before 1893 no woman anywhere in the world had the vote in a national election a hundred years later almost all countries had enfranchised women and it was a sign of backwardness not to have done so this is the story of how this momentous change came about the first genuinely global history of women and the vote it takes the story of women in politics from the earliest times to the present day revealing startling new connections across time and national boundaries from europe and north america to asia africa latin america and the muslim world post 9 11 a story of individuals as well as of wider movements it includes the often dramatic life stories of women s suffrage pioneers from across the world painting vivid biographical portraits of everyone from susan b anthony and the pankhursts to hitherto lesser known activists in china latin america and africa it is also the first major post feminist history of women s struggle for the vote controversially jad adams rejects the widely accepted idea that success was primarily a result of the pressure group politics of the suffragists and their supporters ultimately he argues it was nationalism not feminism that was the most important factor in winning women the vote women s writing in any period remains of critical concern both at undergraduate and postgraduate level alexandra barratt s edition offers a wide range of texts from the period 1300 1500 including original texts written by women in the middle ages texts translated by women in the middle ages prayers meditations scriptural comment and accounts of religious experiences educational writings romance poetry each poem is given a headnote giving details of composition manuscript and sources full on page annotation is provided giving details of allusions to contemporary religious historical and social issues a general introduction gives context to all the pieces and provides a penetrating account of the role of women in a burgeoning society of literary and cultural transmission shaw s textbook of gynaecology one of the best selling gynaecological textbooks of all time has maintained its popularity with teachers examiners and students it is now in its 79th year of publication the organization of content in this book is such that it provides the reader with a logical sequence of events that aid learning the main objective of this best selling title is to meet the needs of undergraduate medical students and those preparing for postgraduate medical entrance examinations this book will also be useful for nursing and physiotherapy students salient features extensively revised and updated to incorporate the latest changes and development of newer concepts systematic presentation to make reading smooth and pleasurable by deleting redundant details adding new tests figures and tables and improving the earlier figures provides the current methodologies and standard techniques attempts to reduce the in depth explanations by giving the subject matter in pointwise form for some important topics inclusion of self assessment and suggested reading at the end of each chapter more than 150 key social issues confronting the united states today are covered in this eight volume set from abortion and adoption to capital punishment and corporate crime from obesity and organized crime to sweatshops and xenophobia just as women in the bible have been overlooked for much of interpretative history children in the bible have fascinating and compelling stories that scholars have largely ignored this groundbreaking book focuses on children in the hebrew bible the author argues that the biblical writers recognized children as different from adults and used these ideas to shape their stories she provides conceptual and historical frameworks for understanding children and childhood and examines hebrew terms related to children and youth the book introduces a new methodology of childist interpretation and

applies it to the elisha cycle 2 kings 2 8 which contains forty nine child characters combining literary insights with social scientific evidence the author demonstrates that children play critical roles in the world of the text as well as the culture that produced it canadian women in print 1750 1918 is the first historical examination of women s engagement with multiple aspects of print over some two hundred years from the settlers who wrote diaries and letters to the new women who argued for ballots and equal rights considering women s published writing as an intervention in the public sphere of national and material print culture this book uses approaches from book history to address the working and living conditions of women who wrote in many genres and for many reasons this study situates english canadian authors within an extensive framework that includes francophone writers as well as women s work as compositors bookbinders and interveners in public access to print literary authorship is shown to be one point on a spectrum that ranges from missionary writing temperance advocacy and educational texts to journalism and travel accounts by new woman adventurers familiar figures such as susanna moodie l m montgomery nellie mcclung pauline johnson and sara jeannette duncan are contextualized by writers whose names are less well known such as madge macbeth and agnes laut and by many others whose writings and biographies have vanished into the recesses of history readers will learn of the surprising range of writing and publishing performed by early canadian women under various ideological biographical and cultural motivations and circumstances some expressed reluctance while others eagerly sought literary careers together they did much more to shape canada s cultural history than has heretofore been recognized using children s and young adult literature is a great way to enhance a variety of college classes in fields as varied as biology computer game development political science and history this collection of new essays by educators from a number of disciplines describes how to use such works as where the wild things are the tale of peter rabbit swamp thing percy jackson and harry potter to introduce complex concepts and spark interest in difficult subjects the contributors describe innovative teaching strategies using dystopian fiction graphic narratives fairy tales and mythology often overlooked or dismissed by teachers children s literature can support student learning by raising levels of academic rigor creativity and critical thinking this splendid reference describes every woman in jewish and christian scripture monumental library journal in recent decades many biblical scholars have studied the holy text with a new focus on gender women in scripture is a groundbreaking work that provides jews christians or anyone fascinated by a body of literature that has exerted a singular influence on western civilization a thorough look at every woman and group of women mentioned in the bible whether named or unnamed well known or heretofore not known at all they are remarkably varied from prophets to prostitutes military heroines to musicians deacons to dancers widows to wet nurses rulers to slaves there are familiar faces such as eve judith and mary seen anew with the full benefit of the most up to date results of biblical scholarship but the most innovative aspect of this book is the section devoted to the many females who in the scriptures do not even have names combining rigorous research with engaging prose these articles on women in the hebrew bible the apocryphal deuterocanonical books and the new testament will inform delight and challenge readers interested in the bible scholars and laypeople alike together these collected histories create a volume that takes the study of women in the bible to a new level examining the intersection of occult spirituality text and gender this book provides a compelling analysis of the occult revival in literature from the 1880s through the course of the twentieth century bestselling novels such as the da vinci code play with magic and the fascination of hidden knowledge while occult and esoteric subjects have become very visible in literature during the twentieth century this study analyses literature by women occultists such as alice bailey dion fortune and starhawk and revisits texts with occult motifs by canonical authors such as sylvia townsend warner leonora carrington and angela carter this material which has never been analysed in a literary context covers influential movements such as theosophy spiritualism golden dawn wicca and goddess spirituality wallraven engages with the question of how literature functions as the medium for creating occult worlds and powerful identities particularly the female lucifer witch priestess and goddess based on the concept of ancient wisdom the occult in literature also incorporates topical discourses of the twentieth century including psychoanalysis feminism pacifism and ecology hence as an ever evolving discursive universe it presents alternatives to religious truth claims that often lead to various forms of fundamentalism that we encounter today this book offers a ground breaking approach to interpreting the forms and functions of occult texts for scholars and students of literary and cultural studies religious studies sociology and gender studies urolithiasis a comprehensive history provides a historical sojourn into the varied manifestations of kidney stone disease utilizing historical sources and integrating classic material with new concepts this new volume provides depth and details on stone disease not found in modern overviews on the topic this volume serves as a very useful tool for physicians and researchers dealing with kidney stone disease written by a renowned expert in the field urolithiasis a comprehensive history is an in depth resource that heightens our medical understanding of this ancient disease and is of great value to urologists nephrologists endocrinologists interested in stone disease draws on mid seventeenth to nineteenth century slave narratives to describe oppression in the lives of enslaved african women investigates pre colonial west and west central african women s lives prior to european arrival to recover

the cultural traditions and religious practices that helped enslaved women combat violence and oppression this book is a national portrait of immigrant women who live in the united states today featuring the voices of these women as they describe their contributions to work culture and activism highlighting the gendered quality of the immigration process it interrogates how human agency and societal structures interact within the intersecting social locations of gender and migration the popular debate around contemporary u s immigration tends to conjure images of men waiting on the side of the road for construction jobs working in kitchens or delis driving taxis and sending money to their wives and families in their home countries while women are often left out of these pictures through an examination of u s census data and interviews with women across nationalities we hear the poignant humorous hopeful and defiant words of these women as they describe the often confusing terrain where they are starting new lives creating architecture firms building urban high rises caring for children cleaning offices producing creative works and organizing for social change the authors recommend changes for public policy to address the constraints these women face insisting that new policy must be attentive to the diverse profile of today s immigrating woman she is both potentially vulnerable to exploitative conditions and forging new avenues of societal leadership first published in 1994 routledge is an imprint of taylor francis an informa company in its 114th year billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends new york magazine was born in 1968 after a run as an insert of the new york herald tribune and quickly made a place for itself as the trusted resource for readers across the country with award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating new york as both a place and an idea an exemplary study focussing on the corinthian correspondence of the social ethos of early christian teaching and its development a bible student reference a new testament prophecy of a falling away from truth into apostasy and lawlessness in the final generation before jesus christ returns in glory is being fulfilled now and is shortly to end yet christianity has overwhelmingly moved so far from its first century roots that it could not even recognise this or that christ s return is therefore now almost upon us how and why this is the case is here explained thoroughly and logically with many examples directly from the word of god in god s saving plan for the world everyone must in time make a free will choice to become part of the israel of god in order to access eternal life in the kingdom of god the route to take is the strait and narrow way mat 7 13 14 that very few have so far found and it involves the biblical new and old covenants which both apply to this israel embark on this voyage only if you are willing to be challenged about some basic christian preconceptions be a serious open minded bible student and trust what the bible teaches but remember that time is short what the bible has taught me i see as both vital and urgent for our eternal salvation yet i know of no church or individual theologian who teaches what this book deals with in any substantive way be prepared for major challenges to your understanding just as god has challenged me in the epistles paul refers to two israels whom he calls israel after the flesh i cor 10 18 and the israel of god gal 6 16 i focus mainly on the latter but i also explain an unexpected but critically important connection between them dependent on the teaching nearly all christian denominations either teach nothing at all on it or almost the opposite of what scripture repeatedly showed me looking back i find this absolutely staggering very few christians understand that the new covenant also only applies to israel as i will clearly show i no longer believe that the nt new testament can be fully understood without this extra israel dimension had i felt i could deliver this in a more light hearted way i would have done so but its implications are too awesome and fundamental to our eternal life prospects for that

1882

using children's and young adult literature is a great way to enhance a variety of college classes in fields as varied as biology, computer game development, political science, and history. This collection of new essays by educators from a number of disciplines describes how to use such works as *Where the Wild Things Are*, *The Tale of Peter Rabbit*, *Swamp Thing*, *Percy Jackson*, and *Harry Potter* to introduce complex concepts and spark interest in difficult subjects. The contributors describe innovative teaching strategies using dystopian fiction, graphic narratives, fairy tales, and mythology, often overlooked or dismissed by teachers. Children's literature can support student learning by raising levels of academic rigor, creativity, and critical thinking.

Women's Writing in Middle English

2013-12-16

This splendid reference describes every woman in Jewish and Christian scripture. Monumental Library Journal. In recent decades, many biblical scholars have studied the Holy Text with a new focus on gender. *Women in Scripture* is a groundbreaking work that provides Jews, Christians, or anyone fascinated by a body of literature that has exerted a singular influence on Western civilization a thorough look at every woman and group of women mentioned in the Bible, whether named or unnamed, well-known or heretofore not known at all. They are remarkably varied, from prophets to prostitutes, military heroines to musicians, deacons to dancers, widows to wet nurses, rulers to slaves. There are familiar faces such as Eve, Judith, and Mary, seen anew with the full benefit of the most up-to-date results of biblical scholarship. But the most innovative aspect of this book is the section devoted to the many females who, in the scriptures, do not even have names. Combining rigorous research with engaging prose, these articles on women in the Hebrew Bible, the Apocryphal/Deuterocanonical books, and the New Testament will inform, delight, and challenge readers interested in the Bible. Scholars and laypeople alike together these collected histories create a volume that takes the study of women in the Bible to a new level.

Shaw's Textbook of Gynecology E-Book

2014-12-11

Examining the intersection of occult spirituality, text, and gender, this book provides a compelling analysis of the occult revival in literature from the 1880s through the course of the twentieth century. Bestselling novels such as *The Da Vinci Code*, *Play with Magic*, and *The Fascination of Hidden Knowledge* while occult and esoteric subjects have become very visible in literature during the twentieth century, this study analyzes literature by women occultists such as Alice Bailey, Dion Fortune, and Starhawk, and revisits texts with occult motifs by canonical authors such as Sylvia Townsend Warner, Leonora Carrington, and Angela Carter. This material, which has never been analyzed in a literary context, covers influential movements such as Theosophy, Spiritualism, Golden Dawn, Wicca, and Goddess Spirituality. Wallraven engages with the question of how literature functions as the medium for creating occult worlds and powerful identities, particularly the female Lucifer, witch, priestess, and goddess based on the concept of ancient wisdom. The occult in literature also incorporates topical discourses of the twentieth century, including psychoanalysis, feminism, pacifism, and ecology. Hence, as an ever-evolving discursive universe, it presents alternatives to religious truth claims that often lead to various forms of fundamentalism that we encounter today. This book offers a ground-breaking approach to interpreting the forms and functions of occult texts for scholars and students of literary and cultural studies, religious studies, sociology, and gender studies.
