health care workforce to serve all beneficiaries regardless of where they live

The Basics of Corset Building 2014-03-31 at a time of increasing city competition
national capitals are at the forefront of efforts to gain competitive advantage for
themselves and their nation to project a distinctive and positive image and to score
well in global city league tables they are frequently their country s main tourist
gateway and their success in attracting visitors is inextricably linked with that of
the nation they attract not just leisure visitors they are especially important in
other growing tourism markets for example as centres of power they feature strongly
in business tourism as academic centres they are important for educational tourism
and they frequently host global events such as the olympic games and there are more
of them first the number of capitals has grown as the number of nation states has
increased and secondly pressures for devolution mean more cities are seeking
national capital status even when they are not at the head of independent states we
need to understand tourism in capitals better but there has been little research in
the past this book develops new insights as it explores the phenomenon of capital
city tourism and uses recent research to examine the appeal of capitalness to
tourists and explore developments in capitals across the world this book was
published as a special issue of current issues in tourism
