Ireland Since 1939

2002

this is the first comprehensive history of ireland north and south which traces the developments from the second world war to the belfast agreement and the creation of a new inclusive government in northern ireland it aims to avoid what is too often a partitioned approach to the history of ireland which treats the north and south in isolation from one another making extensive use of archival material from belfast dublin and london ireland since 1939 provides new perspectives on a range of important episodes from irish neutrality to the 1970 arms crisis and from lord brookeborough s failed attempt to modernize the northern ireland state to the disastrous events of bloody sunday in derry developments in ireland are placed in an international context from the period when the world war rescued ulster unionism from economic decline and social conflict to explaining how the end of the cold war contributed to the ira s 1994 ceasefire the importance of economic developments on the political situation in both states is also emphasized and patterson argues that the celtic tiger was an important factor in the recent talks between north and south

the prison system is widely believed to be an immutable element of contemporary society many criminologists and sociologists of deviance believe that decarceration movements have failed to yield progressive reform and that feasible alternatives to the prison system do not exist maeva mcMahon challenges these views reconstructing the emergence of critical perspectives on decarceration she examines analytical and empirical problems in the research she also points out how indicators of community programs and other penalties serving as alternatives to prison have typically been overshadowed through critical focus on their effects in widening the net of control mcMahon presents a detailed analysis of decreasing imprisonment and of the part played by alternatives in this during the postwar period in ontario drawing from extensive documentary research and from interviews with former correctional officials she charts the changing climates of opinions and socio economic factors which facilitated decarceration by situating her analysis in the context of theoretical and political

arguments about the possibility of decarceration mcMahon provides in her work a stimulus to the development of progressive penal politics not just in Canada but in all western countries

ethnic democracy is a form of democratic ethnic conflict regulation in deeply divided societies in the challenge of ethnic democracy yoav peled argues that ethnic democracy is constituted by the combination of two contradictory constitutional principles liberal democracy and ethno nationalism and that its stability depends on the existence of a third mediating constitutional principle of whatever kind this central argument is supported by an analysis of the history of three ethnic democracies northern ireland under unionist rule where ethnic democracy was stable for almost 50 years 1921 1969 then collapsed the second polish republic 1918 1939 where ethnic democracy was written into the constitution but was never actualised and israel within its pre 1967 borders where ethnic democracy was stable for 35 years 1966 2000 but may now be eroding this book examines the different trajectories of the case studies demonstrating that poland lacked a third mediating constitutional principle while israel and northern ireland did have such a principle civic republicanism in israel and populism in northern ireland the collapse of ethnic democracy in northern ireland resulted from the weakening of populism that depended on british monetary subsidies for its implementation whilst the erosion of

ethnic democracy in israel resulted from the decline of civic republicanism since the onset of economic liberalization in 1985 dealing with ethnic democracy in a comparative framework this book will appeal to students scholars and researchers of sociology political science and middle east studies

Politics, Society and the Middle Class in Modern Ireland

2009-11-29

Northern Ireland is currently enjoying a period of relative peace and stability unprecedented for much of the past half century. Such stability is the product of a variety of factors that has created conditions whereby Northern Ireland now runs its own political institutions for the first time since the early 1970s. International relations and developments since the early 1980s have had a key influence on the Northern Ireland process and such external influences require renewed attention in assessing the evolution of the Northern Ireland conflict and the recent progress towards long term peace since the abrupt end of the Cold War in the early 1990s. In particular the Northern Ireland dispute along with many other inter ethnic conflicts has felt the repercussions of such geo political changes both positive and negative. In this context many external states forces and individuals have wielded significant influence over Northern Ireland's development. The world's only remaining superpower the USA has particularly taken a renewed interest in Northern Ireland an interest bolstered by a president with a genuine interest in the province. Other long term external disputes such as the Middle East conflict and South Africa's advance from apartheid have also been inter linked with the Northern Ireland dispute. The European Union has continued to evolve as a trans national organisation and has also sought to influence the easing of sectarian tensions in Northern Ireland. This book seeks to assess the overall impact that such global developments have undoubtedly had on the Northern Ireland peace process and attempts to offer fresh interpretations of a complex element within that process. when we read a history we believe ourselves to be reading cold hard facts of the events that took place and how

they occurred but there is no real truthful way to know the approach our historian has taken with the historical sources this book deals with the uncertainty in writing history in the context of irish history in particular regan argues in this book that the notion of elision simply ignoring unhelpful evidence threatens irish history today regan believes that some historians have ignored unhelpful facts that perhaps do not further their point or perhaps contradict them altogether each chapter focuses on a period of irish history that regan believes to be inconsistent or incomplete in its facts he asks the controversial questions about the period of history such as why do some historians deny or marginalise the british threat of war and re conquest in 1922 why do so many irish historians describe michael collins as a constitutionalist or a democrat when the evidence argues otherwise was the irish civil war really fought between democrats defending the state against dictators attempting its overthrow did the new state briefly experience a military dictatorship under collins in 1922 thinking historically is not about learning history or accepting the past as it is presented to us it is as regan argues in his thought provoking work about developing the critical skills to interpret history for ourselves

moving beyond the now somewhat tired debates about secularization as paradigm theory or master narrative periodizing secularization focuses upon the empirical evidence for secularization viewed in its descriptive sense as the waning social influence of religion in britain particular emphasis is attached to the two key performance indicators of religious allegiance and churchgoing each subsuming several sub indicators between 1880 and 1945 including the first substantive account of secularization during the fin de siècle a wide range of primary sources is deployed many of them relatively or entirely unknown and with due regard to their methodological

and interpretative challenges on the back of them a cross cutting statistical measure of active church adherence is devised which clearly shows how secularization has been a reality and a gradual not revolutionary process the most likely causes of secularization were an incremental demise of a sabbatarian culture coupled with the associated emergence of new leisure opportunities and transport links and of religious socialization in the church at home and in the school the analysis is also extended backwards to include a summary of developments during the eighteenth and early nineteenth centuries and laterally to incorporate a preliminary evaluation of a six dimensional model of diffusive religion demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred the book is designed as a prequel to the author s previous volumes on the chronology of british secularization britain s last religious revival 2015 and secularization in the long 1960s 2017 together they offer a holistic picture of religious transformation in britain during the key secularizing century of 1880 1980
