Global Surgery and Anesthesia Manual 2014-12-12

with today's availability of social security and medicare we typically think of the older years as a stage in life where people are supported financially however of the more than 40 million old adults currently living in the us many are struggling financially living below or near the poverty line they are lacking the assets necessary to see them through a period of life that is often longer than expected and that requires more health and long term care while financial vulnerability can be most pronounced in old age it is often created across decades revealing itself in later years when there is little opportunity to reverse a lifetime of disadvantage the concept of financial capability refers to both an individual and structural idea that combines a person's ability to act with their opportunity to act in their best financial interests in financial capability and asset holding in later life a life course perspective the concept of financial capability is used to underscore the importance of acquiring knowledge and skills while addressing policies and services that can build financial security the volume assembles the latest evidence on financial capability and assets among older adults using a life course perspective arguing that older adults need financial knowledge and financial services in order to build secure lives and that this process needs to begin before it is too late to make effective changes and choices broken into three parts the book's chapters written by leading experts in the field blend together empirical findings economic and social theory and case studies part 1 opens the book with a conceptual and empirical overview of financial capability and assets among older adults using a life course perspective part 2 presents chapters addressing financial vulnerability of diverse racial and ethnic groups people with disabilities and

immigrants part 3 includes chapters describing current policies programs and innovations including a review of important issues of working and caregiving in later life and a detailed assessment of age friendly banking principles banking products services and policies

What is Nursing? Exploring Theory and Practice 2011-08-01

affordability access and accountability have long been among the central challenges facing higher education and they remain so today here donald e heller and other higher education scholars and practitioners explore the current debates surrounding these key issues as students and their families struggle to meet rising tuition prices and as state funding for higher education dwindles policymakers confront issues of affordability within state and institutional budgets changing demographics and challenges to affirmative action complicate the admissions process even as colleges and universities seek to diversify enrollments and issues of institutional accountability have forced the restructuring of higher education governing boards and a reexamination of the role of public trustees in governance this collection analyzes how issues of affordability access and accountability influence the way in which state governments approach monitor and set public higher education policy the contributors examine the latest research on pressing challenges explore how states are coping with these challenges and consider what the future holds for public postsecondary education in the united states
