perhaps the finest allegory of tao is that it resembles water instead of contending with things it prefers to dwell where no one would like to stay in a way this is how taoism steadily trickled down and onto the various layers of european society unobtrusive and seemingly effortless

what is a badass a badass is someone who says things like this i m going to give you the system that is literally step by step and is proven to create sexual intrigue that is so compelling and so powerful that almost any girl you use it on will find

their panties around their knees soaked to the max before she can even say my name is the above excerpt is taken from the promotional video for one of the most popular so called dating guides for men called the tao of badass notice the language the product that is being promoted is a system that men can use on a woman or girl to not only create instant sexual intrigue but an immediate sexual response almost any girl you use it on we are told will find their panties around their knees soaked to the max soaked to the max and she hasn't even had the chance to say my name is yeah that's badass stuff it's also date rape stuff isn't the so called date rape drug designed to render a woman unconscious so that she is unable to defend herself against unwanted sexual contact a very similar theme is at work in much of the contemporary dating and seduction guide literature what is being promoted are not dating tips or dating advice but something far more sinister and dangerous fantasies of controlling women and forcing them to act against their will badass b's helping young men identify and reject toxic ideas about dating relationships women and sex by alan stransman is a critical examination of the ideas and attitudes expressed in the promotional video for the tao of badass product ideas and attitudes which the author finds to be toxic infantile demeaning and reprehensible alan stransman is the author of several books including two memoirs one of which entitled so why have you never been married a memoir of love loss and lunacy was described by stransman as a love letter to the women in my life that i have loved lost and never forgotten a former teacher of english literature at both the high school and university levels and a former television writer producer and director stransman argues in badass b's that the entire culture of seducing women is based upon a fantasy of controlling and raping women women already get it says stransman it is men and especially young men who need to be sensitized to the kinds of demeaning and insulting ideas and attitudes towards women and sex that are rampant in our culture my book won't change the world but it may be a small step in the right direction

## **Observational Listening 2016-07-27**

conversational skills people already talk with one another don't they it should be redundant to write a book about conversational skills so you would think yet there are differences between people one seems to get a little more done than the next often this boils down to subtle differences in the way they communicate ordinarily people tend to ask questions with a certain goal or purpose in mind they then listen to the answer as if the answer is based on the question as they meant it to be yet the other is answering based on what he understood the question to mean observational listening trains the listener to let go of his own goals and interpretations and concentrate on the reactions evoked in other words the listener tries to find out what the question meant to the other in this way he gets it and is able to bring depth into the conversation in a natural way without resorting to tricks this book also goes further than your everyday conversation it is directed at conversational skills in psychosocial settings the philosophy behind the book is simple yet profound if you realise that communication is an emotion as well as the expression of emotion the way to becoming an excellent communicator is to understand emotion and how it translates into behaviour this is what makes this book unique it provides the missing link between emotion and communication

in earth s distant future most of its religions known today decline or change as a result of this spiritual upheaval the barrier between the spiritual world and the physical one falter and ghouls and demons are loosed upon the earth ultimately most of these are resealed by the new religions but one such demon named belial requires nothing short of sealing by angels to put back to rest thousands of years later a beggar named ambrosia brahmin picks herself off the street only to be sent on a fetch quest by god joined by swordsman a shaman a thief a druid an exorcist an angel and a demon meanwhile the demon from eons before sealed in a jar is slowly being unsealed by a duped wizard given false promises of rewards that await him
