FEMA Supervisors' Guide to Equal Employment Opportunity 2000 top level executives middle managers and entry level supervisors in organizations need the nuts and bolts for carrying out effective leadership and supervision particularly in organizations with limited resources this guide includes topics often forgotten in trendy publications including time and stress management staffing organizing team building setting goals giving feedback and much more it also provides guidance for boards and business leaders to work together effectively

HSMHA Supervisors' Guide on Alcohol Abuse 1973 one of the major intangible benefits associated with the postgraduate research experience is precisely that the experience and more specifically for an increasing number of international research students the british doctoral experience this experience is often largely defined and shaped by their relationship with and support from their supervisor enhancing the doctoral experience brings together the authors experience and research frameworks and models as well as pragmatic feedback and understanding this synthesis of scholarly theory and pragmatic sampling has produced a book that provides a scaffold for students and supervisors to have conversations about their expectations to discuss what supervision is to articulate clearly what both parties need in order for a successful relationship to occur and to build a mutually beneficial endeavour in many cases these conversations can be complicated by cultural and linguistic differences so the text explicitly addresses these and other sources of misunderstanding against a challenging background of growing numbers of students but also increasing pressures on time and costs enhancing the doctoral experience offers an approach to improve the effectiveness of the doctoral student and increase the professionalization of research supervision it does so by providing both with an awareness of and a toolkit to approach student diversity
