classical greek civilization is the cornerstone of western civilization today the greeks invented and developed everything from logic and democracy to rhetoric drama and philosophy empire of ancient greece revised edition chronicles the remarkable legacy of the greeks as well as the diversity of their societies from the thriving democracy of athens to the militarism of sparta to the oligarchy of thrace it explores the conditions that made it possible for the ancient greeks to develop a culture that set the foundation for our intellectual lives today and explains why greek power eventually declined everyday life in ancient greece from the wealthy citizens who grappled in the olympic arena to the farmers who found 50 different ways to use olive oil is also examined connections in our own world to the ancient greeks are numerous including the olympics much of our classical literature the scientific method architecture and many english words the story of the ancient greeks is one of the most improbable success stories in world history a small group of people inhabiting a country poor in resources and divided into hundreds of quarreling states created one of the most remarkable civilizations ever comprehensive and balanced a brief history of ancient greece politics society and culture second edition is a shorter version of the authors highly successful ancient greece a political social and cultural history second edition oup 2008 four leading authorities on the classical world offer a lively and up to date account of greek civilization and history in all its complexity and variety covering the entire period from the bronze age through the hellenistic era and integrating the most recent research in archaeology comparative anthropology and social history the professions the

early greeks borrowed from their neighbors but eventually developed a distinctive culture all their own one that was marked by astonishing creativity versatility and resilience using physical evidence from archaeology the written testimony of literary texts and inscriptions and anthropological models based on comparative studies this compact volume provides an account of the greek world that is thoughtful and sophisticated yet accessible to students and general readers with little or no knowledge of greece the fifth volume of the studies in ancient greek narrative deals with speech it discusses the types modes and functions of speech in narrative the boundaries between speech and narrative context and the absence of speech silence the story of ancient greece traces the evolution of greek civilization from the early minoans in crete through the bronze age to the golden age of the fifth century b c later covering athens decline during and after the peloponnesian war the conquests of alexander and the hellenistic age it describes and contrasts the cultures of athens and sparta through the centuries and it explains how a democratic form of government evolved in early times and flourished in athens during the fifth century it highlights the literary and artistic achievements of the golden age and it provides colorful glimpses into the daily lives of the people of this period examining the roles of women as well as children slaves merchants soldiers and statesmen a major section focuses upon myths and legends of the ancient greeks a detailed study of the origins of religious belief and the part the olympians played in the lives of the early greeks is enhanced by references to major well known myths descriptions of the evolution of the olympic games held to honor the gods

another example of the omnipresence of the gods in greek society students meet the bard homer and learn about the major characters achilles odysseus hector and penelope for starters and of course the olympians as well as a collection of sorceresses monsters and demons that populate his highly entertaining epics the iliad and the odyssey later they read about the search by nineteenth century archaeologist heinrich schliemann for the cities troy and mycenae that are described in the epics the book includes analyses of the persian and peloponnesian wars with detailed references to the greek historians who wrote about them students are encouraged to think about how these wars affected the evolution of ancient greek society the ideas of the great philosophers socrates plato and aristotle are examined and compared a final chapter examines the discoveries and achievements of the greeks scientists before and during the hellenistic age each chapter in this comprehensive book concludes with review questions ideas for discussion and suggestions for projects relating to the text included are numerous maps a timeline a guide to pronunciation of greek words and charts of the greek alphabet with english equivalents greek roots prefixes and suffixes and words derived from greek this is a major single volume introduction to the whole of ancient greek history it covers the period from the golden age of knossos and mycenae to the incorporation of greece into the roman empire in the second century bc and the transfer of greek culture to byzantium in the fourth century ad drawing on a wealth of literary epigraphic and archaeological material this wide ranging synthesis looks at the practicalities of greek warfare and its wider social ramifications alongside professionals for the

nature and role of battle logistics strategy and equipment are examinations of other fundamentals of war religious and economic factors militarism and martial values and the relationships between the individual and the community before during and after wars the book takes account of the main developments of modern scholarship in the field and engages with the many theories and interpretations that have been advanced in recent years in a way that is stimulating and accessible to both specialist readers and a wider audience this is an exploration of an often overlooked group in ancient greece women though they played little or no public role women were an integral part of greek society and it is impossible to gain a full and balanced idea of that society without considering their experience alongside that of men warfare in ancient greece assembles a wide range of source material and introduces the latest scholarship on the greek experience of war the author has carefully selected key texts many of them not previously available in english and provided them with comprehensive commentaries for the greek polis warfare was a more usual state of affairs than peace the documents assembled here recreate the social and historical framework in which ancient greek warfare took place over a period of more than a thousand years from the homeric age to alexander the great special attention is paid to the attitudes and feelings of the greeks towards defeated people and captured cities complete with notes index and bibliography warfare in ancient greece will provide students of ancient and military history with an unprecedented survey of relevant materials foreword gregory nagy 1 phrasikleia from silence to sound 2 i write therefore i efface

the earliest greek inscriptions 3 the reader and the reading voice the instrumental status of reading aloud 4 the child as signifier the inscription of the proper name 5 the writer s daughter kallirhoe and the thirty suitors 6 nomos exegesis reading the reading voice and the law 7 true metempsychosis lycurgus numa and the tattooed corpse of epimenides 8 death by writing sappho the poem and the reader 9 the inner voice on the invention of silent reading 10 the reader and the eromenos the pederastic paradigm of writing first published in 1954 this is the second edition of the single volume amalgamation of husband and wife team marjorie and charles quinnells three volume anthology on greek antiquity originally between 1929 1932 everyday things in homeric greece everyday things in archaic greece and everyday things in classical greece part i tells of the trojan war and of the heroes who sustained the greeks in their early struggles with homer cited as the main source part ii deals with the archaic period about 560 to 480 b c ending with the great struggle between greeks and persians which culminated in the victory of the greeks at salamis as related in the history of herodotus part iii begins with the story of how the greeks went to work after salamis and built on the well laid foundations a civilization which ever since has been regarded as classical and closes with the account in the history of thucydides of the struggle between athens and sparta and the failure of the athenian expedition to sicily a comprehensive study of ancient greek history revised in this edition by greek authority kathleen freeman in this book we have attempted to show some of the beautiful products of these artists and their use in everyday life it is our hope that the boys and girls who read

will discover that the greeks were not a people extremely foreign and remote who spoke a difficult language but folk much like themselves who lived and worked and played in the surroundings and among the objects we have depicted and described preface a greek historian investigates the importance of local identity in the mediterranean world in a rare genuinely original book highly recommended choice much as our modern world is interconnected through global networks the ancient greek city states were a dynamic part of the wider mediterranean landscape in localism and the ancient greek world historian hans beck argues that local shifts in politics religion and culture had a pervasive influence in a world of fast paced change citizens in these communities were deeply concerned with maintaining local identity commercial freedom distinct religious cults and much more beyond these cultural identifiers there lay a deeper concept of the local that guided polis societies in their contact with a rapidly expanding world drawing on a staggering range of materials including texts by both known and obscure writers numismatics pottery analysis and archeological records beck develops fine grained case studies that illustrate the significance of the local experience localism and the ancient greek city state builds bridges across disciplines and ideas within the humanities it highlights the importance of localism not only in the archaeology of the ancient mediterranean but also in today s conversations about globalism networks and migration the thrust of the eighth volume of professor pritchett s topographical studies is on demosthenes amphilochean campaign in 426 bc described in the closing chapters of thucydides book iii with suggested reading

the sites of the battles of olpai and idomenai included is a commentary on the thucydidean text dealing with such problems as thucydidean seasons demosthenes generalship and the marching time of armies this study is followed by a survey of sites in northeastern akarnania probably the best preserved walls of any province in greece the author argues that these were not open cities in the late fifth and early fourth centuries offering comments on the use of siegecraft and scaling ladders in greek warfare the position of gates in several enceintes prove that the road structure in the mountains of akarnania was quite different from that of modern roads the volume concludes with a study of sites east of thermopylai and in the parnon range the home life of the ancient greeks by hugo blümmern though printed in the early 20th century is still considered a remarkably accurate depiction of ancient greek society through studying ancient ruins and digs blümmern was able to piece together the home life the average greek citizen would have this is a large departure from theories that focused primarily on the wealthy or on the religious sects of the ancient society in ancient greek society communication was largely oral and visual the contributors explore the ways in which word and image interact in greek culture throwing new light on their many and related functions although there is constant conflict over its meanings and limits political freedom itself is considered a fundamental and universal value throughout the modern world for most of human history however this was not the case in this book kurt raaflaub asks the essential question when why and under what circumstances did the concept of freedom originate to find out raaflaub analyses ancient greek texts from a professional

thucydides in their social and political contexts archaic greece he concludes had little use for the idea of political freedom the concept arose instead during the great confrontation between greeks and persians in the early fifth century bce raaflaub then examines the relationship of freedom with other concepts such as equality citizenship and law and pursues subsequent uses of the idea often paradoxically as a tool of domination propaganda and ideology raaflaub s book thus illuminates both the history of ancient greek society and the evolution of one of humankind s most important values and will be of great interest to anyone who wants to understand the conceptual fabric that still shapes our world views a brief history of ancient greek attested since the fourteenth century bc and still spoken today by over 10 million people greek has been one of the most influential languages in human history english spanish french russian and arabic are among the many languages to have borrowed key terms and concepts from greek a brief history of ancient greek takes the reader through the history of this ancient language from its indo european beginnings right up to the present day and explains key relationships between the language and literature of the classical period 500 300 bc the development of the language is also related to the social and political context in line with modern sociolinguistic thought the book reflects the latest scholarship on subjects such as koine greek and the relationship between literary and vernacular greek all greek is transliterated and translated where appropriate so that the text is accessible to readers who know little or no greek including scholars and students who require an accessible overview of the history of the language or linguists

professionals who need a quick source of data and background information this collective volume contains thirty six original studies on various aspects of ancient greek language linguistics and philology written by an international group of leading authorities in the field the essays are organized in five thematic groups covering a wide variety of issues of ancient greek linguistics ranging from epigraphy and the study of individual dialects to various other aspects of the structure of the language such as phonetics and phonology morphology lexicon and word formation etymology metrics as well as many syntactic matters and problems of pragmatics and stylistics of the language a number of essays move in the middle ground where language linguistics and philology crosscut and cross fertilize each other with the application of linguistic theory to the study of classical texts the work is of special relevance to scholars interested in greek linguistics in general and in particular aspects of the greek language a comparative study of the ancient mediterranean and han china seen through the lens of political culture provides information about ancient greece including the history culture and daily life of the ancient greeks an esteemed teacher offers a major reassessment of the history of greece from prehistoric times to the rise of alexander this is a work of prodigious scholarship written in grand style john fine surveys the archaeological work that has revealed so much about the civilization of crete and mycenaean greece and discusses the age of colonization during which greek colonies were established from the crimea to the Nile from the caucasus to spain analyzing social and economic developments as well as foreign and inter city affairs he assesses the history of

culture and democracy of athens and sparta s institutions and military exploits recounts the greeks relations and then war with the persian empire details alliances struggles and the varying fortunes of the greek city states and relates the rise of macedon fine treats the greeks story in the context of events elsewhere in the eastern mediterranean throughout he indicates the nature of the evidence on which our present knowledge is based masterfully explaining the problems and pit falls in interpreting ancient accounts the ancient greeks is a splendid narrative history and a refreshing reinterpretation that will please students of ancient history and everyone interested in early civilizations a history of ancient greek life and thought from the mycenaean kings to alexander aristotle and diogenes

Phrasikleia 1993

first published in 1954 this is the second edition of the single volume amalgamation of husband and wife team marjorie and charles quinnells three volume anthology on greek antiquity originally between 1929 1932 everyday things in homeric greece everyday things in archaic greece and everyday things in classical greece part i tells of the trojan war and of the heroes who sustained the greeks in their early struggles with homer cited as the main source part ii deals with the archaic period about 560 to 480 b c ending with the great struggle between greeks and persians which culminated in the victory of the greeks at salamis as related in the history of herodotus part iii begins with the story of how the greeks went to work after salamis and built on the well laid foundations a civilization which ever since has been regarded as classical and closes with the account in the history of thucydides of the struggle between athens and sparta and the failure of the athenian expedition to sicily a comprehensive study of ancient greek history revised in this edition by greek authority kathleen freeman in this book we have attempted to show some of the beautiful products of these artists and their use in everyday life it is our hope that the boys and girls who read it

will discover that the greeks were not a people extremely foreign and remote who spoke a difficult language but folk much like themselves who lived and worked and played in the surroundings and among the objects we have depicted and described preface

Everyday Things in Ancient Greece [Second Edition]

2017-04-07

a greek historian investigates the importance of local identity in the mediterranean world in a rare genuinely original book highly recommended choice much as our modern world is interconnected through global networks the ancient greek city states were a dynamic part of the wider mediterranean landscape in localism and the ancient greek world historian hans beck argues that local shifts in politics religion and culture had a pervasive influence in a world of fast paced change citizens in these communities were deeply concerned with maintaining local identity commercial freedom distinct religious cults and much more beyond these cultural identifiers there lay a deeper concept of the local that guided polis societies in their contact with a rapidly expanding world drawing on a staggering range of materials including texts by both known and obscure writers numismatics pottery analysis and archeological records beck develops fine grained case studies that illustrate the significance of the local experience localism and the ancient greek city state builds bridges

across disciplines and ideas within the humanities it highlights the importance of localism not only in the archaeology of the ancient mediterranean but also in today s conversations about globalism networks and migration

Localism and the Ancient Greek City-State 2020-07-31

the thrust of the eighth volume of professor pritchett s topographical studies is on demosthenes amphilochian campaign in 426 bc described in the closing chapters of thucydides book iii with suggested identifications for the sites of the battles of olpai and idomenai included is a commentary on the thucydidean text dealing with such problems as thucydidean seasons demosthenes generalship and the marching time of armies this study is followed by a survey of sites in northeastern akarnania probably the best preserved walls of any province in greece the author argues that these were not open cities in the late fifth and early fourth centuries offering comments on the use of siegecraft and scalingladders in greek warfare the position of gates in several enceintes prove that the road structure in the mountains of akarnania was quite different from that of modern roads the volume concludes with a study of sites east of thermopylai and in the parnon range

Studies in Ancient Greek Topography 2023-08-21

the home life of the ancient greeks by hugo blümmern though printed in the early 20th century is still considered a remarkably accurate depiction of ancient greek society through studying ancient ruins and digs blümmern was able to piece together the home life the average greek citizen would have this is a large departure from theories that focused primarily on the wealthy or on the religious sects of the ancient society

The Home Life of the Ancient Greeks 2021-11-05

in ancient greek society communication was largely oral and visual the contributors explore the ways in which word and image interact in greek culture throwing new light on their many and related functions

Word and Image in Ancient Greece 2000

although there is constant conflict over its meanings and limits political freedom itself is considered a fundamental and universal value throughout the modern world for most of human history however this was not the case in this book kurt raaflaub asks the essential

question when why and under what circumstances did the concept of freedom originate to find out raaflaub analyses ancient greek texts from homer to thucydides in their social and political contexts archaic greece he concludes had little use for the idea of political freedom the concept arose instead during the great confrontation between greeks and persians in the early fifth century bce raaflaub then examines the relationship of freedom with other concepts such as equality citizenship and law and pursues subsequent uses of the idea often paradoxically as a tool of domination propaganda and ideology raaflaub s book thus illuminates both the history of ancient greek society and the evolution of one of humankind s most important values and will be of great interest to anyone who wants to understand the conceptual fabric that still shapes our world views

The Discovery of Freedom in Ancient Greece *2004-02*

a brief history of ancient greek attested since the fourteenth century bc and still spoken today by over 10 million people greek has been one of the most influential languages in human history english spanish french russian and arabic are among the many languages to have borrowed key terms and concepts from greek a brief history of ancient greek takes the reader through the history of this ancient language from its indo european beginnings right up to the present day and explains key relationships between the language and literature of the classical period 500 300 bc the development of the language is also related to the social

and political context in line with modern sociolinguistic thought the book reflects the latest scholarship on subjects such as koine greek and the relationship between literary and vernacular greek all greek is transliterated and translated where appropriate so that the text is accessible to readers who know little or no greek including scholars and students who require an accessible overview of the history of the language or linguists and professionals who need a quick source of data and background information

A Brief History of Ancient Greek 2013-12-05

this collective volume contains thirty six original studies on various aspects of ancient greek language linguistics and philology written by an international group of leading authorities in the field the essays are organized in five thematic groups covering a wide variety of issues of ancient greek linguistics ranging from epigraphy and the study of individual dialects to various other aspects of the structure of the language such as phonetics and phonology morphology lexicon and word formation etymology metrics as well as many syntactic matters and problems of pragmatics and stylistics of the language a number of essays move in the middle ground where language linguistics and philology crosscut and cross fertilize each other with the application of linguistic theory to the study of classical texts the work is of special relevance to scholars interested in greek linguistics in general and in particular aspects of the greek language
