Catalog of Copyright Entries. Third Series 1960

includes part 1 number 2 books and pamphlets including serials and contributions to periodicals july december

Autocar 2005

the primary purpose of this book is to trace the theoretical methodological foundations of american educational technology it must be emphasized that this work is essentially as history of the process of educational technology rather than of products in the form of devices or media although media have played an important role in educational technology the reader should not lose sight of the central

process which characterizes and underlies the true historical meaning and function of educational technology moreover the assumption is made that all current theory methodology and practice rests upon the heritage of the past indeed a common problem in the field has been the failure in many instances to take adequate account of past history in planning for the present or the future a related purpose of this book is to provide a selective survey of research in educational technology as it relates to the american public schools such research reviews are not intended to be comprehensive but were included because of their historical importance and their relevance in understanding the process of educational technology

Books and Pamphlets, Including Serials and Contributions to Periodicals 1949

the record of each copyright registration listed in the catalog includes a description of the work copyrighted and data relating to the copyright claim the name of the copyright claimant as given in the application for registration the copyright date the copyright

registration number etc

Bulletin 1939
