John Milbank's theology has shaped much modern political thinking both within and without the church in before and beyond the big society. Joseph Forde presents the first study devoted exclusively to John Milbank's theology of welfare and how it has influenced policy in the Church of England since 2008 by examining the favourable response the church gave to the big society project in 2010-12. Forde shows that Milbank's blue socialist fingerprint increasingly dominates church policy. This theology has not evolved in a vacuum however and Forde expertly places it in its historical and theoretical context. He offers a detailed critical discussion of Milbank's own critique of what has been the mainstream Temple Anglican theology of welfare in the Church of England since the 1940s and a fresh contribution to the assessment of Anglican social theology. Finally he demonstrates how Milbank's ideas have been furthered by other influential Anglicans. It is this influence that will carry the greatest implications for the Church of England's policy on welfare in future making this study relevant to all who care about its contribution to the provision of welfare. This important intervention interrogates keystone features of the dominant European theoretical landscape in the field of populism studies, advancing existing debates and introducing new avenues of thought in conjunction with insights from the contemporary Latin American political experience and perspectives. In each essay the title a nod to the influential socialist thinker José Carlos Mariátegui from whom the authors draw inspiration. Leading Argentine scholars Paula Biglieri and Luciana Cadahia pair key dimensions of populism with diverse themes such as modern day feminism, militancy and neoliberalism in order to stimulate discussion surrounding the constitutive nature, goals and potential of populist social movements. Biglieri and Cadahia are unafraid to court provocation in their frank assessment of populism as a force which could bring about essential emancipatory social change to confront emerging right wing trends in policy and leadership at the same time. This fresh interpretation of a much maligned political articulation is balanced by their denunciation of right aligned populisms and their failure to bring to bear a sustainable alternative to contemporary neo-authoritarian forms of neoliberalism. In their place they articulate a populism which offers a viable means of mobilizing a response to hegemonic forms of neoliberal discourse and government.

the fourth book in the European public investment outlook series focuses on the urgent issue of how to finance needed investment in critical tangible and intangible infrastructure given high levels of public debt, a thorny problem facing many governments across Europe. Drawing on expertise from academics, researchers at public policy institutes and international governance bodies, the contributors analyse the current situation
