Student Atlas, 7th Edition

2013-11-18

Student Atlas, 7th Edition, is a comprehensive reference work for students in middle school and high school. It features a wide range of maps, including world maps, regional maps, and local maps, as well as a detailed index and a glossary. The atlas is designed to be user-friendly and easy to navigate, with clear labels and a logical layout. It is a valuable resource for students who are studying geography and history, and it is also a great tool for teachers and parents who are looking for a way to help their children learn more about the world.

Techniques of Crime Scene Investigation, Seventh Edition

2003-09-25

this book offers a critical and timely account of how labour law has become a means for protecting employers rather than workers the past few decades have witnessed something of a silent revolution in the traditional protective role that labour law has played in the lives of workers while this transformation has been overt in the realm of the market and at the level of the legislature the role of the judiciary in this process remains significantly under studied focussing on australia but drawing also on material from new zealand the uk and canada this book investigates how the common law has intervened to shape labour law in the image of commercial contract determining disputes and defining legal issues by ignoring the realities of working life under this new conception of labour law industrial relations between workers and employers are rarely reciprocal or relational rather they are determined by the legal meaning and purpose of

the contract of employment drafted by lawyers for the benefit of employers and their human resources departments having demonstrated how approaches to contractual formalist legal reasoning have redefined labour law this book goes on to propose an array of innovative legal and policy strategies to restore the protective role of labour law to the employment relationship scholarly but also accessible to students this book will appeal to those with interests in labour law contract law and sociolegal studies

Calculus, Hybrid Edition

2014-12-22

it is now widely recognized that communication is at the very heart of effective management there is therefore an ever expanding demand for valid and generalizable information on how best to relate to people in organizational contexts communication skills for effective management meets this demand it demonstrates how for managers to be successful they need to employ a range of key communication skills styles and strategies the contents are based upon the authors considerable experiences of researching teaching and consulting in a range of private and public sector organisations from their academic and real world involvement they have identified the core skills of effective management presented in an academically rigorous yet student friendly way the reader is encouraged to interact with the material covered each chapter contains a series of boxed text diagrams tables and illustrations which summarise core points exercises are also provided to enable managers to put the material reviewed into practice all of this is underpinned and supported by a firm foundation of research findings this will be an excellent text for undergraduate business and management students studying business communication and mba students practising managers will also find this book to be an invaluable resource
