Wonderful Things 1976 almost 70 years after the lifting of the lid from the sarcophagus this book focuses on the monument following a detailed analysis of the sarcophagus s architecture and decoration this book focuses on hitherto unrecognized evidence that the box was altered in antiquity in all likelihood to adapt it to tutankhamun from a previous owner the list of possible candidates for the original ownership of the box is reviewed with the balance of the evidence favouring tutankhamun s immediate predecessor his putative brother smenkhare the text which includes translation of and a commentary on the inscriptions is illustrated by harry burton s photographs taken during the clearing of the tomb the author is a specialist in the history art history and archaeology of the reign of tutankhamun

The Sarcophagus in the Tomb of Tutankhamun 1993 the general understanding of the life and career of howard carter is dominated by his discovery in 1922 of the tomb of tutankhamun by this time he had already spent nearly thirty years in egypt much of it in archaeological activity other than excavation this book places the great discovery in the context of carter s whole career describing the clearly defined stages by which a young man of 17 brought to egypt as a tracer and knowing little beyond how to use a pencil and an artist s brush became what one great egyptologist called the very best artist was appointed at the age of 26 the first chief inspector of antiquities in upper egypt and by good fortune out of disaster became the learned man who assisted the 5th earl of carnarvon in his theban excavations howard carter s career before tutankhamun was by no means confined to grubbing in unimportant sites he was fortunate to be working in egypt in the years when excavation and other forms of field work especially epigraphy were developing beyond the amateurism and informal buccaneering of earlier times his natural talents as artist observer and practical man with his rare sympathy and understanding of the egyptians who lived and worked in the prime excavation sites made him well suited to the uncertain conditions and unpredictable results of archaeological activities of modest origin and by nature a solitary man he was drawn to the grand life of those who made egyptology a rich man s pastime in the early years of the twentieth century of irascible and stubborn temper he often alienated his supporters and threatened his own downfall he was not an easy man to be involved with in this study of a complex character who ultimately achieved supreme archaeological triumph much use has been made of a wide range of documentary sources including some never previously exploited so as to place howard carter in the social and political milieux of egypt at a period of great change
