this book is about textbooks textbook quality and quality standards of textbooks from a theoretical point of view in the light of bahtin s theory of speech genres school textbooks are seen as a specific complex genre defined by the addressee at the same time this approach requires us to see textbooks as a cultural product from an educational point of view textbooks are according to vygotsky s theory of cultural development a key socio cultural aid to cognitive development in school years forty three quality standards are operationally defined and explained they can be used for compiling textbooks for textbook accreditations for textbook evaluation and for selection by teachers

iap textbook of pediatrics is the latest edition of this extensive textbook which highlights the substantial advances in preventive and therapeutic care in paediatrics since the last edition this edition has been thoroughly revised and reorganised into a single volume enhanced by nearly 1200 full colour images and illustrations which allow for quick and easy reference new content and topics in this edition include new iap growth charts human milk banking and survival of childhood cancer

Delmar's Standard Textbook of Electricity

2003-07-31

metallurgical thermodynamics as well as its modified version thermodynamics of materials forms a core course in metallurgical and materials engineering constituting one of the principal foundations in these disciplines designed as an undergraduate textbook this concise and systematically organized text deals primarily with the thermodynamics of systems involving physico chemical processes and chemical reactions such as calculations of enthalpy entropy and free energy changes of processes thermodynamic properties of solutions chemical and phase equilibria and thermodynamics of surfaces interfaces and defects the major emphasis is on high temperature systems and processes involving metals and inorganic compounds the many worked examples diagrams and tables that illustrate the concepts discussed and chapter end problems that stimulate self study should enable the students to study the subject with enhanced interest
