**Al Muhajiroun** 2020-03-27 grounded in nine years of ethnographic research on the Al Muhajiroun Ahlus Sunnah wal Jamaah movement, Alm Aswj Douglas Weeks mixes ethnography and traditional research methods to tell the complete story of Al Muhajiroun beginning with three core events that became a primer for radical Islamic political thought in the UK. Al Muhajiroun: A Case Study in Islamic Activism traces the development of the movement from its incipient beginnings to its current status based on his extensive interaction with the group and its leaders. Weeks contextualizes the history, beliefs, methods, and differences between Alm Aswj Al Qaeda and the Islamic State so that the group and the threat it poses is comprehensively understood.

**Transforming the University of Kansas** 2015-08-10 sitting atop Mount Oread, the University of Kansas stands as a monument to the determination of the state's earliest settlers to build for the future as a city on a hill. The university has also mirrored both American society's hopes and its fears, and never has this been truer than over the past five decades. *Transforming the University of Kansas* chronicles the many accomplishments and the daunting challenges that marked the last half century at the university on the eve of the sesquicentennial anniversary of the school's founding. This book reflects upon the people, politics, and developments that have transformed KU since 1965, making it the distinctive institution of higher learning that it is today. Like major universities across the country, Kansas became a global research institution in these years, a leader in academic inquiry and scholarly expertise. It also experienced a wrenching process of change following student protests demanding greater rights and recognition. The authors, all experts from KU's faculty or staff, focus on particular aspects of the era, documenting major changes that

occurred and introducing key leaders organized in three broad categories leadership and politics teaching and research and students protest and sports these essays draw upon a wealth of archival material including interviews and yearbooks student publications and alumni sources to create a full and richly textured picture of growth and change over five decades these essays detail the school s transformation from a bucolic college into a sprawling university capturing the personalities and spirit of each of the eight chancellors who have guided ku through these challenging times the essays describe innovations in learning from the liberal arts through international studies and graduate research and they reveal the changing character of student life in curricular and extra curricular activities in campus activism scholarship and athletics together the essays comprise a living portrait of the university broad in scope and vivid in detail growing and adapting to a rapidly changing world prepared to meet the challenges of the new century

**Emerging Local Politics in Indonesia** 2023-11-07 this book provides a richer understanding of democratic local politics in indonesia after the implementation of local direct elections in 2005 co published with the university of airlangga press it confronts the question as to why incumbent political leaders succeed and fail in their bid for re election by focusing on urban and rural districts in east java one of the most populated regions in indonesia the work unpacks the general trends of local indonesian politics drawing from an empirically sound and theoretically well grounded case study the author demonstrates that good policy performance does not guarantee the political survival of the incumbent and reversibly bad policy performance does not necessarily mean losing political power it considers the core political strategies of populism rivalry and tangibility and cautions that rather than helping liberal democracy to grow these strategies support patronage driven democracy within this system a small number of vital protectors and defenders control

patronage and problematically exert influential control over the country's electoral processes relevant to scholars and students in Indonesian studies and within political science and Asian studies more broadly this book follows a gripping and nuanced narrative that explains the relationship between policy choices informal politics voting behavior and political survival in Indonesia

*The Athletic Trap* 2014-03-15 the book explores diplomatic style and its use as a means to provide analytical insight into a state s foreign policy with a specific focus on south korea diplomatic style attracts scant attention from scholars it is dismissed as irrelevant in the context of diplomacy s universalism

misconstrued as a component of foreign policy alluded to perfunctorily amidst broader considerations of foreign policy or wholly absented from discussions in which it should comprise an important component in contrast to these views practitioners maintain a faith like confidence in diplomatic style they assume it plays an important role in providing analytical insight giving them advantage over scholars in the analysis of foreign policy this book explores diplomatic style and its use as a means to provide analytical insight into foreign policy using south korea as a case study it determines that style remains important to diplomatic practitioners and provides analytical insight into a state s foreign policy by highlighting phenomena of policy relevance which narrows the range of information an analyst must cover the book demonstrates how south korea s diplomatic style which has a tendency towards emotionalism and is affected by status generational change cosmopolitanism and estrangement from international society can be a guide to understanding south korea s contemporary foreign policy this book will be of much interest to students of diplomacy studies foreign policy asian politics and

international relations in general

**Diplomatic Style and Foreign Policy** 2016-05-20 this book is the first comprehensive study on history culture and business of football in asia football has been a symbol of the modern invention a catalyst of local national and regional identities all time favourite among kids and youths and even a harbinger for cultural globalization and consumerism in asia the economic growth and the current proliferation of football culture in asia make it imperative to examine the complex relationship between the globalization of football and the local appropriation the essays in the book deal with various topics on football in asia from history of football in asia football and local national and regional identities to commercialization of football cultures global mobility and athletes migration and then new asianism and football this book argues that football in asia contributes to reconfiguring both national and regional identities among football fans in the active interconnection with the global flows of football and cultural globalization without homogenizing asian identities into a cosmopolitan one this is the textbook to presents football s implication and influence on asian populace and social changes while using football as a lens assessing the modern development and current diversification of asia this book was published as a special issue of soccer and society

**Football in Asia** 2016-03-17 in the four decades or so since its invention the internet has become pivotal to how many societies function influencing how individual citizens interact with and respond to their governments within southeast asia while most governments subscribe to the belief that new media technological advancement improves their nation s socio economic conditions they also worry about its cultural and political effects this book examines how this set of dynamics operates through its study of new media in contemporary malaysian society using the social imaginary framework and adopting a socio historical approach the book explains the varied understandings of new media as a

continuing process wherein individuals and their societies operate in tandem to create negotiate and enact the meaning ascribed to concepts and ideas in doing so it also highlights the importance of non users to national technological policies through its examination of the ideation and development of malaysia s multimedia super corridor mega project to date and reference to the seminal socio political events of 2007 2012 including the 2008 general elections bersih and hindraf rallies this book provides a clear explanation for new media s prominence in the multi ethnic and majority islamic society of malaysia today it is of interest to academics working in the field of media and internet studies and southeast asian politics

**New Media and the Nation in Malaysia** 2013-10-08 freedom in the world the freedom house flagship survey whose findings have been published annually since 1972 is the standard setting comparative assessment of global political rights and civil liberties the survey ratings and narrative reports on 194 countries and 14 territories are used by policymakers the media international corporations civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide the freedom in the world political rights and civil liberties ratings are determined through a multi layered process of research and evaluation by a team of regional analysts and eminent scholars the analysts used a broad range of sources of information including foreign and domestic news reports academic studies nongovernmental organizations think tanks individual professional contacts and visits to the region in conducting their research the methodology of the survey is derived in large measure from the universal declaration of human rights and these standards are applied to all countries and territories irrespective of geographical location ethnic or religious composition or level of economic development *Freedom in the World 2013* 2013-10-10 the gradual legal and political evolution of the european union has not thus far been

accompanied by the articulation or embrace of any substantive ideal of justice going beyond the founders intent or the economic objectives of the market integration project this absence arguably compromises the foundations of the eu legal and political system since the relationship between law and justice a crucial question within any constitutional system remains largely unaddressed this edited volume brings together a number of concise contributions by leading academics and young scholars whose work addresses both legal and philosophical aspects of justice in the european context the aim of the volume is to appraise the existence and nature of this deficit its implications for europe s future and to begin a critical discussion about how it might be addressed there have been many accounts of the eu as a story of constitutional evolution and a system of transnational governance but few which pay sustained attention to the implications for justice the eu today has moved beyond its initial and primary emphasis on the establishment of an internal market as the growing importance of eu citizenship and social rights suggests yet most legal analyses of the eu treaties and of eu case law remain premised broadly on the assumption that eu law still largely serves the purpose of perfecting what is fundamentally a system of economic integration the place to be occupied by the underlying substantive ideal of justice remains significantly underspecified or even vacant creating a tension between the market oriented foundation of the union and the contemporary essence of its constitutional system the relationship of law to justice is a core dimension of constitutional systems around the world and the eu is arguably no different in this respect the critical assessment of justice in the eu provided by the contributions to this book will help to create a fuller picture of the justice deficit in the eu and at the same time open up an important new avenue of legal research of immediate importance

**Europe's Justice Deficit?** 2015-04-30 with the american dream progressively elusive for and exclusive of latinos there is an

urgent need for empirically and conceptually based macro level policy solutions for latino education going beyond just exposing educational inequalities this volume provides intelligent and pragmatic research based policy directions and tools for change for u s latino education and other multicultural contexts u s latinos and education policy is organized round three themes education as both product and process of social and historical events and practices the experiences of young immigrants in schools in both u s and international settings and policy approaches to address their needs and situated perspectives on learning among immigrant students across school home and community with contributions from leading scholars including luis moll eugene e garcia richard p durán sonia nieto angela valenzuela alejandro portes and barbara flores this volume enhances existing discussions by showcasing how researchers working both within and in collaboration with latino communities have employed multiple analytic frameworks illustrating how current scholarship and culturally oriented theory can serve equity oriented practice and focusing attention on ethnicity in context and in relation to the interaction of developmental and cultural factors the theoretical and methodological perspectives integrate praxis research from multiple disciplines and apply this research directly to policy

*U.S. Latinos and Education Policy* 2014-03-14 the marketisation of higher education is a growing worldwide trend increasingly market steering is replacing or supplementing government steering tuition fees are being introduced or increased usually at the expense of state grants to institutions grants for student support are being replaced or supplemented by loans commercial rankings and league tables to guide student choice are proliferating with institutions devoting increasing resources to marketing branding and customer service the uk is a particularly good example of this not only because it is a country where marketisation has arguably proceeded furthest but also because

of the variations that exist as scotland wales and northern ireland increasingly diverge from england in everything for sale roger brown argues that the competitive regime that is now applicable to our higher education system was the logical and possibly inevitable outcome of a process that began with the introduction of full cost fees for overseas students in 1980 through chapters including markets and non markets the institutional pattern of provision the funding of research the funding of student education quality assurance the impact of marketisation efficiency diversity and equity he shows how the evaluation and funding of research the funding of student education quality assurance and the structure of the system have increasingly been organised on market or quasi market lines as well as helping to explain the evolution of british higher education over the past thirty years the book contains some important messages about the consequences of introducing or extending market competition in universities core activities of teaching and research this timely and comprehensive book is essential reading for all academics at university level and anyone involved in higher education policy

**Feminism, Law, and Religion** 2016-04-15 from a fire policy of

prevention at all costs to today's restored burning between two fires is america's history channeled through the story of wildland fire management stephen j pyne tells of a fire revolution that began in the 1960s as a reaction to simple suppression and single agency hegemony and then matured into more enlightened programs of fire management it describes the counterrevolution of the 1980s that stalled the movement the revival of reform after 1994 and the fire scene that has evolved since then pyne is uniquely qualified to tell america's fire story the author of more than a score of books he has told fire's history in the united states australia canada europe and the earth overall in his earlier life he spent fifteen seasons with the north rim longshots at grand canyon national park in between two fires pyne recounts how after the great fires of 1910 a policy of fire suppression spread from america's founding corps of foresters into a national policy that manifested itself as a costly all out war on fire after fifty years of attempted fire suppression a revolution in thinking led to a more pluralistic strategy for fire's restoration the revolution succeeded in displacing suppression as a sole strategy but it has failed to fully integrate fire and land management and has fallen short of its goals today the nation's backcountry and increasingly its exurban fringe are threatened by larger and more damaging burns fire agencies are scrambling for funds firefighters continue to die and the country seems unable to come to grips with the fundamentals behind a rising tide of megafires pyne has once again constructed a history of record that will shape our next century of fire management between two fires is a story of ideas institutions and fires it's america's story told through the nation's flames

**Speaking of Indigenous Politics** 2018-06-10 in from migrants to refugees jill rosenthal tells the history of how rwandan migrants in a tanzanian border district became considered either citizens or refugees as nation state boundaries solidified in the wake of decolonization outlining the process by which people who

have long lived and circulated across the rwanda tanzania border came to have a national identity rosenthal reveals humanitarian aid s central role in the ideological processes of decolonization and nation building from precolonial histories to the first rwandan refugee camps during decolonization in the 1960s to the massive refugee camps in the 1990s rosenthal highlights the way that this area became a testing ground for novel forms of transnational aid to refugees that had global implications as local and national actors refugees and international officials all attempted to control the lives and futures of refugee groups they contested the authority of the nation state and the international refugee regime this history rosenthal demonstrates illuminates how tensions between state and international actors divided people who share a common history culture and language across national borders Between Two Fires 2015-10-15 the supreme court s decision in the health care case nhib v sebelius gripped the nation s attention during the spring of 2012 this volume gathers together reactions to the decision from an ideologically diverse selection of the nation s leading scholars of constitutional administrative and health law

**From Migrants to Refugees** 2023-10-06 since the beginning of the obama administration conservative politicians have railed against the president s war on coal as evidence of this supposed siege they point to a series of rules issued by the environmental protection agency that aim to slash air pollution from the nation s power sector because coal produces far more pollution than any other major energy source these rules are expected to further reduce its already shrinking share of the electricity market in favor of cleaner options like natural gas and solar power but the epa s policies are hardly the unprecedented regulatory assault that opponents make them out to be instead they are merely the latest chapter in a multi decade struggle to overcome a tragic flaw in our nation s most important environmental law in 1970 congress passed the clean air act which had the remarkably

ambitious goal of eliminating essentially all air pollution that posed a threat to public health or welfare but there was a problem for some of the most common pollutants congress empowered the epa to set emission limits only for newly constructed industrial facilities most notably power plants existing plants by contrast would be largely exempt from direct federal regulation a regulatory practice known as grandfathering what lawmakers didn t anticipate was that imposing costly requirements on new plants while giving existing ones a pass would simply encourage those old plants to stay in business much longer than originally planned since 1970 the core problems of u s environmental policy have flowed inexorably from the smokestacks of these coal fired clunkers which continue to pollute at far higher rates than their younger peers in struggling for air richard l revesz and jack lienke chronicle the political compromises that gave rise to grandfathering its deadly consequences and the repeated attempts by presidential administrations of both parties to make things right

The Health Care Case 2013-07-04 this publication contains original research targeting scientific specialists in the field of education through research endeavours grounded on a philosophical basis as well as being embedded in the empirical the research methodology of each chapter emanates from applicable philosophical assumptions in the form of an applicable theoretical and conceptual framework the latter forms a firm basis for the application of sound empiricism the content of this book adds to the body of scholarly knowledge in education in his evaluation of the book acting executive dean faculty of education and training professor akpovire oduaran made the following remarks to a large extent the ideas put together in this book have come from data generated not just from literature found in books and journals but actual interactions with educators and the learning environment so then what the reader is offered in this volume is the articulation of ideas that have been interrogated

structured and presented in surprisingly simplistic and yet incisive and academically enriching content that can match the standards of scholarship that is available in the western world yet what makes this book so welcome relevant and timely is the fact that it is built around afrocentric theories and practices such as one may find in imported literature
