horowitz public health author presents thoroughly researched information in his exploration into the origins of the hiv and ebola viruses his bias toward the theory that hiv was introduced into the general population by vaccine experiments conducted in new york city and africa is apparent he generalizes from this thesis that the aids epidemic may have been deliberately deployed as a genocide tactic as

part of the cia foreign policy activity in central africa the volume is characteristic of a conspiracy genre and as such presents its facts with an eye toward a predisposed conclusion annotation copyright by book news inc portland or
